AN ACT to amend the executive law, in relation to establishing a child sex abuse survivor hotline for past childhood sexual offense reporting

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings. The legislature hereby finds that it is in the public interest to collect data about the extent of instances of past childhood sexual abuse which may have been unreported to appropriate authorities at the time the abuse occurred or is still within the existing statutory timeframe for criminal prosecution or the filing of a civil claim. The consequences to victims from such past childhood sexual 7 abuse are often repressed for many years and can be devastating to the victims and to society as a whole. Many incidents of abuse are also unreported to enforcement authorities due to a fear of retaliation or 10 reprisal. In order to help determine the extent of this prior abuse, aid 11 in efforts to prosecute past childhood sexual abuse offenses and estab-12 lish associated claims which may still be viable for legal action, aid 13 efforts to prevent future childhood sexual abuse, and help determine the appropriate means of providing compensation for damages incurred by the 15 victims of past abuse, the legislature finds that the establishment of a voluntary reporting program (a child sex abuse survivor hotline) for incidents of past childhood sexual abuse is in the public interest. 16 17
