§ 6. Subdivision 3 of section 280 of the public health law, as amended by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

3. The department and the division of the budget shall assess on a quarterly basis the projected total amount to be expended in the year on a cash basis by the Medicaid program for each drug, and the projected annual amount of state funds Medicaid drug expenditures on a cash basis for all drugs, which shall be a component of the projected department of health state funds Medicaid expenditures calculated for purposes of sections ninety-one and ninety-two of part H of chapter fifty-nine of the laws of two thousand eleven. For purposes of this section, state funds Medicaid drug expenditures include amounts expended for drugs in both the Medicaid fee-for-service program and Medicaid managed care programs, minus the amount of any drug rebates or supplemental drug rebates received by the department, including rebates pursuant to subdivision five of this section with respect to rebate targets. The department and the division of the budget shall report quarterly in December to the drug utilization review board the projected state funds Medicaid drug expenditures including the amounts, in aggregate thereof, attributable to the net cost of: changes in the utilization of drugs by Medicaid recipients; changes in the number of Medicaid recipients; changes to the cost of brand name drugs and changes to the cost of generic drugs. The information contained in the report shall not be publicly released in a manner that allows for the identification of an individual drug or manufacturer or that is likely to compromise the financial competitive, or proprietary nature of the information.

(a) In the event the director of the budget determines, based on Medicaid drug expenditures for the previous quarter or other relevant information, that the total department of health state funds Medicaid drug expenditure is projected to exceed the annual growth limitation imposed by subdivision two of this section, the commissioner may identify and refer drugs to the drug utilization review board established by section three hundred sixty-nine-bb of the social services law for a recommendation as to whether a target supplemental Medicaid rebate should be paid by the manufacturer of the drug to the department and the target amount of the rebate.

(b) If the department intends to refer a drug to the drug utilization review board pursuant to paragraph (a) of this subdivision, the department shall notify the manufacturer of such drug and shall attempt to reach agreement with the manufacturer on a rebate for the drug prior to referring the drug to the drug utilization review board for review.
Such rebate may be based on evidence-based research, including, but not limited to, such research operated or conducted by or for other state governments, the federal government, the governments of other nations, and third party payers or multi-state coalitions, provided however that the department shall account for the effectiveness of the drug in treating the conditions for which it is prescribed or in improving a patient's health, quality of life, or overall health outcomes, and the likelihood that use of the drug will reduce the need for other medical care, including hospitalization.

(c) In the event that the commissioner and the manufacturer have previously agreed to a supplemental rebate for a drug pursuant to paragraph (b) of this subdivision or paragraph (e) of subdivision seven of section three hundred sixty-seven-a of the social services law, the drug shall not be referred to the drug utilization review board for any further supplemental rebate for the duration of the previous rebate agreement, provided however, the commissioner may refer a drug to the drug utilization review board if the commissioner determines there are significant and substantiated utilization or market changes, new evidence-based research, or statutory or federal regulatory changes that warrant additional rebates. In such cases, the department shall notify the manufacturer and provide evidence of the changes or research that would warrant additional rebates, and shall attempt to reach agreement with the manufacturer on a rebate for the drug prior to referring the drug to the drug utilization review board for review.

(d) The department shall consider a drug's actual cost to the state, including current rebate amounts, prior to seeking an additional rebate pursuant to paragraph (b) or (c) of this subdivision [and shall take into consideration whether the manufacturer of the drug is providing significant discounts relative to other drugs covered by the Medicaid program].

(e) The commissioner shall be authorized to take the actions described in this section only so long as total Medicaid drug expenditures are projected to exceed the annual growth limitation imposed by subdivision two of this section.

§ 6-a. Subparagraph (iii) of paragraph (e) of subdivision 5 of section 280 of the public health law, as amended by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

The department shall, if reasonably possible, make publicly available the following documents in its possession that it relies upon to provide cost effectiveness analyses or research related to value-based pricing:

§ 7. Paragraph (a) of subdivision 5 of section 280 of the public health law, as amended by section 8 of part D of chapter 57 of the laws of 2018, is amended to read as follows:

(a) If the drug utilization review board recommends a target rebate amount on a drug referred by the commissioner, the department shall negotiate with the drug's manufacturer for a supplemental rebate to be paid by the [drug's] manufacturer in an amount
not to exceed such target rebate amount. [With respect to a] A rebate
required in state fiscal year two thousand seventeen--two thousand
eighteen, the rebate requirement shall apply beginning with the [month
of April, two thousand seventeen,] first day of the state fiscal year

health law, as amended by section 8 of part D of chapter 57 of the laws
of 2018, is amended to read as follows:

received by the department, including rebates received to date pursuant
to this section, total Medicaid drug expenditures are still projected to
exceed the annual growth limitation imposed by subdivision two of this
section, the commissioner may: subject any drug of a manufacturer
referred to the drug utilization review board under this section to
prior approval in accordance with existing processes and procedures when
such manufacturer has not entered into a supplemental rebate agreement

drug that the drug utilization review board recommends a target rebate
amount and the manufacturer has failed to enter into a rebate agreement
required by this section; [allowing] allow manufacturers to accelerate
rebate payments under existing rebate contracts; and such other actions
as authorized by law. The commissioner shall provide written notice to
the legislature thirty days prior to taking action pursuant to this

year to prevent total Medicaid drug expenditures from exceeding the
limitation imposed by subdivision two of this section, in which case
such notice to the legislature may be less than thirty days.

