STATE OF NEW YORK

9035--A

IN SENATE

October 7, 2020

Introduced by Sens. RIVERA, KRUEGER -- read twice and ordered printed, and when printed to be committed to the Committee on Rules -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the public health law, in relation to health equity assessments in the establishment or construction of a hospital

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The public health law is amended by adding a new section 2802-b to read as follows:

§ 2802-b. Health equity impact assessments. 1. Definitions. As used in this section:

12

16

21

(a) "Application" means an application under this article for the construction, establishment, change in the establishment, merger, acquisition, closure, or substantial reduction, expansion, or addition of a hospital service or health-related service of a hospital that requires review or approval by the council or the commissioner, where the application is filed or submitted to the council, the commissioner or the department after this section takes effect.

(b) "Project" means the construction, establishment, change in the 13 establishment, merger, acquisition, closure, or substantial reduction of 14 a hospital service or health-related service of a hospital that is the 15 subject of an application.

(c) "Health equity impact assessment" or "impact assessment" means an 17 assessment of whether, and if so how, a project will improve access to hospital services and health care, health equity and reduction of health 18 19 disparities, with particular reference to members of medically under-20 served groups, in the applicant's service area.

(d) "Medically underserved group" means: low-income people; racial and 22 ethnic minorities; immigrants; women; lesbian, qay, bisexual, transgender, or other-than-cisqender people; people with disabilities; older 23 24 adults; persons living with a prevalent infectious disease or condition; 25 persons living in rural areas; people who are eligible for or receive 26 public health benefits; people who do not have third-party health cover-

EXPLANATION -- Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

age or have inadequate third-party health coverage; and other people who are unable to obtain health care.

- 2. (a) Every application shall include a health equity impact assessment of the project. The impact assessment shall be filed together with the application, and the application shall not be complete without the impact statement. The applicant shall promptly amend or modify the impact statement as necessary.
- (b) In considering whether and on what terms to approve an application, the commissioner and the council, as the case may be, shall consider the health equity impact statement.
- 11 3. Scope and contents of a health equity impact assessment. A health 12 equity impact assessment shall include:
- (a) A demonstration of whether, and if so how, the proposed project 14 will improve access to hospital services and health care, health equity and reduction of health disparities, with particular reference to members of medically underserved groups, in the applicant's service 17
 - (b) The extent to which medically underserved groups in the applicant's service area use the applicant's hospital or health-related services or similar services at the time of the application and the extent to which they are expected to if the project is implemented.
 - (c) The performance of the applicant in meeting its obligations, if any, under section twenty-eight hundred seven-k of this article and federal regulations requiring providing uncompensated care, community services, and access by minorities and people with disabilities to programs receiving federal financial assistance, including the existence of any civil rights access complaints against the applicant, and how the applicant's meeting of these obligations will be affected by implementation of the project.
 - (d) How and to what extent the applicant will provide hospital and health-related services to the medically indigent, Medicare recipients, Medicaid recipients and members of medically underserved groups if the project is implemented.
- (e) The amount of indigent care, both free and below cost, that will 34 35 be provided by the applicant if the project is approved.
 - (f) Access by public or private transportation, including applicantsponsored transportation services, to the applicant's hospital or <u>health-related services if the project is implemented.</u>
 - (g) The means of assuring effective communication between the applicant's hospital and health-related service staff and people of limited English-speaking ability and those with speech, hearing or visual impairments handicaps if the project is implemented.
- (h) The extent to which implementation of the project will reduce 44 architectural barriers for people with mobility impairments.
- 45 (i) A review of how the applicant will maintain or improve the quality 46 of hospital and health-related services including a review of:
 - (i) demographics of the applicant's service area;
- (ii) economic status of the population of the applicant's service 48 49
- (iii) physician and professional staffing issues related to the 50 51 project;
- (iv) availability of similar services at other institutions in or near 52 53 the applicant's service area; and
- 54 (v) historical and projected market shares of hospital and health care 55 service providers in the applicant's service area.

- 4. The health equity impact assessment shall be prepared for the applicant by an independent entity and include the meaningful engagement of public health experts, organizations representing employees of the applicant, stakeholders, and community leaders and residents of the applicant's service area.
- 5. The department shall publicly post the application and the health equity impact assessment on the department's website within one week of the filing with the department, including any filing with the council.
- § 2. This act shall take effect on the one hundred eightieth day after it becomes a law. Effective immediately, the commissioner of health and the public health and health planning council shall make regulations and take other actions reasonably necessary to implement this act on that date.
