AN ACT making appropriations for the support of government

AID TO LOCALITIES BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or after the period of the appropriation.
prior to, the state fiscal year beginning on April 1, 2019 except as
otherwise noted.

c) The several amounts named herein, or so much thereof as shall be
sufficient to accomplish the purpose designated, being the undisbursed
and/or unexpended balances of the prior year's appropriations, are here-
by reappropriated from the same funds and made available for the same
purposes as the prior year's appropriations, unless herein amended, for
the fiscal year beginning April 1, 2019. Certain reappropriations in
this chapter are shown using abbreviated text, with three leader dots
(an ellipsis) followed by three spaces (...  ) used to indicate where
existing law that is being continued is not shown. However, unless a
change is clearly indicated by the use of brackets [—] for deletions and
underscores for additions, the purposes, amounts, funding source and all
other aspects pertinent to each item of appropriation shall be as last
appropriated.

For the purpose of complying with the state finance law, the year,
chapter and section of the last act reappropriating a former original
appropriation or any part thereof is, unless otherwise indicated, chap-
ter 53, section 1, of the laws of 2018 and, for the education depart-
ment, chapter 54, section 2, of the laws of 2018.

d) No moneys appropriated by this chapter shall be available for
payment until a certificate of approval has been issued by the director
of the budget, who shall file such certificate with the department of
audit and control, the chairperson of the senate finance committee and
the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, if the finan-
cial plan required under sections twenty-two or twenty-three of the
state finance law estimates that the general fund is reasonably antic-
pipated to end the fiscal year with an imbalance of $500,000,000 or more,
the director of the division of the budget shall prepare a plan that
shall be submitted to the legislature, which shall identify the general
fund and state special revenue fund appropriations contained herein and
related disbursements that may be reduced to eliminate the imbalance
identified in the general fund, provided, however, that the total
reduction in disbursements identified in such plan shall not exceed an
amount equal to 1.0 percent of estimated disbursements in total state
operating funds for fiscal year 2019-2020. The legislature shall have 30
days after such submission to either prepare its own plan, which may be
adopted by concurrent resolution passed by both houses and implemented
by the division of the budget, or if after 30 days the legislature fails
to adopt its own plan, the reductions to the general fund and state
special revenue fund appropriations contained herein and related
disbursements identified in the division of the budget plan will go into
effect automatically. To the extent the State is obligated to make
payment to any individual or entity pursuant to any appropriation
contained herein to which an adjustment or reduction is applied in
accordance with this section, such obligation shall be reduced commensu-
rate with any adjustments or reductions made by the director of the
budget and/or by the legislature. The following types of appropriations
shall be exempt from reduction in any plan prepared by the budget direc-
tor and/or any plan adopted by the legislature: (a) public assistance
payments for families and individuals and payments for eligible aged,
blind and disabled persons related to supplemental social security; (b)
any reductions that would violate federal law; (c) payments of debt
service and related expenses for which the state is constitutionally
obligated to pay debt service or is contractually obligated to pay debt
service, subject to an appropriation, including where the state has a
contingent contractual obligation; and (d) payments the state is obli-
gated to make pursuant to court orders or judgments.

f) The appropriations contained in this chapter shall be available for
the fiscal year beginning on April 1, 2019 except as otherwise noted.

