1 of six years after the filing date, as long as it is being pursued with
2 reasonable efforts by the applicant. If no state or local agency has
3 discretionary authority over the project, the filing date shall be that
4 of the filing of an application for a building permit, together with a
5 survey prepared by a licensed surveyor and plans prepared by a licensed
6 engineer or architect in which case no environmental documentation need
7 be filed in order for this section to apply. Written notice of such
8 application, except in the case of a one-family dwelling, shall be given
9 by the applicant to all property owners within a distance of two hundred
10 fifty feet of the applicant's property lines by first class mail to the
11 last known address on the tax records. The applicant shall file an affi-
12 davit with the municipality of the mailing of such notice.

13 2. In order to rebut the presumption established pursuant to subdivi-
14 sion one of this section, a municipal board must adopt a detailed writ-
15 ten finding and has the burden of proof to show by clear and convincing
16 evidence that:

17 a. a change in applicable federal or state laws, rules or regulations
18 alters the relevant requirements; or

19 b. newly discovered information or changes in circumstances specif-
20 ically related to the proposed project or its site, will establish that:

21 (i) the project is likely to harm or endanger the public health, safe-
22 ty, general welfare or biological habitat; and

23 (ii) such harm or endangerment will not be prevented by existing laws,
24 codes, ordinances, rules or regulations, or by governmental entities; or

25 c. the municipal board is applying a new or altered requirement that
26 has been the subject of a draft environmental impact statement that was
27 filed before the filing date of the subject application, and has subse-
28 quently become final in not substantially more stringent form than that
29 described in such document, insofar as is relevant to the subject
30 project.

31 3. Such a finding shall be deemed to be a final agency action for
32 purposes of article seventy-eight of the civil practice law and rules
33 and must be challenged within four months of the adoption of the finding
34 by a municipal board.

35 4. Nothing in this section shall be interpreted to preclude:

36 a. the administration of all existing laws, rules and regulations as a
37 result of which there could be requirements imposed on the proposed
38 project; or

39 b. changes to such laws, rules and regulations that would affect
40 future applications.

41 5. This section shall not apply to applications requiring changes in
42 zoning provisions that are sought by the applicant in connection with
43 the proposed project prior to the adoption of any such changes.

44 6. Any substantial changes to the proposed project which is the
45 subject of the application by the applicant, which have not been gener-
46 ated in response to a comment (excepting a comment by, on behalf of or
47 at the behest of the applicant) during the review process, will be
48 deemed a new application.

49 § 151. Application of article. The provisions of this article shall
50 apply only to the counties of Dutchess, Orange, Putnam, Rockland and
51 Westchester, and to no other counties in the state.

52 § 2. This act shall take effect on the one hundred eightieth day after
53 it shall have become a law; and shall expire and be deemed repealed six
54 years after it shall take effect but shall continue to apply to parcels
55 for which an application has been filed pursuant to section 150 of the
56 general municipal law prior to such repeal.
