forty-one of this article, which shall not be excessive or unreasonable, when the provider has rendered such services, has on file a duly executed assignment of benefits, and has caused notice of such assignment to be given to the insurer, organization, or corporation licensed or certified pursuant to article forty-three or forty-seven of this chapter or article forty-four of the public health law or jointly to such nonparticipating or nonpreferred provider and to the insured, subscriber, or other covered person; provided, however, that in either case the insurer, organization, or corporation licensed or certified pursuant to article forty-three or forty-seven of this chapter or article forty-four of the public health law shall be required to send such benefit payments directly to the provider who has the assignment on file. When payment is made directly to a provider of ambulance services as authorized by this section, the insurer, organization, or corporation licensed or certified pursuant to article forty-three or forty-seven of this chapter or article forty-four of the public health law shall give written notice of such payment to the insured, subscriber, or other covered person.

(2) An insurer shall provide reimbursement for those services prescribed by this section at rates negotiated between the insurer and the provider of such services. In the absence of agreed upon rates, an insurer shall pay for such services at the usual and customary charge as defined under section three thousand two hundred forty-one of this article, which shall not be excessive or unreasonable.

(3) An insurer, organization, or corporation licensed or certified pursuant to article forty-three or forty-seven of this chapter or article forty-four of the public health law shall ensure that the insured, subscriber, or other covered person shall incur no greater out-of-pocket costs for ambulance services provided by a nonparticipating or nonpreferred provider than the insured, subscriber, or other covered person would have incurred with a participating or preferred provider of such services.

(4) Nothing contained in this section shall be deemed to prohibit the payment of different levels of benefits or from having differences in coinsurance percentages applicable to benefit levels for services provided by participating or preferred providers and nonparticipating or nonpreferred providers.

The provisions of this subsection shall not apply to policies that do not include coverage for ambulance services.