Provided further that, notwithstanding any provision of law to the contrary, in addition to the competitive awards amount as defined in paragraph ee of subdivision 1 of section 3602 of the education law, a minimum of $37,500,000 shall be available for the payment of grant awards made in the 2013-14 school year, with additional amounts to be made available in the 2014-15 through 2019-20 state fiscal years as necessary to continue such awards, make an additional round of awards pursuant to subdivision 6-a of section 3641 of the education law in the 2014-15 school year not to exceed the amount awarded in the 2013-14 school year pursuant to such subdivision 6-a, and make additional master teachers awards to the extent that the master teachers program authorized herein would not otherwise expend the maximum school year amount authorized herein; and such $37,500,000 shall be made available for $12,500,000 of prekindergarten grants, $10,000,000 of school-wide extended learning grants, $7,500,000 of community schools grants, $5,500,000 for a master teacher program and $2,000,000 for the early college high school program; provided, however, the funds appropriated herein for pre-kindergarten grants shall only be available for grants awarded for the 2016-17 school year and prior school years; provided, however, the funds appropriated herein for school-wide extended learning grants shall only be available for grants awarded for the 2017-18 school year and prior school years; provided, however, the funds appropriated herein for the early college high school program shall only be available for grants awarded for the 2017-18 school year and prior school years; provided, however, the funds appropriated herein for the master teachers program shall only be available for expenses for the 2018-19 school year and prior school years; provided, however, that no school district shall receive any portion of the funds appropriated herein unless it shall have submitted documentation that has been approved by the commissioner by September 1 of 2013 and of each school year in which a payment to such district from this appropriation would otherwise be made demonstrating that it has fully implemented new standards and procedures for conducting annual professional performance reviews of classroom teachers and building principals to determine teacher and principal effectiveness. Provided, further, that notwithstanding any provision of law to the contrary, the $12,500,000 appropriated herein available for full-day and half-day pre-kindergarten grants shall be awarded, based on a request for proposals developed by the commissioner and approved by the director of the budget, to school districts to establish new full-day and half-day pre-kindergarten placements and/or to convert existing half-day pre-kindergarten placements into full-day placements; provided that preference shall be granted for full-day placements while ensuring that a portion of grants include half-day placements based on eligible applications; and provided, further, that such grants shall only be used to supplement, not supplant existing pre-kindergarten programs, and provided further, however, that any portion of such $12,500,000 that is not awarded shall
remain available for subsequent awards in the 2013-14 school year or for full-day and half-day pre-kindergarten grants to be awarded in subsequent school years. Provided, however, that full-day and half-day pre-kindergarten grants appropriated herein shall only be available to support programs (i) that provide instruction for at least five hours per school day for full-day pre-kindergarten programs and at least two and one-half hours per school day for half-day pre-kindergarten programs; (ii) that agree to offer instruction consistent with the New York state pre-kindergarten foundation for the common core standards within three years; (iii) that ensure that, to the extent community-based providers are part of such program, such providers meet the requirements of paragraphs d-1 and d-2 of subdivision 12 of section 3602-e of the education law; and (iv) that otherwise comply with all of the same rules and requirements as universal pre-kindergarten programs pursuant to section 3602-e of the education law except as modified herein. Provided, further, that a school district's pre-kindergarten grant shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of half-day pre-kindergarten placement conversions and new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make highstakes educational decisions for individual children. Provided, further, that no school district shall receive more than forty percent of the total pre-kindergarten grant allocation. Provided, further, that notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the commissioner; (ii) approved by the director of the budget; and (iii) issued by the commissioner. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the
following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation.

Provided, further, that notwithstanding any provision of law to the contrary, the $7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and their families. In a city with a population of one million or more,
eligible entities shall mean the city school district of the city of New York, or not-for-profit organizations, which shall include not-for-profit community-based organizations. An eligible entity that is a not-for-profit may apply for a community school grant provided that it collaborates with the city school district of the city of New York and receives the approval of the chancellor of the city school district of the city of New York. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) measures of school district need, (ii) measures of the need of students to be served by each of the school districts, (iii) the school district's proposal to target the highest need schools and students, (iv) the sustainability of the proposed community schools program, and (v) proposal quality. Provided, further, that to assess proposal quality in order to award such funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would provide such community services through partnerships with local governments and non-profit organizations, (ii) the extent to which the proposal would provide for delivery of such services directly in school buildings, (iii) the extent to which the proposal articulates how such services would facilitate measurable improvement in student and family outcomes, (iv) the extent to which the proposal articulates and identifies how existing funding streams and programs would be used to provide such community services, and (v) the extent to which the proposal ensures the safety of all students, staff and community members in school buildings used as community hubs. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district's approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of $500,000.