by section 8 of part D of chapter 57 of the laws of 2018, is amended to

Further, such conditions may be waived, as the commissioner determines necessary, to comply with federal rules or regulations governing these payment methodologies. The commissioner of health shall, in consultation with the commissioner of alcoholism and substance abuse services and the commissioner of mental health, waive such conditions if a sufficient number of providers, as determined by the commissioner, suffer a financial hardship as a consequence of such alternative payment methodology requirements, or if he or she shall determine that such alternative payment methodologies significantly threaten individuals access to ambulatory behavioral health services. Such waiver may be applied on a provider specific or industry wide basis. § 40. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, 2020. provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, 2019, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. The superintendent shall not impose such
surcharge during the period commencing July 1, 2009 and ending June 30, 2010. On and after July 1, 1989, the surcharge prescribed by this section shall be retained by insurers to the extent that they insured physicians and surgeons during the July 1, 1985 through June 30, 2019 policy periods; in the event and to the extent physicians and surgeons were insured by another insurer during such periods, all or a pro rata share of the surcharge, as the case may be, shall be remitted to such other insurer in accordance with rules and regulations to be promulgated by the superintendent. Surcharges collected from physicians and surgeons who were not insured during such policy periods shall be apportioned among all insurers in proportion to the premium written by each insurer during such policy periods; if a physician or surgeon was insured by an insurer subject to rates established by the superintendent during such policy periods, and at any time thereafter a hospital, health maintenance organization, employer or institution is responsible for responding in damages for liability arising out of such physician's or surgeon's practice of medicine, such responsible entity shall also remit to such prior insurer the equivalent amount that would then be collected as a surcharge if the physician or surgeon had continued to remain insured by such prior insurer. In the event any insurer that provided coverage during such policy periods is in liquidation, the property/casualty insurance security fund shall receive the portion of surcharges to which the insurer in liquidation would have been entitled. The surcharges authorized herein shall be deemed to be income earned for the purposes of section 2303 of the insurance law. The superintendent, in establishing adequate rates and in determining any projected deficiency pursuant to the requirements of this section and the insurance law, shall give substantial weight, determined in his discretion and judgment, to the prospective anticipated effect of any regulations promulgated and laws enacted and the public benefit of stabilizing malpractice rates and minimizing rate level fluctuation during the period of time necessary for the development of more reliable statistical experience as to the efficacy of such laws and regulations affecting medical, dental or podiatric malpractice enacted or promulgated in 1985, 1986, by this act and at any other time. Notwithstanding any provision of the insurance law, rates already established and to be established by the superintendent pursuant to this section are deemed adequate if such rates would be adequate when taken together with the maximum authorized annual surcharges to be imposed for a reasonable period of time whether or not any such annual surcharge has been actually imposed as of the establishment of such rates.

§ 3242. Prescription drug coverage. (a) Every insurer that delivers or issues for delivery in this state a policy that provides coverage for prescription drugs shall, with respect to the prescription drug cover-
age, publish an up-to-date, accurate, and complete list of all covered
prescription drugs on its formulary drug list, including any tiering
structure that it has adopted and any restrictions on the manner in
which a prescription drug may be obtained, in a manner that is easily
accessible to insureds and prospective insureds. The formulary drug list
shall clearly identify the preventive prescription drugs that are avail-
able without annual deductibles or coinsurance, including co-payments.

(b) (1) Every policy delivered or issued for delivery in this state
that provides coverage for prescription drugs shall include in the poli-
cy a process that allows an insured, the insured's designee, or the
insured's prescribing health care provider to request a formulary excep-
tion. With respect to the process for such a formulary exception, an
insurer shall follow the process and procedures specified in article
forty-nine of this chapter and article forty-nine of the public health
law, except as otherwise provided in paragraphs two, three, four and
five of this subsection.

(2) (A) An insurer shall have a process for an insured, the insured's
designee, or the insured's prescribing health care provider to request a
standard review that is not based on exigent circumstances of a formu-
lary exception for a prescription drug that is not covered by the poli-
cy.

(B) An insurer shall make a determination on a standard exception
request that is not based on exigent circumstances and notify the
insured or the insured's designee and the insured's prescribing health
care provider by telephone of its coverage determination no later than
seventy-two hours following receipt of the request.

(C) An insurer that grants a standard exception request that is not
based on exigent circumstances shall provide coverage of the non-formu-
lary prescription drug for the duration of the prescription, including
refills.

(D) For the purpose of this subsection, "exigent circumstances" means
when an insured is suffering from a health condition that may seriously
jeopardize the insured's life, health, or ability to regain maximum
function or when an insured is undergoing a current course of treatment
using a non-formulary prescription drug.

(3) (A) An insurer shall have a process for an insured, the insured's
designee, or the insured's prescribing health care provider to request
an expedited review based on exigent circumstances of a formulary excep-
tion for a prescription drug that is not covered by the policy.

(B) An insurer shall make a determination on an expedited review
request based on exigent circumstances and notify the insured or the
insured's designee and the insured's prescribing health care provider by
telephone of its coverage determination no later than twenty-four hours
following receipt of the request.

(C) An insurer that grants an exception based on exigent circumstances
shall provide coverage of the non-formulary prescription drug for the
duration of the exigent circumstances.

(4) An insurer that denies an exception request under paragraph two or
three of this subsection shall provide written notice of its determi-
nation to the insured or the insured's designee and the insured's
prescribing health care provider within three business days of receipt
of the exception request. The written notice shall be considered a final
adverse determination under section four thousand nine hundred four of
this chapter or section four thousand nine hundred four of the public
health law. Written notice shall also include the name or names of clin-
ically appropriate prescription drugs covered by the insurer to treat the insured.

(5) (A) If an insurer denies a request for an exception under paragraph two or three of this subsection, the insured, the insured's designee, or the insured's prescribing health care provider shall have the right to request that such denial be reviewed by an external appeal agent certified by the superintendent pursuant to section four thousand nine hundred eleven of this chapter in accordance with article forty-nine of this chapter or article forty-nine of the public health law.

