AN ACT to authorize James E. McTammany to receive an accidental disability retirement

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Notwithstanding any other provision of law, James E.
2 McTammany, who was employed by the town of Greece from January 24, 1974
3 until September 15, 1991 and for the office of emergency communications
4 for the city of Rochester from September 16, 1991 until July 25, 1995,
5 and who was critically injured in September 1994 as a result of an injury
6 on the job and was unable to return to work after surgery in March
7 1995, and who was denied an accidental disability retirement from the
8 New York state and local retirement system, and who, as of the effective
9 date of this act, is on regular service disability or receiving an ordinary
10 disability benefit, shall be entitled to reapply for an accidental
11 disability retirement from the New York state and local retirement
12 system if on or before December 31, 2021, he files a written request
13 with the state comptroller to such effect.

14 § 2. This act shall take effect immediately.

FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would allow James E. McTammany, an ordinary disability retiree in the New York State and Local Employees' Retirement System (ERS), to reapply for an accidental disability retirement. Mr. McTammany was previously denied the accidental disability in 1995, and this decision was upheld at a hearing in 1997.

If this legislation is enacted during the 2020 legislative session, there will be an immediate past service cost of approximately \$247,000. This estimated cost assumes that the ERS will approve Mr. McTammany for the accidental disability retirement after he reapplies pursuant to this legislation. It also assumes that his increased benefit will be retroactive to his ordinary disability date of retirement. The cost would be shared by the State of New York and all of the participating employers in the ERS.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.
