

STATE OF NEW YORK

7047

IN SENATE

(Prefiled)

January 8, 2020

Introduced by Sen. METZGER -- read twice and ordered printed, and when printed to be committed to the Committee on Transportation

AN ACT to amend the transportation law, in relation to utilizing pollinator friendly road maintenance techniques

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Section 14-a of the transportation law, as amended by chapter 661 of the laws of 1972, is amended to read as follows:

2 § 14-a. Preservation of agricultural lands, public park and recreational lands, wildlife and waterfowl refuges and historical sites. (a)
3 The commissioner of transportation shall cooperate and consult with the
4 commissioners of agriculture and markets, parks and recreation, environmental conservation and health in developing transportation plans and
5 programs so that such programs include measures to maintain or enhance
6 the desirable natural characteristics of the land traversed. Such cooperation and consultation shall be effected and implemented by memoranda
7 of understanding which shall be entered into between the commissioner of
8 transportation and each of such commissioners. Such memoranda of understanding shall provide for review of proposed transportation projects by
9 such commissioners at all stages of progress, including preliminary and
10 final planning and during construction, and for the cooperation by the
11 department of transportation necessary to facilitate such review. Such
12 memoranda of understanding shall also provide that the commissioner of
13 transportation shall implement any suggestion or recommendation made by
14 any of such commissioners which he deems feasible in connection with the
15 preservation of agricultural lands, lands of public parks and recreational areas, wildlife and waterfowl refuges and historical sites.

16 (b) Roads, medians and right-of-ways under the jurisdiction of the state shall utilize pollinator friendly maintenance techniques. Such techniques shall include, but not be limited to, planting and seeding native, locally appropriate low-mow or no mow grasses and wildflowers, implementing mowing strategies that limit disturbances during periods of highest use by pollinators, minimizing the use of pesticides, implementing the application of integrated vegetation management, and any other technique deemed appropriate for pollinator friendly maintenance.

17 § 2. This act shall take effect immediately.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.
