STATE OF NEW YORK

6802

2019-2020 Regular Sessions

IN ASSEMBLY

March 20, 2019

Introduced by M. of A. CRESPO -- read once and referred to the Committee on Education

AN ACT to amend the education law, in relation to parental involvement in the distribution of emergency contraception in the public schools

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative intent. The legislature hereby finds and 2 declares that parents of minor children should be involved in their child's healthcare, especially when such healthcare involves sensitive 4 matters that may impact their child's physical and emotional wellbeing for the remainder of their life. Healthcare services of this nature include the distribution of emergency contraception.

The courts of this state have long recognized the freedom of parents to direct and control the education and upbringing of their children. Pierce v. Society of Sisters, 268 U.S. 510 (1925). New York courts have 10 determined this right to be "fundamental," and have stated that public schools are "prohibited from dispensing condoms to unemancipated, minor 12 students without the prior consent of their parents or guardians, or without an opt-out provision..." Alfonso v. Fernandez, 195 A.D. 2d 46, 13 14 60.

The courts have determined that prior consent (an "opt-in" provision) 16 is appropriate under the constitution of this state, and the legislature 17 agrees, finding such a requirement best preserves the interests of parental involvement, provides for fully informed consent, and continues to allow for access to healthcare services by children in public schools.

21 Further, the legislature finds that any consent made by parents on 22 behalf of their minor child or any consent a child over the age of eighteen provides must be fully and adequately informed. Therefore, the 24 legislature affirms that all information about the risks, side-effects

and potential contraindications of the use of emergency contraception must be provided with any "opt-in" provision.

- § 2. The education law is amended by adding a new section 912-c to 4 read as follows:
 - § 912-c. Consent to the prescription and distribution of emergency contraception. 1. Notwithstanding any contrary provision of law, the consent of a parent or guardian must be obtained for the prescription and distribution of emergency contraception, as defined in paragraph (a) of subdivision one of section two thousand eight hundred five-p of the public health law, by the director of school health services of each school district in this state that is required to provide school health services, or the health department or agency otherwise responsible to provide such services, or the health care administrator of any public school in this state.
 - 2. The director of school health services of each school district in this state that is required to provide school health services, or the health department or agency otherwise responsible to provide such services, or the health care administrator of any public school in this state shall mail a letter, in English and Spanish, to the parent or guardian of any child yet to reach the age of eighteen on the first day the school year commences in the year following the effective date of this section. Such letter must contain the following provisions:
 - a. A title in bold lettering, at the top of the letter following the letterhead but before the salutation, of the same size as the text of the letter, which states "Consent for the Receipt of Emergency Contraception."
 - b. A brief explanation in the text of the letter that informs the recipient of the letter that he or she has the right under New York state law to withhold or provide consent for the distribution of emergency contraception to his or her minor child by the public schools.
 - c. A full listing of all indications and usage, contraindications, adverse reactions and warnings and precautions of any form of emergency contraception that the health care provider at the public school may dispense or prescribe over the course of the year as such indications and usage, contraindications, adverse reactions and warnings and precautions appear in the United States food and drug administration drug approval database. If the indications and usage, contraindications, adverse reactions and warnings and precautions of a particular form of emergency contraception are not included in such letter, they may not be dispensed or prescribed by the school health care provider.
 - d. A portion of the letter, to be placed at the end of the letter following all of the above described provisions, allowing the parent or guardian of the minor child to provide affirmative consent for the receipt of emergency contraception, must be returned to the school health professional or office of school health, or any school official who shall forward such form to the school health professional or office of school health. This portion of the letter shall read as follows:
 - "I am the parent/guardian of . I have read the above letter and information concerning the provision of emergency contraception to my child and the risks associated with providing my child with emergency contraception. I understand these risks and wish for my child to be provided with such services and medications should my child request them, without further approval required of me.
 - Date: Signature of Parent/Guardian: ."
- 55 <u>3. Any consent derived from the letter described in this section shall</u> 56 <u>be valid only until the day prior to the first day of the subsequent</u>

A. 6802

1 school year following the year in which the letter was sent to a child's
2 parent or guardian.

- 4. Full written and oral informed consent must be specifically and personally provided by the licensed health care professional prescribing the emergency contraception in the public school. This informed consent must include the indications and usage, contraindications, adverse reactions and warnings and precautions as they appear in the United States food and drug administration drug approval database. Any licensed health care professional who prescribes emergency contraception after receiving consent that does not include the indications and usage, contraindications, adverse reactions and warnings and precautions as they appear in the United States food and drug administration drug approval database shall be deemed to have willfully violated this section.
- 5. No form of emergency contraception may be dispensed to any minor child by any public school health professional or office of school health until such office or professional has received affirmative consent for such services as prescribed in subdivision one of this section, and only after a specific review of the child's medical condition and history by the licensed health care provider providing such service. A record of this specific review and medical condition of the child must be created by the licensed health care professional contemporaneously with distribution of emergency contraception to the child. Any licensed health care professional that fails to create such record shall be deemed to have willfully violated this section.
- 6. All licensed health care professionals shall record, as required in subdivision five of this section and pursuant to section four hundred thirteen of the social services law, any and all evidence indicative of abuse or maltreatment as defined in section four hundred twelve of the social services law. Any violation of this subdivision shall be deemed a willful violation of section four hundred twenty of the social services law.
- 7. The director of school health services of each school district in this state that is required to provide school health services, or the health department or agency otherwise responsible to provide such services, or the health care administrator of any public school in this state, shall maintain the records described in subdivision five of this section, in whatever medium they were created, for a minimum of four years following the child's last day of attendance at the school.
- 8. No licensed health care professional covered by this section shall prescribe any form of emergency contraception for use by a child other than the use that is described and approved by the United States food and drug administration. Any licensed health care professional found to have prescribed emergency contraception to a child for use other than that as described and approved by the United States food and drug administration shall be deemed to have willfully violated this section.
- § 3. Section 6509 of the education law is amended by adding a new 48 subdivision 15 to read as follows:
- 49 (15) A willful violation by a licensee of section nine hundred 50 twelve-c of this chapter.
- 51 § 4. Section 6530 of the education law is amended by adding a new 52 subdivision 50 to read as follows:
- 53 <u>50. A willful violation by a licensee of section nine hundred twelve-c</u> 54 <u>of this chapter.</u>
 - § 5. This act shall take effect immediately.