(B) An external appeal agent shall make a determination on the external appeal and notify the insurer, the insured or the insured's designee, and the insured's prescribing health care provider by telephone of its determination no later than seventy-two hours following the external appeal agent's receipt of the request, if the original request was a standard exception request under paragraph two of this subsection. The external appeal agent shall notify the insurer, the insured or the insured's designee, and the insured's prescribing health care provider in writing of the external appeal determination within two business days of rendering such determination.

(C) An external appeal agent shall make a determination on the external appeal and notify the insurer, the insured or the insured's designee, and the insured's prescribing health care provider by telephone of its determination no later than twenty-four hours following the external appeal agent's receipt of the request, if the original request was an expedited exception request under paragraph three of this subsection and the insured's prescribing health care provider attests that exigent circumstances exist. The external appeal agent shall notify the insurer, the insured or the insured's designee, and the insured's prescribing health care provider in writing of the external appeal determination within seventy-two hours of the external appeal agent's receipt of the external appeal.

(D) An external appeal agent shall make a determination in accordance with subparagraph (A) of paragraph four of subsection (b) of section four thousand nine hundred fourteen of this chapter or subparagraph (A) of paragraph (d) of subdivision two of section four thousand nine hundred fourteen of the public health law. When making a determination, the external appeal agent shall consider whether the formulary prescription drug covered by the insurer will be or has been ineffective, would not be as effective as the non-formulary prescription drug, or would have adverse effects.

(E) If an external appeal agent overturns the insurer's denial of a standard exception request under paragraph two of this subsection, then the insurer shall provide coverage of the non-formulary prescription drug for the duration of the prescription, including refills. If an external appeal agent overturns the insurer's denial of an expedited exception request under paragraph three of this subsection, then the insurer shall provide coverage of the non-formulary prescription drug for the duration of the exigent circumstances.

for the duration of the exigent circumstances.

of the exception request. The written notice shall be considered a final
adverse determination under section four thousand nine hundred four of
this chapter or section four thousand nine hundred four of the public
health law. Written notice shall also include the name or names of clin-
ically appropriate prescription drugs covered by the corporation to
treat the insured.

When making a determination, the external appeal agent shall consider whether the formulary prescription drug covered by the corporation will be or has been ineffective, would not be as effective as the non-formulary prescription drug, or would have adverse effects.

(E) If an external appeal agent overturns the corporation's denial of a standard exception request under paragraph two of this subsection, then the corporation shall provide coverage of the non-formulary prescription drug for the duration of the prescription, including refills. state finance law. All payments from the fund shall be made by the
commissioner of taxation and finance upon certificates signed by the

designee, as hereinafter provided. The fund shall be separate and apart
from any other fund and from all other state monies; provided, however,
that monies of the fund may be invested as set forth in paragraph (b) of
this subdivision. No monies from the fund shall be transferred to any
other fund, nor shall any such monies be applied to the making of any
payment for any purpose other than the purpose set forth in this title.

(b) Any monies of the fund not required for immediate use may, at the
discretion of the commissioner [of financial services] in consultation
with the commissioner of health and the director of the budget, be
invested by the commissioner of taxation and finance in obligations of
the United States or the state or obligations the principal and interest
of which are guaranteed by the United States or the state. The proceeds
of any such investment shall be retained by the fund as assets to be
used for the purposes of the fund.

2. (a) The fund shall be administered by the [superintendent of finan-
cial services] commissioner or his or her designee in accordance with
the provisions of this article.

(b) The [superintendent of financial services] commissioner shall have
all powers necessary and proper to carry out the purposes of the fund.

(c) Notwithstanding any contrary provision of this section, sections

or any other contrary provision of law, the superintendent of financial
services is authorized to [enter into a contract or contracts without a
competitive bid or request for proposal process for purposes of adminis-

therefor] assign and the commissioner is authorized to receive assign-

financial services to administer the fund for periods prior to October
first, two thousand nineteen.

(d) The department [of financial services and the department] shall
post on [their websites] its website information about the fund[,] eligi-
bility for enrollment in the fund[,] and the process for enrollment in
the fund.

3. The expense of administering the fund[,] including the expenses
incurred by the department[,] shall be paid from the fund.

4. Monies for the fund will be provided pursuant to this chapter.

5. For the state fiscal year beginning April first, two thousand elev-
ren and ending March thirty-first, two thousand twelve, the state fiscal
year beginning April first, two thousand twelve and ending March thir-
ty-first, two thousand thirteen, and the state fiscal year beginning
April first, two thousand thirteen and ending March thirty-first, two
thousand fourteen, the superintendent of financial services shall cause
to be deposited into the fund for each such fiscal year the amount
appropriated for such purpose. Beginning April first, two thousand four-
ten and annually thereafter, the superintendent of financial services
or the commissioner, whoever is administering the fund for the applica-
shall cause to be deposited into the fund, subject to available appropriations, an amount equal to the difference between the amount appropriated to the fund in the preceding fiscal year, as increased by the adjustment factor defined in subdivision seven of this section, and the assets of the fund at the conclusion of that fiscal year.

6. (a) Following the deposit referenced in subdivision five of this section, the [superintendent of financial services] commissioner shall conduct an actuarial calculation of the estimated liabilities of the fund for the coming year resulting from the qualified plaintiffs enrolled in the fund. The administrator shall from time to time adjust such calculation in accordance with subdivision seven of this section. If the total of all estimates of current liabilities equals or exceeds eighty percent of the fund's assets, then the fund shall not accept any new enrollments until a new deposit has been made pursuant to subdivision five of this section. When, as a result of such new deposit, the fund's liabilities no longer exceed eighty percent of the fund's assets, the fund administrator shall enroll new qualified plaintiffs in the order that an application for enrollment has been submitted in accordance with subdivision seven of section twenty-nine hundred ninety-nine-j of this title.

