(ii) A health care plan may remove a prescription drug from a formulary if the federal Food and Drug Administration determines that such prescription drug should be removed from the market, including new utilization management restrictions issued pursuant to federal Food and Drug Administration safety concerns.

- (d) A health care plan shall provide notice to policyholders of the intent to remove a prescription drug from a formulary or alter deductible, copayment or coinsurance requirements in the upcoming plan year, thirty days prior to the open enrollment period for the consecutive plan year. Such notice of impending formulary and deductible, copayment or coinsurance changes shall also be posted on the plan's online formulary and in any prescription drug finder system that the plan provides to the public.
- 14 § 2. The public health law is amended by adding a new section 4909 read as follows:
  - § 4909. Prescription drug formulary changes. 1. Except as otherwise provided in subdivision three of this section, a health care plan shall
    - (a) remove a prescription drug from a formulary;
  - (b) move a prescription drug to a tier with a larger deductible, copayment, or coinsurance if the formulary includes two or more tiers of benefits providing for different deductibles, copayments or coinsurance applicable to the prescription drugs in each tier; or
- 24 (c) add utilization management restrictions to a prescription drug on 25 a formulary, unless such changes occur at the time of enrollment or 26 issuance of coverage.
  - 2. Prohibitions provided in subdivision one of this section shall apply beginning on the date on which open enrollment begins for a plan year and through the end of the plan year to which such open enrollment period applies.
  - 3. (a) A health care plan with a formulary that includes two or more tiers of benefits providing for different deductibles, copayments or coinsurance applicable to prescription drugs in each tier may move a prescription drug to a tier with a larger deductible, copayment or coinsurance if an AB-rated generic equivalent or interchangeable biological product for such prescription drug is added to the formulary at the same time.
  - (b) A health care plan may remove a prescription drug from a formulary if the federal Food and Drug Administration determines that such prescription drug should be removed from the market, including new utilization management restrictions issued pursuant to federal Food and Drug Administration safety concerns.
  - 4. A health care plan shall provide notice to policyholders of the intent to remove a prescription drug from a formulary or alter deductible, copayment or coinsurance requirements in the upcoming plan year, thirty days prior to the open enrollment period for the consecutive plan year. Such notice of impending formulary and deductible, copayment or coinsurance changes shall also be posted on the plan's online formulary and in any prescription drug finder system that the plan provides to the public.
- 51 § 3. This act shall take effect on the sixtieth day after it shall 52 have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation 53 54 of this act on its effective date are authorized to be made and completed on or before such effective date.