Provided, further, that notwithstanding any provision of law to the contrary, the $5,500,000 appropriated herein available for a master teachers program shall support the award of stipends of $15,000 per annum over four years to individual high-performing teachers in math, science and related fields, and of related costs, administered by the state university of New York pursuant to a plan developed in consultation with the commissioner, who shall consult with appropriate state organizations representing K-12 public school teachers and approved by the director of the budget, to build a corps of outstanding math, science and related fields teachers in order to improve the quality of instruction at public secondary schools. Such plan for use of funding appropriated herein shall: (i) establish an application process; (ii) guidelines by which applications from eligible teachers shall be evaluated, which shall include, but not be limited to, achievement of a rating of highly effective on the annual professional performance review; and (iii) provide periodic opportunities for professional development for successful applicants. Provided, further, that priority shall be given to applicants in regions of the state where a similar program is not
otherwise offered. Notwithstanding any provision of law to the contrary, upon approval of the director of the budget, such $5,500,000 of master teachers program funding may be sub-allocated, interchanged, transferred or otherwise made available to the state university of New York for the services and expenses of administering such program. Nothing herein shall be construed to limit the rights of labor organizations representing teachers to collectively bargain terms and conditions pursuant to article 14 of the civil service law.

Provided, further, that notwithstanding any provision of law to the contrary, the $2,000,000 appropriated herein available for the early college high school program shall support the continuation and expansion of such program pursuant to a plan developed by the commissioner and approved by the director of the budget. Provided, however, that a portion of the payments to early college high school programs awarded funding from this appropriation shall be awarded on a sliding scale based upon the number of college credits earned annually by participating students, consistent with guidelines established by the commissioner. district need, (ii) measures of the need of students to be served by
each of the school districts, (iii) the school district's proposal

that full-day and half-day pre-kindergarten grants appropriated
herein shall only be awarded to programs (i) that provide

Provided, further, that as a condition of eligibility for receipt of
such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the commissioner; (ii) approved by the director of the budget; and (iii) issued by the commissioner. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall

including kinship guardianship assistance
payments and payments for non-recurring
guardianship expenses; except that,
reimbursement from the amount appropriated
herein shall not be available for tuition
expenditures for foster children, including
persons in need of supervision and
adjudicated juvenile delinquents, made by
a social services district located within
a city having a population of one million
or more.

Notwithstanding any other provision of law,
a portion of the funds are available to
reimburse social services districts for
the change in the maximum state aid rates
established by the office of children and
family services for the 2019-20 rate year
pursuant to section 398-a of the social
services law and sections 4003 and 4405 of
the education law to reflect the continuati-
on of the cost of living adjustments
that became effective April 1, 2008 for
payments made to foster parents and for
salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and
foster boarding home programs and to
foster parents to reflect the cost of
living adjustments in the manner specified
by the office. Each authorized agency
operating a congregate care or foster
boarding home program in New York state
for which the office sets a maximum state
aid rate pursuant to section 398-a of the
social services law or section 4003 or
4405 of the education law shall submit, at
the time and in a manner to be determined
by the office, a written certification,
attesting that the funds received for the
continuation of the cost of living adjust-
ment to the maximum state aid rate that
became effective April 1, 2008 for that
program will be or were used solely in
accordance with the requirements of the
cost of living adjustment established by
the office.
Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2019 and ending March 31, 2020 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2019 through March 31, 2020 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2018 that are submitted on or before January 2, 2019 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state
fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2019.

Notwithstanding any other provision of law, any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
claim title IV-E funding only for cases
that meet all of the title IV-E eligibil-
ity criteria; and fully implement the
social services payment system on or
before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against
the state as a result of a federal title
IV-E secondary eligibility review regard-
less of the date the children may have
entered foster care, the date the eligi-
bility or payment errors occurred, or the
filing date of any federal claims for
reimbursement; provided, however, that the
state shall be responsible for the disal-
lowed costs and expenditures related to
the placement of children in a facility
operated by the office of children and
family services, which shall be determined
in the same manner as the disallowed costs
and expenditures for social services
districts other than the city of New York.
In order to reimburse the federal govern-
ment for the full amount of any disallow-
ance imposed on the state by the federal
administration for children and families
within the timeframes necessary to avoid
any potential interest payments on such
amount, the office of children and family
services is authorized to immediately
offset funds otherwise due to each
district for a pro rata share of the total
disallowed costs based on the percentage
of applicable federal title IV-E claims
made by that district for the relevant
time period as compared to the total
applicable statewide title IV-E claims.
The amount of the offset against each
district will be adjusted, if necessary,
upon completion of the disallowance allo-
cation process. The final allocation of
the amount of any federal disallowance
resulting from a title IV-E secondary
eligibility review shall be allocated
among the districts so that each district
shall be responsible for the amount
attributable to each of the district's
children or cases that are determined by
the federal review to be unallowable. Each
district shall also be responsible for a
portion of the federal extrapolated disal-
lowance amount based on the relative error
rate for the district. The city of New
York's error rate will be based on the
federal sample and federal statistics. For
all social services districts other than
the city of New York, the error rate will
be based on a review conducted by the
district of a sample of children and/or
cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice laws and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary.
parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. information shall be submitted electronically to the extent feasible
as determined by the office, and shall be used to evaluate expendi-
tures by such social services districts for the provision of tempo-
rary housing assistance for homeless individuals and families.

