officer of the division of law enforcement in the department of environmental conservation, a police officer in the department of environmental conservation, a forest ranger in the department of environmental conservation, a regional state park police officer or a university police officer to become covered by the provisions of a special 20 year retirement plan, which will provide a benefit of one-half of final average salary upon retirement, and an additional benefit of one-sixtieth of final average salary for each year of creditable service in excess of 20 years, not to exceed 12 such years.

If this bill is enacted, there will be an increase in the annual contributions of the state of New York of approximately \$3.1 million for the fiscal year ending March 31, 2020.

In addition to the annual contributions discussed above, there will be an immediate past service cost to the state of New York of approximately \$38.0 million. This estimate is based on the assumption that payment will be made on March 1, 2020. If the State of New York elects to amortize this cost over a 10-year period, the cost for the first year would be \$5.1 million. A. 4431

This estimate is based on 1,220 affected officers, with an estimated annual salary of approximately \$98 million for the fiscal year ending March 31, 2018.