(b) Whenever enrollment is suspended pursuant to paragraph (a) of this subdivision and until such time as enrollment resumes pursuant to such paragraph: (i) notice of such suspension shall be promptly posted on the department's website [and on the website of the department of financial services]; (ii) the fund administrator shall deny each application for enrollment that had been received but not accepted prior to the date of suspension and each application for enrollment received after the date of such suspension; and (iii) notification of each such denial shall be made to the plaintiff or claimant or persons authorized to act on behalf of such plaintiff or claimant, to the extent they are known to the fund administrator. Judgments and settlements for plaintiffs or claimants for whom applications are denied under this paragraph or who are not eligible for enrollment due to suspension pursuant to paragraph (a) of this subdivision shall be satisfied as if this title had not been enacted.

(c) Following a suspension, whenever enrollment resumes pursuant to paragraph (a) of this subdivision, notice that enrollment has resumed shall be promptly posted on the department's website [and on the website of the department of financial services].

(d) The suspension of enrollment pursuant to paragraph (a) of this subdivision shall not impact payment under the fund for any qualified plaintiffs already enrolled in the fund.

7. For purposes of this section, the adjustment factor referenced in this section shall be the ten year rolling average medical component of the consumer price index as published by the United States department of labor, bureau of labor statistics, for the preceding ten years.

$3. Subdivisions 2, 5, 6, 7, 9, 11, 12, 15 and 16 of section 2999-j of the public health law, subdivision 2 as amended by chapter 517 of the laws of 2016, paragraph (c) of subdivision 2 as amended by chapter 4 of the laws of 2017, and subdivisions 5, 6, 7, 9, 11, 12, 15 and 16 as added by section 52 of part H of chapter 59 of the laws of 2011, are amended to read as follows:

2. The provision of qualifying health care costs to qualified plaintiffs shall not be subject to prior authorization, except as described by the commissioner in regulation; provided, however:
(a) such regulation shall not prevent qualified plaintiffs from receiving care or assistance that would, at a minimum, be authorized under the medicaid program;
(b) if any prior authorization is required by such regulation, the regulation shall require that requests for prior authorization be processed within a reasonably prompt period of time and, subject to the provisions of subdivision two-a of this section, shall identify a process for prompt administrative review of any denial of a request for prior authorization; and
(c) such regulations shall not prohibit qualifying health care costs on the grounds that the qualifying health care cost may incidentally benefit other members of the household, provided that whether the qualifying health care cost primarily benefits the patient may be considered.
5. Claims for the payment or reimbursement from the fund of qualifying health care costs shall be made upon forms prescribed and furnished by the fund administrator in consultation with the commissioner and in conjunction with regulations establishing a mechanism for submission of claims by health care providers directly to the fund, where practicable.
6. (a) Every settlement agreement for claims arising out of a plaintiff's or claimant's birth related neurological injury subject to this title, and that provides for the payment of future medical expenses for the plaintiff or claimant, shall provide that, in the event the administrator of the fund determines that the plaintiff or claimant is a qualified plaintiff, all payments for future medical expenses shall be paid in accordance with this title in lieu of that portion of the settlement agreement that provides for payment of such expenses. The plaintiff's or claimant's future medical expenses shall be paid in accordance with this title. When such a settlement agreement does not so provide, the court shall direct the modification of the agreement to include such term as a condition of court approval.
(b) In any case where the jury or court has made an award for future medical expenses arising out of a birth related neurological injury, any party to such action or person authorized to act on behalf of such party may make application to the court that the judgment reflect that, in lieu of that portion of the award that provides for payment of such expenses, and upon a determination by the fund administrator that the plaintiff is a qualified plaintiff, the future medical expenses of the plaintiff shall be paid out of the fund in accordance with this title. Upon a finding by the court that the applicant has made a prima facie showing that the plaintiff is a qualified plaintiff, the court shall ensure that the judgment so provides.
7. A qualified plaintiff shall be enrolled when (a) such plaintiff or person authorized to act on behalf of such person, upon notice to all defendants, or any of the defendants in regard to the plaintiff's claim, upon notice to such plaintiff, makes an application for enrollment by providing the fund administrator with a certified copy of the judgment or of the court approved settlement agreement; and (b) the fund administrator determines that the relevant provisions of subdivision six of this section have been met; and that the plaintiff is a qualified plaintiff; provided that no enrollment shall occur when the fund is closed to enrollment pursuant to subdivision six of section twenty-nine hundred ninety-nine-i of this title.
9. Payments from the fund shall be made by the commissioner of taxation and finance on the said certificate of the [superintendent—of
financial services commissioner. No payment shall be made by the commissioner of taxation and finance in excess of the amount certified. Promptly upon receipt of the said certificate of the superintendent of financial services commissioner, the commissioner of taxation and finance shall pay the qualified plaintiff's health care provider or reimburse the qualified plaintiff the amount so certified for payment.

11. All health care providers shall accept from qualified plaintiff's or persons authorized to act on behalf of such plaintiff's assignments of the right to receive payments from the fund for qualifying health care costs. Such payments shall constitute payment in full for any services provided to a qualified plaintiff in accordance with this article.

12. Health insurers (other than medicare and Medicaid) shall be the primary payers of qualifying health care costs of qualified plaintiffs. Such costs shall be paid from the fund only to the extent that health insurers or other collateral sources or other persons are not otherwise obligated to make payments therefor. Health insurers that make payments for qualifying health care costs to or on behalf of qualified plaintiffs shall have no right of recovery against and shall have no lien upon the fund or any person or entity nor shall the fund constitute an additional payment source to offset the payments otherwise contractually required to be made by such health insurers. The superintendent of financial services shall have the authority to enforce the provisions of this subdivision upon the referral of the commissioner.

