Such program shall provide participating inmates preparing for 21 release from prison with a one-week supply of any necessary medication, where permissible under federal laws and regulations to continue their 22 medication assisted treatment in an effort to prevent relapse. 23 (c) Reentry planning and community supervision should include a colla-24 25 borative relationship between clinical and parole staff including shar-26 ing of accurate information regarding the inmate's participation in 27 medication assisted treatment to ensure that their medication is not deemed illicit or illegal.
