21 b. Aid for career education. There shall be apportioned to such city

23 a board of cooperative educational services in the base year for pupils
24 in grades ten through twelve in attendance in career education programs
25 as such programs are defined by the commissioner, subject for the
26 purposes of this paragraph to the approval of the director of the budg-
27 et, an amount for each such pupil to be computed by multiplying the
28 career education aid ratio by [~~three thousand nine hundred dollars~~] the
29 district's selected foundation aid as determined pursuant to subdivision
30 four of this section. Such aid will be payable for weighted pupils
31 attending career education programs operated by the school district and
32 for weighted pupils for whom such school district contracts with boards
33 of cooperative educational services to attend career education programs
34 operated by a board of cooperative educational services. Weighted pupils
35 for the purposes of this paragraph shall mean the sum of the attendance
36 of students in grades ten through twelve in career education sequences
37 in trade, industrial, technical, agricultural or health programs plus
38 the product of sixteen hundredths multiplied by the attendance of
39 students in grades ten through twelve in career education sequences in
40 business and marketing as defined by the commissioner in regulations.
41 The career education aid ratio shall be computed by subtracting from one
42 the product obtained by multiplying fifty-nine percent by the combined
43 wealth ratio. This aid ratio shall be expressed as a decimal carried to
44 three places without rounding, but not less than thirty-six percent.

45 Any school district that receives aid pursuant to this paragraph shall
46 be required to use such amount to support career education programs in
47 the current year.

49 by regulations of the commissioner for career education in the base year
50 during the current year shall have its apportionment under this subdivi-
51 sion reduced in an amount equal to such deficiency in the current or a
52 succeeding school year, provided however that the commissioner may waive
53 such reduction upon determination that overall expenditures per pupil in
54 support of career education programs were continued at a level equal to
55 or greater than the level of such overall expenditures per pupil in the
56 preceding school year.