15. The commissioner, in consultation with the superintendent of financial services, shall promulgate, amend and enforce all rules and regulations necessary for the proper administration of the fund in accordance with the provisions of this section, including, but not limited to, those concerning the payment of claims and concerning the actuarial calculations necessary to determine, annually, the total amount to be paid into the fund as provided herein, and as otherwise needed to implement this title.

§ 4. Section 5 of chapter 517 of the laws of 2016, amending the public health law relating to payments from the New York State medical indemnity fund, as amended by chapter 4 of the laws of 2017, is amended to read as follows:

§ 5. This act shall take effect on the forty-fifth day after it shall have become a law, provided that the amendments to subdivision 4 of section 2999-j of the public health law made by section two of this act shall take effect on June 30, 2017 and shall expire and be deemed repealed December 31, 2019.

§ 5. Section 99-t of the state finance law, as added by section 52-e of part H of chapter 59 of the laws of 2011, is amended to read as follows:

§ 99-t. New York State medical indemnity fund account. 1. There is hereby established in the custody of the commissioner of taxation and finance a special account to be known as the "New York State medical indemnity fund account".

2. All moneys received by the New York State medical indemnity fund pursuant to title four of article twenty-nine-D of the public health law from whatever source derived shall be deposited to the exclusive credit of such fund account. Said moneys shall be kept separate and shall not
be commingled with any other moneys in the custody of the commissioner of taxation and finance.

3. The moneys in said account shall be retained by the fund and shall be released by the commissioner of taxation and finance only upon certificates signed by the [superintendent of financial services or the head of any successor agency to the department of insurance] commissioner of health or his or her designee and only for the purposes set forth in title four of article twenty-nine-D of the public health law.

§ 6. This act shall take effect October 1, 2019; provided however, on and after April 1, 2019, the commissioner of health may take any steps necessary to implement this act on its effective date; and notwithstanding any inconsistent provision of the state administrative procedure act or any other provision of law, rule or regulation, the commissioner of health is authorized to adopt or amend or promulgate on an emergency basis any regulation he or she determines necessary to implement any provision of this act on its effective date.

PART U

Section 1. Section 203 of the elder law is amended by adding a new subdivision 12 to read as follows:

12.(a) The director is hereby authorized to implement private pay protocols for programs and services administered by the office. These protocols may be implemented by area agencies on aging at their option and such protocols shall not be applied to services for a participant when being paid for with federal funds or funds designated as federal match, or for individuals with an income below four hundred percent of the federal poverty level. All private payments received directly by an area agency on aging or indirectly by one of its contractors shall be used to supplement, not supplant, funds by state, federal, or county appropriations. Such private pay payments shall be set at a cost to the participant of not more than twenty percent above either the unit cost to the area agency on aging to provide the program or service directly, or the amount that the area agency on aging pays to its contractor to provide the program or service. Private pay payments received under this subdivision shall be used by the area agency on aging to first reduce any unmet need for programs and services, and then to support and enhance services or programs provided by the area agency on aging. No participant, regardless of income, shall be required to pay for any program or service that they are receiving at the time these protocols are implemented by the area agency on aging. This subdivision shall not prevent cost sharing for the programs and services established pursuant to section two hundred fourteen of this title for individuals below four hundred percent of the federal poverty level. Consistent with federal and state statute and regulations, when providing programs and services, area agencies on aging and their contractors shall continue to give priority for programs and services to individuals with the greatest economic or social needs. In the event that the capacity to provide programs and services is limited, such programs and services shall be provided to individuals with incomes below four hundred percent of the federal poverty level before such programs and services are provided to those participating in the private pay protocol pursuant to this subdivision.

(b) Area agencies on aging participating in the private pay protocol shall annually report to the office the unmet need, if any, for all programs and services offered, the number of participants that privately paid for each program or service for that year, the rates participants were charged for each program or service provided, and how unmet need for programs or services offered by the area agency on aging were affected by revenue from the private pay protocol. Such annual report
shall also be shared with the Temporary President of the Senate and the Speaker of the Assembly no later than July first, two thousand twenty-one and shall be updated and reissued on an annual basis thereafter.

§ 2. This act shall take effect on the three hundred sixty-fifth day after it shall have become a law; provided, however, that effective immediately, any actions necessary for the implementation of this act on its effective date are authorized to be completed on or before such date.

(d) (i) Penalties under this subdivision may be applied to any and all circumstances described in paragraph (b) of this subdivision until the managed care organization complies with the requirements for submission of encounter data.

(ii) No penalties for late, incomplete or inaccurate encounter data shall be assessed against managed care organizations in addition to those provided for in this subdivision, provided, however, that nothing in this paragraph shall prohibit the imposition of penalties, in cases of fraud or abuse, otherwise authorized by law.

§ 2. Section 364-j of the social services law is amended by adding a new subdivision 34 as follows:

34. For purposes of recovery of overpayments pursuant to subdivision thirty-five of this section, any payment made pursuant to the state's managed care program, including payments made by managed long term care plans, shall be deemed a payment by the state's medical assistance program, provided that this subdivision shall not permit the imposition of a lien or recovery against property of an individual or estate on account of medical assistance payments where recovery is made against the individual's managed care provider or provider of medical assistance program items or services. Provided however nothing in this subdivision shall be construed to limit recoveries under other relevant sections of law.

§ 3. Section 364-j of the social services law is amended by adding a new subdivision 36 to read as follows:

36. Medicaid Program Integrity Reviews. (a) For purposes of this subdivision, managed care provider shall also include managed long term care plans.

