FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend section 509 of the Education Law and sections 446, 513, and 609 of the Retirement and Social Security Law to permit members of the New York State Teachers' Retirement System (NYSTRS) to claim service credit for up to ten years of federal teaching service (including Vista, Head Start, and the Peace Corps). Payments for such credit must be made by those members subject to Article 14 of the Retirement and Social Security Law in accordance with section 517 of such law and by those members subject to Article 15 of the Retirement and Social Security Law in accordance with section 613 and paragraph 2 of subdivision b of section 609 of such law.

It is not possible to determine the number of eligible current and future members, or the number of years of teaching service credit each such member may purchase under this bill. Therefore, it is not possible to estimate the annual increase in the employers' cost for this bill. Whatever increase in liabilities that arises for service credited under this bill would be included in the cost that would be shared and spread through the employer contribution rate.

It is estimated that the increase in liabilities for each member who purchases service credit under this bill is as follows:

Increase in liabilities
(as a percentage of the member's salary per year of service credited)

Tier

1-4

5

6

Increase in liabilities	13.6%	11.1%	10.7%
Member Contribution offset	3.0%*	3.5%	6.0%
Net cost to participating employers (to be shared and spread)	10.6%	7.6%	4.7%

*Members of Tier 1 and 2 do not pay member contributions

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Comprehensive Annual Financial Report (CAFR). System assets are as reported in the System's financial statements, and can also be found in the CAFR. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as: future plan experience that differs significantly from that predicted by the actuarial assumptions, changes in the actuarial assumptions or methods, and changes in plan provisions or applicable law.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Retirement and Social Security Law (RSSL) Sections 446, 513 and 609 and Administrative Code of the City of New York (ACCNYS) Section 13-505 to allow active members of the New York City Teachers' Retirement System (NYCTRS) to claim service credit for up to ten years of non-military federal service (including service in the Peace Corps, VISTA, and Head Start) which would otherwise constitute service as a teacher had it been performed in New York State. No service credit will be permitted for any federal service for which the member is receiving, or will be entitled to receive, a benefit from any other public or private retirement system.

Rules and regulations regarding the purchase of such service, including the method to assess the amount required of the member for such purchase, will be determined by the TRS Board of Trustees. For purposes of this Fiscal Note, it has been assumed that members would be eligible to purchase federal teaching service immediately upon joining the plan, without any age or service requirements.

The proposed legislation also extends the deadline to purchase Tier I Outside Teaching Service as specified in ACCNY Section 13-505 from the later of December 31, 1969 and the member's 4th anniversary to the later of December 31, 2019 and the member's 4th anniversary.

Effective Date: June 30, 2019.

FINANCIAL IMPACT - OVERVIEW: There is no data available to estimate the number of years of federal teaching service that members would claim under the proposed legislation. Therefore, the estimated financial impact has been calculated on a per individual basis equal to the increase in the Present Value of Future Benefits (PVFB) for an average member who would purchase a single year of credited service.

With respect to an individual member, the additional cost of this proposed legislation could vary greatly depending on the number of years

of federal teaching service purchased and the member's length of service, age, salary history, and the Plan in which the member participates.

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and actuarial assumptions and methods described herein, the enactment of this proposed legislation would increase the PVFB by approximately \$16,300, on average for each year of service credited. This increase would be offset by the amount required to be paid by the member to purchase such service.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: Enactment of this proposed legislation would increase employer contributions, where such amount would depend on the number of years of eligible federal teaching service credited as well as other characteristics including the age, years of service, and salary history of the member purchasing the service.

As there is no data currently available to estimate the number of members who might purchase federal teaching service, the financial impact would be recognized at the time of event. Consequently, changes in employer contributions have been estimated assuming that increase in the PVFB will be financed over a time period comparable to that used for actuarial losses under the Entry Age Normal cost method. Using this approach, the additional PVFB would be amortized over a closed 15-year period (14 payments under the One-Year Lag Methodology) using level dollar payments.

Based on the Actuary's actuarial assumptions and methods in effect as of June 30, 2018, the enactment of this proposed legislation is estimated to increase annual employer contributions by approximately \$1,900 for each year of service credited. This increase would be offset by the amount required to be paid by the member to purchase such service. With respect to the timing, increases in employer contributions would depend upon when members elect to purchase the service. Generally, increased employer contributions will first occur the second fiscal year following processing and payment of the buyback application.

OTHER COSTS: Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs of TRS and other New York City agencies to implement the proposed legislation.

- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.

CENSUS DATA: The estimates presented herein are based on the census data used in the Preliminary June 30, 2018 (Lag) actuarial valuation of TRS to determine the Preliminary Fiscal Year 2020 employer contributions. There were 121,764 active members with an average of 43.9 years and average service of 11.6 years.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the Present Value of future employer contributions and annual employer contributions presented herein have been calculated based on the actuarial assumptions and methods in effect for the June 30, 2018 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2020 employer contributions of TRS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions and methods used and are subject to change based on the realization of potential investment, demographic, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and

therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

STATEMENT OF ACTUARIAL OPINION: I, Sherry S. Chan, am the Chief Actuary for, and independent of, the New York City Retirement Systems and Pension Funds. I am a Fellow of the Society of Actuaries, an Enrolled Actuary under the Employee Retirement Income and Security Act of 1974, a Member of the American Academy of Actuaries, and a Fellow of the Conference of Consulting Actuaries.
