AN ACT to amend the labor law and the state finance law, in relation to requiring the licensing of persons engaged in the design, construction, inspection, maintenance, alteration, and repair of elevators and other automated people moving devices (Part A); and to amend the administrative code of the city of New York, in relation to the licensing of approved elevator agency directors, inspectors, and technicians performing elevator work in the city of New York; and to repeal the definition of private elevator inspection agency in section 28-401.3 of the administrative code of the city of New York (Part B)

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. This act enacts into law legislation providing for elevator
2 safety. Each component is wholly contained within a Part identified as
3 Parts A through B. The effective date for each particular provision
4 contained within such Part is set forth in the last section of such
5 Part. Any provision in any section contained within a Part, including
6 the effective date of the Part, which makes reference to a section "of
7 this act", when used in connection with that particular component, shall
8 be deemed to mean and refer to the corresponding section of the Part in
9 which it is found. Section four of this act sets forth the general
10 effective date of this act.

11 § 2. Legislative findings and declaration. The legislature hereby
12 finds that the use of unsafe and defective elevators and other automated

1 people moving conveyances may expose the public to unsafe conditions and
2 increase the risk of injury. The legislature finds that improper design,
3 construction, maintenance and repair of such conveyances is preventable
4 by requiring proper training of persons employed to perform work on
5 elevators and other automated people moving conveyances and by requiring
6 the licensing of contractors and the certification of individuals
7 involved in elevator and other automated people moving conveyances
8 projects.

9 Nothing in this act is intended to create, expand, diminish, limit,
10 impair, or supersede any rights under current law, rule, or regulation,
11 or resulting from a determination of a court or the national labor
12 relations board with regard to building trades and the work of such
13 building trade. Nor is it intended to abrogate any rights or duties
14 under any contract with regard to building trades and the work of such
15 building trade.

16 PART A

17 Section 1. The labor law is amended by adding a new article 33 to read

9 install, alter, replace, service, or maintain, any conveyance contained
10 within buildings or structures in this state unless such elevator
11 contractor holds an elevator contractor's license.

12 2. Except as otherwise provided for in subdivisions three and four of
13 section nine hundred fifty of this article, it shall be a violation of
14 this article for any person to wire any conveyance, from the mainline
15 feeder terminals on the controller, in this state unless such person has
16 an elevator mechanic's license and is working under the direct super-
17 vision of a licensed elevator contractor pursuant to this article. No
18 other license shall be required for this work, excluding the installa-
19 tion of branch circuits and wiring terminations for machine room and pit
20 lighting, receptacles and HVAC as described in the NFPA National Elec-
21 tric Code 620.23 and 620.24 as well as fire and heat detectors and
22 alarms, may be performed by a licensed electrical contractor.

23 3. Except as otherwise provided for in subdivision three of section
24 nine hundred fifty of this article, it shall be a violation of this
25 article for any person to inspect or test any conveyance within build-
26 ings or structures unless such person holds an elevator inspector's
27 license.

28 4. Except as otherwise provided for in subdivisions three and four of
29 section nine hundred fifty of this article, it shall be a violation of
30 this article for any elevator contractor to erect, construct, install,
31 or alter conveyances within buildings or structures within this state
32 unless a permit therefor has been issued by the commissioner before work
33 is commenced. No permit shall be issued except to a person holding a

38 permits issued to elevator contractors on the AHJ's official website
39 within forty-eight hours of their issuance. The information required to
40 be published must include, at a minimum, the date of issuance, the work
41 covered by the permit, the elevator contractor or contractors involved

46 Subsequent to installation, the elevator contractor must certify compli-
47 ance to the commissioner with the applicable sections of this article as
48 well as any other applicable law, rule, regulation or code. Prior to
49 such conveyances being used, the property owner or lessee must obtain a
50 certificate of operation from the commissioner. A fee, as set forth in
51 this article, shall be paid for such certificate of operation, however,
52 no such fee shall be required for conveyances in private residences. It
53 is the responsibility of the licensed elevator contractor to complete
54 and submit registrations for new installations. A certificate of opera-
55 tion shall be valid for one year, except for certificates issued for
56 platform lifts for private residences, which shall be valid for a period

1 of three years. Certificates of operation must be clearly and conspicuously
2 displayed on, in or around each conveyance and be accessible to
3 the state or locality inspecting or enforcing any applicable law, rule,
4 regulation or code. An application for a certificate of operation under
5 this section with the commissioner shall not be required if an authority
6 having jurisdiction ("AHJ") posts all certificates of operation issued
7 to a building owner on the AHJ's official website within forty-eight
8 hours of their issuance. The information required to be published must
9 include, at a minimum, the date of issuance, the unit subject to the
10 certificate of operation, the name and address of the building owner,
11 and the address of the unit.