(b) The Medicaid inspector general shall conduct periodic reviews of the contractual performance of each managed care provider as it relates to the managed care provider's program integrity obligations under its contract with the department. The Medicaid inspector general, in consultation with the commissioner, shall publish on its website, a list of those contractual obligations pursuant to which the managed care provider's program integrity performance shall be evaluated, including benchmarks, prior to commencing any review. A Medicaid program integrity review of a managed care provider conducted pursuant to this subdivision, may be completed no more than annually. Reviews performed pursuant to this subdivision shall include a review of compliance with contractual standards which prevent fraud, waste, or abuse. Such standards may include but are not limited to excluded providers, restricted recipient program, reporting obligations, compliance programs, and suspension of payments. However, if the Medicaid inspector general determines that a
subsequent review, pursuant to this subdivision, is necessary, a second
review may occur within one year.
(c) If, as a result of his or her review, the Medicaid inspector
general determines that a managed care provider is not meeting its
program integrity obligations, the Medicaid inspector general may
recover from the managed care provider up to two percent of the Medicaid
premiums paid to the managed care provider for the period under review.
Any premium recovery under this subdivision shall be a percentage of the
administrative component of the Medicaid premium calculated by the
department and may be recovered by the department in the same manner it
reverses overpayments.
(d) The managed care provider shall be entitled to receive a draft
audit report and final audit report containing the results of the Medi-
caid inspector general's review. If the Medicaid inspector general
determines to recover a percentage of the premium as described in para-

certify to the department that the provider satisfactorily meets the
requirements of this section. Additionally, the commissioner of health
and Medicaid inspector general shall have the authority to determine at
any time if a provider has a compliance program that satisfactorily
meets the requirements of this section.
(a) A compliance program that is accepted by the federal department of
health and human services office of inspector general and remains in
compliance with the standards promulgated by such office shall be deemed
in compliance with the provisions of this section, so long as such plans
adequately address medical assistance program risk areas and compliance
issues.
(b) A compliance program that meets Federal requirements for managed
care provider compliance programs, as specified in the contract or
contracts between the department and the Medicaid managed care provider
shall be deemed in compliance with the provisions in this section, so
long as such programs adequately address medical assistance program risk
areas and compliance issues. For purposes of this section, a managed
care provider is as defined in paragraph (c) of subdivision one of
section three hundred sixty-four-j of this chapter, and includes managed
long term care plans.
(c) In the event that the commissioner of health or the Medicaid
inspector general finds that the provider does not have a satisfactory
program within ninety days after the effective date of the regulations
issued pursuant to subdivision four of this section, the provider may be
subject to any sanctions or penalties permitted by federal or state laws
and regulations, including revocation of the provider's agreement to
participate in the medical assistance program.

or review, or the deputy attorney general for the Medicaid fraud control
unit during the course of an investigation or prosecution for Medicaid
fraud, identifies medical assistance overpayments made by a managed care provider or managed long term care plan to its subcontractor or subcon-
tractors or provider or providers, the state shall have the right to recover the overpayment from the subcontractor or subcontractors, provider or providers, or the managed care provider or managed long term
care plan; provided, however, in no event shall the state duplicate the recovery of an overpayment from a provider or subcontractor.

(b) Where the state is unsuccessful in recovering an overpayment from the subcontractor or subcontractors or provider or providers, the Medicaid inspector general may require the managed care provider or managed long term care plan to recover the medical assistance overpayment identified in paragraph (a) of this subdivision on behalf of the state. The managed care provider or managed long term care plan shall remit to the state the full amount of the identified overpayment no later than six months after receiving notice of the overpayment from the state.

§ 7. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2019; provided, however, that the amendments to section 364-j of the social services law made by sections one, two, three, and six of this act shall not affect the repeal of such section and shall be deemed repealed therewith; provided further, that section three of this act shall apply to a contract or contracts in effect as of January 1, 2015 or thereafter and any review period in section three of this act shall not begin before January 1, 2018.

(i) Notwithstanding the provisions of subdivision 3-b of this section or any other inconsistent provision of law, and subject to the availability of the appropriation therefor, for the programs listed in paragraphs (i), (ii), and (iii) of subdivision 4 of this section, the commissioners shall provide funding to support: (1) an overall average two percent (2.00%) increase to total salaries for direct care staff, direct support professionals for each eligible state-funded program beginning January 1, 2020; and (2) an overall average two percent (2.00%) increase to total salaries for direct care staff and direct support professionals, and clinical staff for each eligible state-funded program beginning April 1, 2020. For the purpose of this funding increase, direct support professionals are individuals employed in consolidated fiscal reporting position title codes ranging from 100 to 199; direct care staff are individuals employed in consolidated fiscal reporting position title codes ranging from 200 to 299; and clinical staff are individuals employed in consolidated fiscal reporting position title codes ranging from 300 to 399.

Each local government unit or direct contract provider receiving such funding shall have flexibility in allocating such funding to support salary increases to particular job titles to best address the needs of its direct care staff, direct support professionals and clinical staff. Each local government unit or direct contract provider receiving such funding shall also submit a written certification, in such form and at such time as each commissioner shall prescribe, attesting to how such funding will be or was used for purposes eligible under this section. Further, providers shall submit a resolution from their governing body to the appropriate commissioner, attesting that the fund-

Salary increases that take effect on and after April 1, 2019 may be used to demonstrate compliance with the January 1, 2020 funding increase authorized by this section, except for salary increases necessary to comply with state minimum wage requirements. Such commissioners shall be authorized to recoup any funds as appropriated herein determined to have been used in a manner inconsistent with such standards or inconsistent with the provisions of this subdivision, and such commissioners shall be authorized to employ any legal mechanism to recoup such funds, including an offset of other funds that are owed to such local governmental unit or provider.

(iii) Where appropriate transfers to the department of health shall be made as reimbursement for the state share of medical assistance.