Notwithstanding section 153 of the social services law, or any other
inconsistent provision of law, the office of temporary and disabili-

General Fund
Local Assistance Account - 10000

expenses for medical assistance programs
and for state administration of medical
assistance programs, notwithstanding
section 153 of the social services law, to
include the performance of eligibility and
enrollment determinations by the state or
third-party entities designated by the
state to perform such services.

Notwithstanding any provision of law to the
contrary, subject to the approval of the
director of budget, up to $23,000,000 of
the amount appropriated herein shall be
available for the purpose of providing
payments to local social services
districts for medical assistance adminis-
tration claims that exceed an administra-
tive ceiling established by the commis-
sioner of health.

Notwithstanding any inconsistent provision
of law and subject to the approval of the
director of budget, moneys hereby appro-
priated may be increased or decreased by
transfer or interchange between these
appropriated amounts and appropriations of
the medical assistance administration
program, the medical assistance program,
and the office of health insurance
programs. Funding authority from this
account used for state administration of
the medical assistance program may be
transferred to state operations appropri-
ations within the aforementioned programs
at amounts agreed upon by the commissioner
of health, and the New York state division
of the budget.

Notwithstanding section 40 of the state
finance law or any other law to the
contrary, all medical assistance appropri-
ations made from this account shall remain
in full force and effect in accordance, in
the aggregate, with the following sched-
ule: not more than 50 percent for the
period April 1, 2019 to March 31, 2020;
and the remaining amount for the period
April 1, 2020 to March 31, 2021.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the
budget determines that such expenditures
are expected to cause medicaid spending
for such period to exceed the aggregate
limit specified herein for such period,
the state medicaid director, in consulta-
tion with the director of the budget and
the commissioner of health, shall develop
a medicaid savings allocation plan to
limit such spending to the aggregate limit
specified herein for such period.
Such medicaid savings allocation plan shall
be designed, to reduce the expenditures
authorized by the appropriations herein in
compliance with the following guidelines:
(1) reductions shall be made in compliance
with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care
Act") and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal
financial participation that is available
or is reasonably expected to become avail-
able, in the discretion of the commissi-
er, under the Affordable Care Act; (4)
reductions shall be made uniformly among
categories of services and geographic
regions of the state, to the extent prac-
ticable, and shall be made uniformly with-
in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contrib-
uted to department of health medicaid

state funds spending in excess of the
limits specified herein; the need to main-
tain safety net services in underserved
communities; or the potential benefits of
pursuing innovative payment models contem-
plated by the Affordable Care Act, in
which case such grounds shall be set forth
in the medicaid savings allocation plan;
and (5) reductions shall be made in a
manner that does not unnecessarily create
administrative burdens to medicaid appli-
cants and recipients or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation plan, to the extent that all or
part of such plan, in the discretion of
the commissioner, is likely to have a
material impact on the overall medicaid
program, particular categories of service
or particular geographic regions of the
state.

(a) The commissioner shall post the medicaid
savings allocation plan on the department
of health's website and shall provide
written copies of such plan to the chairs
of the senate finance and the assembly
ways and means committees at least 30 days
before the date on which implementation is
expected to begin.

(b) The commissioner may revise the medicaid
savings allocation plan subsequent to the
provisions of notice and prior to imple-
mentation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget.

and the remaining amount for the period April 1, 2020 to March 31, 2021.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,265,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation plan to limit such spending to
the aggregate limit specified herein for
such period.
Such medicaid savings allocation plan shall
be designed, to reduce the expenditures
authorized by the appropriations herein in
compliance with the following guidelines:
(1) reductions shall be made in compliance
with applicable federal law, including the
provisions of the Patient Protection and
Affordable Care Act, Public Law No. 111-
148, and the Health Care and Education
Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care
Act") and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal
financial participation that is available
or is reasonably expected to become avail-
able, in the discretion of the commission-
er, under the Affordable Care Act; (4)
reductions shall be made uniformly among
categories of services and geographic
regions of the state, to the extent prac-
ticable, and shall be made uniformly with-
in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medi-

2. For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

3. Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

4. In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

5. The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such
actions on each category of service and
each geographic region of the state. Each
such monthly report shall be provided to
the chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.

