STATE OF NEW YORK

3276

2019-2020 Regular Sessions

IN SENATE

February 5, 2019

Introduced by Sen. LANZA -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law, in relation to notifying hospital patients upon intake of reports of hospital-acquired infections

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 2819 of the public health law is amended by adding a new subdivision 6-a to read as follows:

6-a. No later than one hundred eighty days after the issuance of the reports required pursuant to subparagraph (iii) of paragraph (c) of subdivision five of this section, each general hospital shall be required to notify patients as a component of prebooking, intake and registration of the hospital-acquired infections, that would be required to be reported to the department pursuant to this section, that occurred in the hospital for the prior thirty day period. Such notification shall be updated on a daily basis and shall be accomplished through the conspicuous posting of signs, which are easily understandable by the general public, and shall include directions on how to obtain additional information. To the degree practicable, the format of such signs shall be consistent with the format of the summary table required to be developed pursuant to subdivision six of this section. Upon request the hospital shall provide a patient with an individual copy of the information contained on such sign. The department through regulation shall establish penalties applicable to the first and subsequent violations of the requirement imposed by this subdivision.

§ 2. This act shall take effect immediately.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
