- 4. "Energy efficiency improvement" means [and includes] any improvement to real property, whether as a component of the new construction of <u>a building or as the</u> renovation or retrofitting of [a] <u>an existing</u> building to reduce energy consumption, such as window and door replacement, lighting, caulking, weatherstripping, air sealing, insulation, and heating and cooling system upgrades, and similar improvements, determined to be cost-effective pursuant to criteria established by the authority. However, "energy efficiency improvement" shall not include lighting measures or household appliances that are not permanently fixed to real property.
 - 5. "Municipal corporation" means a county, town, city or village.
- 6. "Real property" means any property, an interest in which is or is eligible to be recorded or registered on municipal land ownership records by the possessor of such interest.
- 7. "Renewable energy system" means an energy generating system for the 16 generation of electric or thermal energy, to be used primarily at such property, except when the owner of real property is a commercial entity, by means of solar thermal, solar photovoltaic, wind, geothermal, anaerobic digester gas-to-electricity systems, fuel cell technologies, or other renewable energy technology approved by the authority not including the combustion or pyrolysis of solid waste.
- [7-] 8. "Renewable energy system feasibility study" means a written study, conducted by a contractor certified by the authority, or certified by a certifying entity approved by the authority for purposes of this article, for the purpose of determining the feasibility of installing a renewable energy system. A municipal corporation may, by local law, provide for the certification of such contractors based upon crite-28 ria at least as stringent as the state-wide criteria for certification adopted by the authority for purposes of this article.
- 30 § 2. This act shall take effect immediately.