The money hereby appropriated is to be
available for payment of aid heretofore
accrued or hereafter accrued to munici-

social services law, and for payment of
state aid to municipalities and to provid-
ers of family care where payment systems
through the fiscal intermediaries are not
operational, and shall be available to the
department net of disallowances, refunds,

social services law pursuant to an esti-

appropriations shall support direct salary

appropriations, pursuant to section 652 of

provided below and state share medicaid
spending, in the aggregate, for the period
April 1, 2020 through March 31, 2021,
shall not exceed $23,256,018,000 but in no
event shall department of health state
funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No.
111-152 (collectively "Affordable Care Act") and any subsequent amendments there-to or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers. The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of
the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the
department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding section 40 of the state
finance law or any other law to the
contrary, all medical assistance appropri-
ations made from this account shall remain
in full force and effect in accordance, in
the aggregate, with the following sched-
ule: not more than 51 percent for the
period April 1, 2019 to March 31, 2020;
and the remaining amount for the period
April 1, 2020 to March 31, 2021.
Notwithstanding section 40 of the state
finance law or any provision of law to the
contrary, subject to federal approval,
department of health state funds medicaid
spending, excluding payments for medical
services provided at state facilities
operated by the office of mental health,
the office for people with developmental
disabilities and the office of alcoholism
and substance abuse services and further
excluding any payments which are not
appropriated within the department of
health, in the aggregate, for the period
April 1, 2019 through March 31, 2020,
shall not exceed $22,251,148,000 except as
provided below and state share medicaid
spending, in the aggregate, for the period
April 1, 2020 through March 31, 2021,
shall not exceed $23,256,018,000 but in no
event shall department of health state
funds medicaid spending for the period
April 1, 2019 through March 31, 2021
exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments there-
to or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid
program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spend-

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2019 to March 31, 2020; and the remaining amount for the period April 1, 2020 to March 31, 2021.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:
1. reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder;

7 reductions shall be made uniformly among
8 categories of services and geographic
9 regions of the state, to the extent prac-
10 ticable, and shall be made uniformly with-
11 in a category of service, to the extent
12 practicable, except where the commissioner
13 determines that there are sufficient

24 which case such grounds shall be set forth
25 in the medicaid savings allocation plan;
26 and (5) reductions shall be made in a
27 manner that does not unnecessarily create
28 administrative burdens to medicaid appli-

The commissioner shall seek the input of the
1 legislature, as well as organizations
2 representing health care providers,
3 consumers, businesses, workers, health

(a) The commissioner shall post the medicaid
13 savings allocation plan on the department

(b) The commissioner may revise the medicaid
20 savings allocation plan subsequent to the
provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for

provision of law, rule or regulation to

department of health, in the aggregate, for the period April 1, [2018] 2019 through March 31, [2019] 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, [2019] 2020 through [March 31] September 15, [2020] 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, [2018] 2019 through March 31, [2020] 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable...
Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.
DEPARTMENT OF HEALTH

AID TO LOCALITIES - REAPPROPRIATIONS 2019-20

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and
copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2018-19 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2018-19, and (ii) appropriation for this item covering fiscal year 2018-19 set forth in chapter 53 of the laws of 2017 (26963) ... 1,090,100,000 ..................... MEDICAL ASSISTANCE PROGRAM

The appropriation made by chapter 53, section 1, of the laws of 2018, is
hereby amended and reappropriated to read:

