In the case of a municipality acting as an administrator, funds provided to such municipality hereunder shall not be deemed to be municipal funds. The corporation shall refer any request for payments, grants or loans from persons of low income to eligible applicants in the area in which such persons reside. Loans may be in the form of participation in loans including but not limited to participation in loans originated or financed by lending institutions as defined in section forty-two of this chapter, the state of New York mortgage agency, the New York city housing development corporation, the New York state housing finance agency or private or public employee pension funds. Notwithstanding any other provision of law, payments, grants and loans may be deposited by the corporation directly with a lending institution at or before the time of initial loan closing pursuant to an escrow agreement satisfactory to the corporation. Payments, grants and loans shall be on such terms and conditions as the corporation, or the eligible applicant with the approval of the corporation, as the case may be, shall determine. Payments, grants and loans shall be used to pay for the actual and necessary cost of acquisition, construction, rehabilitation or conversion, provided that not more than fifty percent of such payments, grants and loans received for the rehabilitation, construction or conversion of a project may be used for the cost of the project's acquisition and not more than ten percent of such payments, grants and loans may be used for the rehabilitation, construction or conversion of community service facilities and, provided further, that payments, grants or loans shall not be used for (i) the administrative costs of an eligible applicant except as otherwise authorized by law, (ii) the cost of the acquisition, construction, conversion or rehabilitation of residential units which, subsequent to such acquisition, construction, conversion or rehabilitation, are to be occupied by persons other than persons of low income, and (iii) the cost of the acquisition, construction, conversion or rehabilitation of units which, subsequent to such acquisition, construction, conversion or rehabilitation, are occupied or to be occupied for other than residential purposes, except for community service facilities as described above. No such payments, grants or loans shall exceed a total of one hundred twenty-five thousand dollars per dwelling unit. Among the criteria the corporation shall consider in determining whether to provide additional funds are: average cost of construction in the area, location of the project and the impact of the additional funding on the affordability of the project for the occupants of such project. The length of any loan provided under this article shall not exceed thirty years, except in instances where a lengthier loan period is necessary to provide for a loan term that is co-terminus with the terms of other financing or regulatory agencies participating in the project. No more than fifty percent of the total amount originally appropriated pursuant to this article in any fiscal year shall be allocated to projects located within any single municipality. Of the amount originally appropriated to the corporation in any fiscal year, no more than thirty-three and one-third percent shall be allocated to private developers for projects within a city with a population of one million or more. Of the amount originally appropriated to the corporation in any fiscal year, no more than thirty-three and one-third percent shall be allocated to private developers for projects in the area outside cities with a population of one million or more.
