AN ACT to amend the education law, in relation to enacting the student suicide prevention act

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Short title. This act shall be known and may be cited as
2 the "student suicide prevention act".

3 § 2. The education law is amended by adding a new article 2-A to read
4 as follows:

ARTICLE 2-A

STUDENT SUICIDE PREVENTION

Section 20. Legislative intent.

21. Definitions.

22. Policies, procedures, and guidelines.

23. Application.

24. Severability and construction.

12 § 20. Legislative intent. The legislature finds and declares the
13 following: 1. According to data from the federal Centers for Disease
14 Control and Prevention as reported in the year two thousand sixteen,
15 suicide is the second leading cause of death for youth and young adults
16 ten to twenty-four years of age, inclusive, in both the United States
17 and in New York state.

18 2. As children and teens spend a significant amount of their young
19 lives in school, the personnel who interact with them on a daily basis
20 are essential gatekeepers for recognizing warning signs of suicide and
21 making the appropriate referrals for help.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

3. In a national survey conducted by the Jason Foundation, a teacher was identified as the number one person to whom a student would turn to help a friend who might be suicidal. It is imperative that when a young person comes to a teacher for help, such teacher has the knowledge, tools, and resources to respond correctly.

4. In the year two thousand eighteen, the federal Centers for Disease Control and Prevention found in its Youth Risk Behavior Survey that lesbian, gay, and bisexual youth are almost four times more likely to seriously consider attempting suicide, have made a suicide plan, or have attempted suicide, than their heterosexual peers.

5. There are national hotlines available to help adults and youth, including lesbian, gay, bisexual, transgender, queer or questioning (LGBTQ) youth, who are experiencing suicidal ideation or who are worried about a family member or peer who may be at risk, including the National Suicide Prevention Lifeline, the Crisis Text Line, the Trevor Project Lifeline, and TrevorChat.

6. According to the Family Acceptance Project, research has found that, for an LGBTQ youth, having at least one supportive adult can reduce the youth's risk of suicide.

7. New York state schools face the serious issues of students at high risk of suicide and death by suicide in the school communities. School personnel must be supported by clear policies and procedures, which serve as an easily-accessible roadmap, eliminate confusion over educator roles and the referral process, and equip educators with the tools to respond safely when a suicide does occur in the school community.