Each component is wholly contained within a Subpart identified as Subparts A through E. The effective date for each particular provision contained within such Subpart is set forth in the last section of such Subpart. Any provision in any section contained within a Subpart, including the effective date of the Subpart, which makes a reference to a section "of this act", when used in connection with that particular component, shall be deemed to mean and refer to the corresponding section of the Subpart in which it is found. Section three of this Part sets forth the general effective date of this Part.

terminate coverage or refuse to deliver, execute, issue, amend, adjust,

Provided, however, the insurer shall only deny coverage for any portion of the initial [two] four weeks of continuous treatment, not to exceed fourteen [two] four visits, for outpatient treatment on the basis that such treatment was not medically necessary if such outpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. provides coverage for inpatient hospital care or coverage for physician
services shall provide [as part of such policy broad-based] coverage for
the diagnosis and treatment of mental[\textit{nervous or emotional disorders or ailments}, however defined in such policy, at least equal to the

(i) where the policy provides coverage for inpatient hospital care, benefits for inpatient care in a hospital as defined by subdivision ten
of section 1.03 of the mental hygiene law[\textit{, which benefits may be limit-

year, plan year or calendar year,} and benefits for outpatient care
provided in a facility issued an operating certificate by the commis-

of the mental hygiene law, or in a facility operated by the office of
mental health[\textit{, which benefits may be limited to not less than twenty
visits in any contract year, plan year or calendar year. Benefits for
partial hospitalization program services shall be provided as an offset
to covered inpatient days at a ratio of two partial hospitalization
visits to one inpatient day of treatment.} or, for care provided in
other states, to similarly licensed or certified hospitals or facili-

(ii) where the policy provides coverage for physician services, it
shall include benefits for outpatient care provided by a psychiatrist or
psychologist licensed to practice in this state, a licensed clinical
social worker who meets the requirements of subparagraph (D) of para-

Such group policies issued or delivered in this state shall also provide such comparable coverage for children with serious emotional disturbances. Such coverage shall be provided under the terms and conditions otherwise applicable under the policy, including network limitations or variations, exclusions, co-pays, coinsurance, deductibles or other specific cost-sharing mechanisms. Provided further, where a policy provides both in-network and out-of-network benefits, the out-of-network benefits may have different coinsurance, co-pays, or deductibles, than the in-network benefits, regardless of whether the policy is written under one license or two licenses.

(ii) For purposes of this paragraph, the term "biologically based mental illness" means a mental, nervous, or emotional condition that is caused by a biological disorder of the brain and results in a clinically significant, psychological syndrome or pattern that substantially limits the functioning of the person with the illness. Such biologically based mental illnesses are defined as schizophrenia/psychotic disorders, major depression, bipolar disorder, delusional disorders, panic disorder, obsessive-compulsive disorders, bulimia, and anorexia.

Provided that no copayment or coinsurance imposed for outpatient mental health services provided in a facility licensed, certified or otherwise authorized by the office of mental health shall exceed the copayments or coinsurance imposed for a primary care office visit under the policy.

§ 14. Subparagraphs (C), (D) and (E) of paragraph 5 of subsection (l) of section 3221 of the insurance law are REPEALED and five new subparagraphs (C), (D), (E), (F) and (G) are added to read as follows:

(E) For purposes of this paragraph:

(ii) "predominant" means that a financial requirement or treatment limitation is the most common or frequent of such type of limit or requirement;

(iii) "treatment limitation" means limits on the frequency of treatment, number of visits, days of coverage, or other similar limits on the scope or duration of treatment and includes nonquantitative treatment
limitations such as: medical management standards limiting or excluding benefits based on medical necessity, or based on whether the treatment is experimental or investigational; formulary design for prescription drugs; network tier design; standards for provider admission to participate in a network, including reimbursement rates; methods for determining usual, customary, and reasonable charges; fail-first or step therapy protocols; exclusions based on failure to complete a course of treatment; and restrictions based on geographic location, facility type, provider specialty, and other criteria that limit the scope or duration of benefits for services provided under the policy; and

(iv) "mental health condition" means any mental health disorder as defined in the most recent edition of the diagnostic and statistical manual of mental disorders or the most recent edition of another generally recognized independent standard of current medical practice such as the international classification of diseases.

(F) An insurer shall provide coverage under this paragraph, at a minimum, consistent with the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (29 U.S.C. § 1185a).

(G) This subparagraph shall apply to hospitals in this state that are licensed by the office of mental health that are participating in the insurer's provider network. Where the policy provides coverage for inpatient hospital care, benefits for inpatient hospital care in a hospital as defined by subdivision ten of section 1.03 of the mental hygiene law provided to individuals who have not attained the age of eighteen shall not be subject to preauthorization. Coverage provided under this subparagraph shall also not be subject to concurrent utilization review during the first fourteen days of the inpatient admission, provided the facility notifies the insurer of both the admission and the initial treatment plan within two business days of the admission, performs daily clinical review of the patient, and participates in periodic consultation with the insurer to ensure that the facility is using the evidence-based and peer reviewed clinical review criteria utilized by the insurer which is approved by the office of mental health and appropriate to the age of the patient, to ensure that the inpatient care is medically necessary for the patient. All treatment provided under this subparagraph may be reviewed retrospectively. Where care is denied retrospectively, an insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(B) Coverage provided under this paragraph may be limited to facilities in New York state [which are certified] that are licensed, certified or otherwise authorized by the office of alcoholism and substance abuse services and, in other states, to those which are accredited by the joint commission as alcoholism, substance abuse or chemical dependence treatment programs and are similarly licensed, certified, or otherwise authorized in the state in which the facility is located.

Coverage provided under this paragraph shall not be subject to preauthorization. Coverage provided under this paragraph shall also not be subject to concurrent utilization review during the first [fourteen] twenty-eight days of the inpatient admission provided that the facility notifies the insurer of both the admission and the initial treatment plan within [forty-eight hours] two business days of the admission. The facility shall perform daily clinical review of the patient, including [the] periodic consultation with the insurer at or just prior to the fourteenth day of treatment to ensure that the facility is using the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services and appropriate to the age of the patient, to ensure that the inpatient treatment is medically necessary for the patient. Prior to discharge, the facility shall provide the patient and the insurer with a written discharge plan which shall describe arrangements for additional services needed following discharge from the inpatient facility as determined using the evidence-based and peer-reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. Prior to discharge, the facility shall indicate to the insurer whether services included in the discharge plan are secured or determined to be reasonably available.