12 6. Except as otherwise provided in subdivision three of section nine
13 hundred fifty of this article, the certificate of operation for newly
14 installed platform lifts for private residences shall be issued only
15 subsequent to an inspection by a licensed third party inspection firm.
16 The certificate of operation fee for all new and existing platform lifts
17 for private residences and any renewal certificate fees are hereby
18 waived. The inspection of private residence platform lifts shall be done
19 at the request and consent of the private residence's owner or lessees.

20 7. It shall be the responsibility of licensees to ensure that the
21 installation, service or maintenance of conveyances is performed in
22 compliance with existing state and local building and maintenance codes.

23 § 953. License and permit procedure. All applications for elevator
24 contractor's, elevator mechanic's, and elevator inspector's licenses and
25 required permits shall be submitted to the department in writing on
26 forms furnished by the commissioner and shall contain the information
27 set forth in this section as well as any additional information that the
28 commissioner may require. The commissioner shall also set fees for
29 licensing and permitting under this section.

30 1. Applications for licenses. Every application for a license under
31 this article shall include the following:

32 (a) the name, residence address and business address of the applicant;
33 (b) the number of years the applicant has engaged in the business or
34 practice of designing, constructing, erecting, installing, inspecting,
35 testing, repairing, altering, maintaining, or servicing conveyances
36 covered by this article;

37 (c) the approximate number of persons, if any, to be employed by the
38 applicant for an elevator contractor's license;

39 (d) evidence that the applicant is or will be covered by general
40 liability, personal injury and property damage insurance; and

41 (e) any other information which the commissioner may require.

42 Upon approval of an application for a license the commissioner shall
43 issue such license which shall be valid for two years. The fees for such
44 license and renewal thereof shall be set by the commissioner. Any denial
45 for such application shall set forth the reasons therefor.

46 2. Application for permits. Every application for a permit under this
47 article shall include plans and specifications stamped and signed by a
48 professional engineer and/or an architect licensed pursuant to article
49 one hundred forty-five and/or article one hundred forty-seven of the
50 education law. Every application for a permit under this article shall
51 include the following:

52 (a) copies of the specifications and accurately scaled and fully
53 dimensioned plans showing the location of the installation in relation
54 to the plans and elevation of the building;

55 (b) the location of the machinery room and the equipment to be
56 installed, relocated or altered;

1 (c) all structural supporting members thereof, including foundations;
2 (d) a list of all materials to be employed and all loads to be

4 (e) any other information that the commissioner may require to ensure
5 that such plans and specifications are sufficiently complete and illus-
6 trate all details of construction and design;

7 (f) any required permitting fees, which are subject to return upon
8 denial of a permit application; and

9 (g) the department shall maintain and publish a registry of all
10 licensed elevator mechanics, contractors and inspectors, which shall
11 list and identify, all licensed elevator mechanics, contractors, and
12 inspectors doing business in this state. The department shall make the
13 registry available on its website.

14 Upon approval of an application for a permit the commissioner shall
15 issue such permit. Such permit shall state the time by which the work
16 shall commence and also when such permit expires. If after the work has
17 been started, work is suspended or abandoned for a period of sixty days,
18 or such shorter period of time as the commissioner may specify at the
19 time the permit is issued, the permit shall expire. Upon expiration of
20 a permit for which work has not been completed, the commissioner may
21 extend such permit.

