AN ACT to amend the retirement and social security law, in relation to authorizing the beneficiaries of a member of the state and local employees' retirement system who die after filing a retirement application to choose pension benefits rather than a death benefit

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

2 security law, as amended by chapter 375 of the laws of 2011, is amended

than ninety days subsequent to such date of filing. An application for service retirement, filed hereunder in accordance with the provisions of subdivision c of section sixty-two or subdivision f of section sixty-three of this article, shall be processed in the regular manner, provided that if the application filed simultaneously therewith under either of such subdivisions is granted, then and in that event the retirement allowance granted in accordance with the provisions of this section shall be appropriately adjusted. Notwithstanding any other provision of law, for any member who is eligible to retire and who has died while in active service, and who has filed an application for service retirement less than thirty days prior to death, the member's active beneficiary shall have the option to choose the death benefit or if such member filed an option election form prior to death, the benefit elected by the member on such form, in which case the member will be deemed to have retired the day prior to death.

§ 2. Notwithstanding any other provision of law to the contrary, none of the provisions of this act shall be subject to section 25 of the retirement and social security law.

§ 3. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after January 1, 2017.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow a deceased member's active death beneficiary the option to make effective the service retirement and option election form filed by the member, resulting in payment of a survivor's benefit in lieu of the member's active death benefit, provided the member is (1) eligible to retire (on the day before the date of death), (2) has died in active service, (3) has filed an application for service retirement less than thirty days prior to death, and (4) has filed an option election form prior to death. The date used for the deemed service retirement will be the day prior to the member's death. This bill will include deaths which occurred on or after January 1, 2017.

If this bill is enacted, the cost will depend upon the deceased member's age, service, salary, plan, and the optional form selected by the member on the option election form filed with the New York State and Local Employees' Retirement System (NYSLERS). For standard options, there will be an estimated additional cost of up to five (5) times the salary of a deceased member. This cost assumes that the post-retirement death benefit will be payable on behalf of eligible members only when the service retirement form is selected.

The number of members and beneficiaries who could be affected by this legislation cannot be readily determined, but it is estimated that approximately 450 beneficiaries could benefit from this provision each year. Those costs arising would be shared and spread by the State of New York and the participating employers in NYSLERS.

In addition to the per person costs stated above, there will be an administrative cost to implement the provisions of this legislation.