Any utilization review of treatment provided under this subparagraph may include a review of all services provided during such inpatient treatment, including all services provided during the first [fourteen] twenty-eight days of such inpatient treatment. Provided, however, the insurer shall only deny coverage for any portion of the initial [fourteen] twenty-eight day inpatient treatment on the basis that such treatment was not medically necessary if such inpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. An insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(E) The criteria for medical necessity determinations under the policy with respect to inpatient substance use disorder benefits shall be made available by the insurer to any insured, prospective insured, or in-network provider upon request.

(iv) "substance use disorder" shall have the meaning set forth in the most recent edition of the diagnostic and statistical manual of mental disorders or the most recent edition of another generally recognized independent standard of current medical practice such as the international classification of diseases.

(A) Every policy that provides medical, major medical or similar comprehensive-type coverage [must] shall provide outpatient coverage for the diagnosis and treatment of substance use disorder, including detoxification and rehabilitation services. Such coverage shall not apply financial requirements or treatment limitations to outpatient substance use disorder benefits that are more restrictive than the predominant financial requirements and treatment limitations applied to substantially all medical and surgical benefits covered by the policy. [Further, such coverage shall be provided consistent with the federal Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (29 U.S.C. § 1185a).]

(C-1) A large group policy that provides coverage under this paragraph shall not impose copayments or coinsurance for outpatient substance use disorder services that exceeds the copayment or coinsurance imposed for a primary care office visit. Provided that no greater than one such copayment may be imposed for all services provided in a single day by a facility licensed, certified or otherwise authorized by the office of alcoholism and substance abuse services to provide outpatient substance use disorder services.

Coverage provided under this paragraph shall not be subject to preauthorization. Coverage provided under this paragraph shall not be subject to concurrent review for the first [two] four weeks of continuous treatment, not to exceed fourteen visits, provided the facility notifies the insurer of both the start of treatment and the initial treatment plan within [forty-eight] two business days. The facility shall perform clinical assessment of the patient at each visit, including [the] periodic consultation with the insurer at or just prior to the fourteenth day of treatment to ensure that the facility is using the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services and appropriate to the age of the patient, to ensure that the outpatient treatment is medically necessary for the patient. Any utilization review of the treatment provided under this subparagraph may include a review of all services provided during such outpatient treatment, including all services provided during the first [two] four weeks of continuous treatment, not to exceed fourteen visits, of such outpatient treatment. Provided, however, the insurer shall only deny coverage for any portion of the initial [two] four weeks of continuous treatment, not to exceed fourteen visits, for outpatient treatment on the basis that such treatment was not medically necessary if such outpatient treatment was contrary to the evidence-based and peer reviewed clinical review tool utilized by the insurer which is designated by the office of alcoholism and substance abuse services. An insured shall not have any financial obligation to the facility for any treatment under this subparagraph other than any copayment, coinsurance, or deductible otherwise required under the policy.

(F) The criteria for medical necessity determinations under the policy with respect to outpatient substance use disorder benefits shall be made available by the insurer to any insured, prospective insured, or in-network provider upon request.

(G) For purposes of this paragraph:

(iii) "treatment limitation" means limits on the frequency of treatment, number of visits, days of coverage, or other similar limits on the scope or duration of treatment and includes nonquantitative treatment limitations such as: medical management standards limiting or excluding benefits based on medical necessity, or based on whether the treatment is experimental or investigational; formulary design for prescription drugs; network tier design; standards for provider admission to participate in a network, including reimbursement rates; methods for determining usual, customary, and reasonable charges; fail-first or step therapy protocols; exclusions based on failure to complete a course of treatment; and restrictions based on geographic location, facility type,
provider specialty, and other criteria that limit the scope or duration of benefits for services provided under the policy; and

(iv) "substance use disorder" shall have the meaning set forth in the most recent edition of the diagnostic and statistical manual of mental disorders or the most recent edition of another generally recognized independent standard of current medical practice such as the international classification of diseases.

Further, coverage of an emergency supply without prior authorization shall include formulary forms medication for opioid overdose reversal otherwise covered under the policy prescribed or dispensed to an individual covered by the policy.

(B) For purposes of this paragraph, an "emergency condition" means a substance use disorder condition that manifests itself by acute symptoms of sufficient severity, including severe pain or the expectation of severe pain, such that a prudent layperson, possessing an average knowledge of medicine and health, could reasonably expect the absence of immediate medical attention to result in:

This subparagraph shall not preclude the imposition of a copayment or coinsurance on the initial emergency supply of medication in an amount that is less than the copayment or coinsurance otherwise applicable to a thirty-day supply of such medication, provided that the total sum of the copayments or coinsurance for an entire thirty-day supply of the medication does not exceed the copayment or coinsurance otherwise applicable to a thirty-day supply of such medication.

[Coverage for applied behavior analysis shall be subject to a maximum benefit of six hundred eighty hours of treatment per policy or calendar year per covered individual.] This paragraph shall not be construed as limiting the benefits that are otherwise available to an individual under the group or blanket policy, provided however that such policy shall not contain any limitations on visits that are solely applied to the treatment of autism spectrum disorder. No insurer shall terminate coverage or refuse to deliver, execute, issue, amend, adjust, or renew coverage to an individual solely because the individual is diagnosed with autism spectrum disorder or has received treatment for autism spectrum disorder. Coverage shall be subject to utilization review and external appeals of health care services pursuant to article forty-nine of this chapter as well as[•] case management[•] and other managed care provisions.