22 3. Licensing and permitting exemptions. Whenever an emergency exists
23 in this state due to a disaster or act of God, which imperils the
24 health, safety or welfare of an individual or individuals and placing
25 such individual or individuals in imminent danger of injury or death and
26 the number of persons in the state holding licenses granted by the board
27 is insufficient to cope with such emergency, any person certified by a
28 licensed elevator contractor to have an acceptable combination of docu-
29 mented experience and education to perform elevator work without direct
30 and immediate supervision shall seek an emergency elevator mechanic's
31 license from the commissioner within five business days after commencing
32 work requiring a license. The commissioner shall issue emergency eleva-
33 tor mechanic's licenses to address the emergency that exists. The
34 licensed elevator contractor shall furnish proof of competency as the
35 commissioner may require. Each such license shall recite that it is
36 valid for a period of fifteen days from the date thereof and for such
37 particular elevators or geographical areas as the commissioner may
38 designate to address the emergency situation and otherwise shall entitle
39 the licensee to the rights and privileges of an elevator mechanic's
40 license issued in this article. The commissioner shall renew an emer-
41 gency elevator mechanic's license during the existence of an emergency
42 as needed. No fee shall be charged for any emergency elevator mechanic's
43 license or renewal thereof.

44 4. Restricted license. A restricted class of lift mechanic license
45 shall be known as "accessibility technician". Such class of license
46 shall be restricted to performing work involving platform lifts includ-
47 ing those installed in private residences which are covered by the
48 provisions of ASME (American society of mechanical engineer) codes and
49 standards A18.1-2005. An applicant for such restricted license shall
50 complete an application approved by the board and shall have at least
51 three years verified work experience in constructing, maintaining and
52 repairing those lifts covered by ASME A18.1-2005 and shall provide to
53 the commissioner a certificate of completion of an accessibility train-
54 ing program for lifts under the scope of A18.1-2005 such as the certi-
55 fied accessibility training provided by the national association of

1 elevator contractors, or an equivalent program as deemed by the depart-
2 ment.

3 § 954. Qualifications, training and continuing education. 1. No
4 license shall be granted to any person who has not paid the required
5 application fee and demonstrated his or her qualifications and abili-

26 the business of construction, inspection, maintenance, alteration and
27 repair of elevators as verified by current and previous employers, upon
28 compliance with standards and requirements not lower, in the judgement
29 of the commissioner than those of this state, provided, however, that
30 such state extends the same reciprocity to the licensees of this state.
31 Such application shall be accompanied by the required license fee.

32 2. Applicants for an elevator contractor's license must demonstrate to
33 the commissioner that such elevator contractor employs licensed elevator
34 mechanics who perform the work described in section nine hundred fifty
35 of this article and have proof of compliance with the insurance require-

38 3. Applicants for an elevator inspector's license must demonstrate to
39 the satisfaction of the commissioner that such applicant meets or
40 exceeds applicable standards such as a Qualified Elevator Inspector
41 (QEI) or its equivalent. Private elevator inspectors shall maintain the
42 same insurance requirements as an elevator contractor.

43 4. (a) The renewal of all licenses granted under the provisions of
44 this subdivision shall be conditioned upon the submission of a certif-
45 icate of completion of a course designed to ensure the continuing educa-
46 tion of licensees on new and existing national, state, and local convey-
47 ances codes and standards and on technology and technical education and
48 workplace safety. Such course shall consist of not less than eight
49 contact hours (.8 CEU) annually and completed preceding any such license
50 renewal. The commissioner shall establish requirements for continuing
51 education and training programs, and shall approve such programs, as
52 well as maintain a list of approved programs which shall be made avail-
53 able to license applicants, permit applicants, renewal applicants and
54 other interested parties upon request. The commissioner shall promulgate
55 rules and regulations setting forth the criteria for approval of such
56 programs, the procedures to be followed in applying for such approval,

1 and other rules and regulations as the commissioner deems necessary and
2 proper to effectuate the purposes of this section.

3 (b) The commissioner shall assess a fee for each training program

5 continue such order for a reasonable period of time upon the consent of
6 the contractor, or his or her agent or representative. If the commis-

27 in addition to ordering that such contractor's license be revoked, bar
28 such individual from being eligible to reapply for such license for a
29 period not to exceed two years.

30 6. The commissioner may, after notice and hearing, revoke a permit
31 issued under this article based on any of the following violations:

- 32 (a) any false statements or misrepresentation as to a material fact in

45 7. (a) Except as provided in paragraph (b) of this subdivision, if the
46 commissioner finds, after notice and hearing, that an individual has
47 violated any provision of this article, he or she may impose a civil
48 penalty not to exceed one thousand dollars for each such violation. Upon
49 a second or subsequent violation within three years of the determination
50 of a prior violation, the commissioner may impose a civil penalty not to
