§ 37-0903. Consumer notice.
1. Publishing of lists. Within one hundred eighty days of the effective date of this title, the department shall post lists of dangerous chemicals and chemicals of concern on the department's website.

2. Periodic review. (a) The department, in consultation with the department of health, shall periodically review the list of dangerous chemicals and, may through regulation, add or remove dangerous chemicals or chemicals of concern from such lists.

(b) The department, in consultation with the department of health, may identify a chemical as a dangerous chemical if, upon such review, it is present in a children's product and meets any of the following criteria:

(i) The chemical or its metabolites have been found through biomonitoring to be present in humans;

(ii) The chemical has been found through sampling and analysis to be present in household dust, indoor air, drinking water or elsewhere in the home environment;

(iii) The chemical has been found through monitoring to be present in fish, wildlife or the natural environment;

(iv) The sale or use of the chemical or a children's product containing the chemical has been banned in another state or states within the United States because of the health effects of such chemical.

(c) The department, in consultation with the department of health, may remove a chemical from the list of dangerous chemicals if, upon review, it determines on the basis of credible scientific evidence that such chemical no longer meets the criteria for listing under paragraph (b) of this subdivision.

(d) The department, in consultation with the department of health shall identify a chemical as a chemical of concern if, upon review, it determines that the chemical has been identified by a state, federal or international governmental entity on the basis of credible scientific evidence as:

(i) A carcinogen, reproductive or developmental toxicant, neurotoxicant, asthmagen, or endocrine disruptor;

(ii) Persistent, bioaccumulative and toxic; or

(iii) Very persistent and very bioaccumulative.

§ 37-0905. Reporting on the use of chemicals.

1. Reporting of chemical use. No later than twelve months after a dangerous chemical appears on the list published pursuant to section 37-0903 of this title, every manufacturer who offers a children's product for sale or distribution in this state that contains a dangerous chemical or chemical of concern shall report such chemical use at practical quantification limits to the department.

(a) This report must at a minimum identify the children's product, the dangerous chemical or chemicals of concern contained in the children's product and the intended purpose of such chemicals. The department may also require reporting of the following information:

(i) the amount of such chemical in the children's product; or

(ii) information on the likelihood that the chemical will be released from the children's product to the environment during the product's life cycle and the extent to which users of the product are likely to be exposed to the chemical.

(b) The department is authorized to direct submission of such report to the interstate chemicals clearinghouse.

2. Waiver of reporting. Upon application by a manufacturer, the commissioner may waive all or part of the reporting requirements under subdivision one of this section for one or more specified uses of a dangerous chemical. In making such determination, the commissioner may
1. Consider: (a) if substantially equivalent information is already publicly available or that the information is not needed for the purposes of this chapter, (b) similar waivers granted by other states, and (c) whether the specified use or uses are minor in volume.

3. Notice. (a) A manufacturer of a children's product containing a dangerous chemical shall notify persons that offer the children's product for sale or distribution in the state, in a form prescribed by the department, of the presence of such dangerous chemical, and provide such persons with information regarding the toxicity of such chemical.

(b) The department shall notify consumers about children's products containing chemicals of concern and dangerous chemicals. The notification shall be published on the department's website.

4. Fees. The manufacturer shall pay a fee upon submission of a report of chemical use pursuant to subdivision one of this section or a waiver request pursuant to subdivision two of this section to cover the department's reasonable costs in the administration and enforcement of this title. Exclusive of fines and penalties, the state shall only recover its actual cost of administration and enforcement.

§ 37-0907. Sales prohibition.

1. Effective January first, two thousand twenty-three, no person shall distribute, sell or offer for sale in this state a children's product containing tris (1, 3 dichloro-2-propyl) phosphate, benzene, formaldehyde (other than in textiles), asbestos, and organochlorine flame retardants. This provision shall not apply: (a) to a children's product solely based on its containing an enclosed battery or enclosed electronic components and (b) where state regulation of children's products is preempted by federal law. The commissioner may exempt a children's product from this prohibition if, in the commissioner's judgment, the lack of availability of the children's product could pose an unreasonable risk to public health, safety or welfare.

2. Effective three years after being added to the dangerous chemicals list, no person shall distribute, sell, or offer for sale in this state a children's product that contains a chemical added to the dangerous chemicals list pursuant to section 37-0903 of this title. This provision shall not apply: (a) to a children's product solely based on its containing an enclosed battery or enclosed electronic components and (b) where state regulation of children's products is preempted by federal law. The commissioner may exempt a children's product from this prohibition if, in the commissioner's judgment, the lack of availability of the children's product could pose an unreasonable risk to public health, safety or welfare.

§ 37-0909. Applicability.

1. New children's products. The provisions of this title shall apply to chemicals in children's products sold or distributed as new and does not apply to used children's products that are sold or distributed for free at secondhand stores, yard sales, on the internet or donated to charities.

2. Industry. The requirements of this title shall not apply to priority chemicals used in or for industry or manufacturing, including chemicals processed or otherwise used in or for industrial or manufacturing processes and not included in the final product.

3. Transportation. The requirements of this title shall not apply to motor vehicles or their component parts, watercraft or their component parts, all terrain vehicles or their component parts, or off-highway motorcycles or their component parts, except that the use of dangerous chemicals in detachable car seats is not exempt.
4. Combustion. The requirements of this title shall not apply to dangerous chemicals generated solely as combustion by-products or that are present in combustible fuels.

5. Exceptions. The requirements of this title shall not apply to children's product makers that employ five persons or fewer, and are independently owned and operated.

6. Retailers. A retailer is exempt from the requirements of this title unless that retailer knowingly sells a children's product containing a dangerous chemical after the effective date of its prohibition for which that retailer has received notification pursuant to subdivision three of section 37-0905 of this title.

§ 37-0911. Enforcement and implementation.

1. Failure to provide notice. A children's product containing a dangerous chemical may not be sold, offered for sale or distributed for sale in this state unless the manufacturer has provided the notification required under section 37-0905 of this title by the date required in such section. The commissioner may exempt a children's product from this prohibition if, in the commissioner's judgment, the lack of availability of the children's product could pose an unreasonable risk to public health, safety or welfare.

2. Statement of compliance. If there are grounds to suspect that a children's product is being offered for sale in violation of this title, the department may request the manufacturer of the children's product to provide a statement of compliance on a form provided by the department, within ten days of receipt of a request from the department. The statement of compliance shall:

(a) attest that the children's product does not contain the dangerous chemical; or

(b) attest and provide the department with documentation that notification of the presence of the dangerous chemical has been provided to the department or provide notice as required by section 37-0905 of this title; or

(c) attest that the manufacturer has notified persons who sell the product in this state that the sale of the children's product is prohibited.

§ 37-0913. Regulations.

The department may adopt any rules and regulations it deems necessary to implement the provisions of this title.

§ 2. Severability. If any clause, sentence, paragraph, section or part of this act shall be adjudged by any court of competent jurisdiction to be invalid and after exhaustion of all further judicial review, the judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part of this act directly involved in the controversy in which the judgment shall have been rendered.

§ 3. This act shall take effect March 1, 2020. Effective immediately, the department of environmental conservation is authorized to implement rules and regulations for the timely implementation of this act on its effective date.