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2018 to March 31, 2019; and the remaining amount for the period April 1, 2019 to [March 31] September 15, 2020.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, [2018] 2019 through March 31, [2018] 2020, shall not exceed $20,960,018,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, [2018] 2020 through March 31, [2020] 2021, shall not exceed $22,044,311,000, but in no event shall department of health state funds medicaid spending for the period April 1, [2018] 2019 through March 31, [2020] 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent
to such assessment for each such period, and if the director of the
budget determines that such expenditures are expected to cause medi-
caid spending for such period to exceed the aggregate limit speci-

fied herein for such period, the state medicaid director, in consul-
tation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit
such spending to the aggregate limit specified herein for such peri-
od.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No.
111-148, and the Health Care and Education Reconciliation Act of
2010, Public Law No. 111-152 (collectively "Affordable Care Act")
and any subsequent amendments thereto or regulations promulgated
thereunder; (2) reductions shall be made in a manner that complies
with the state medicaid plan approved by the federal centers for
medicare and medicaid services, provided, however, that the commis-
sioner of health is authorized to submit any state plan amendment or
seek other federal approval, including waiver authority, to imple-
ment the provisions of the medicaid savings allocation plan that
meets the other criteria set forth herein; (3) reductions shall be
made in a manner that maximizes federal financial participation, to
the extent practicable, including any federal financial partic-
ipation that is available or is reasonably expected to become avail-
able, in the discretion of the commissioner, under the Affordable
Care Act; (4) reductions shall be made uniformly among categories of
services and geographic regions of the state, to the extent practi-
cable, and shall be made uniformly within a category of service, to
the extent practicable, except where the commissioner determines
that there are sufficient grounds for non-uniformity, including but
not limited to: the extent to which specific categories of services
contributed to department of health medicaid state funds spending in
excess of the limits specified herein; the need to maintain safety
net services in underserved communities; or the potential benefits
of pursuing innovative payment models contemplated by the Affordable
Care Act, in which case such grounds shall be set forth in the medi-
caid savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-

nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation plan, to the
extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan
on the department of health's website and shall provide written
copies of such plan to the chairs of the senate finance and the
assembly ways and means committees at least 30 days before the date on which implementation is expected to begin. (b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency. For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health. Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services. In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected over-spending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h). The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid

Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.
Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the department of health state purpose account, the office of mental health, office for people with developmental disabilities, the office of alcoholism and substance abuse services, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, and office of children and family services, the office of medicaid inspector general, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Such programs may include programs that are licensed pursuant to both article 31 of the mental hygiene law and article 28 of the public health law, or certified under both article 32 of the mental hygiene law and article 28 of the public health law.

[2018] 2019 through March 31, [2019] 2020, shall not exceed $20,960,018,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, [2019] 2020 through March 31, [2020] 2021, shall not exceed $22,044,311,000 but in no event shall department of state funds medicaid spending for the period April 1, [2018] 2019 through March 31, [2020] 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of...
services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to

spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.

For the purpose of making payments to providers of medical care pursu-
ant to section 367-b of the social services law, and for payment of
state aid to municipalities where payment systems through fiscal
intermediaries are not operational, to reimburse such providers for
costs attributable to the provision of care to patients eligible for

28 of the public health law and deposited to this account less any
such amounts withheld pursuant to subdivision 21 of section 2807-c
of the public health law. Notwithstanding any inconsistent

with the state medicaid plan approved by the federal centers for
medicare and medicaid services, provided, however, that the commis-
sioner of health is authorized to submit any state plan amendment or
seek other federal approval, including waiver authority, to imple-
ment the provisions of the medicaid savings allocation plan that
meets the other criteria set forth herein; (3) reductions shall be
made in a manner that maximizes federal financial participation, to
the extent practicable, including any federal financial partic-
ipation that is available or is reasonably expected to become avail-
able, in the discretion of the commissioner, under the Affordable
Care Act; (4) reductions shall be made uniformly among categories of
services and geographic regions of the state, to the extent practi-
cable, and shall be made uniformly within a category of service, to
the extent practicable, except where the commissioner determines
that there are sufficient grounds for non-uniformity, including but
not limited to: the extent to which specific categories of services
contributed to department of health medicaid state funds spending in
excess of the limits specified herein; the need to maintain safety
net services in underserved communities; or the potential benefits
of pursuing innovative payment models contemplated by the Affordable
Care Act, in which case such grounds shall be set forth in the medi-
caid savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation plan, to the
extent that all or part of such plan, in the discretion of the
commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan
on the department of health's website and shall provide written
copies of such plan to the chairs of the senate finance and the
assembly ways and means committees at least 30 days before the date
on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation plan
subsequent to the provisions of notice and prior to implementation
but needs to provide a new notice pursuant to subparagraph (i) of
this paragraph only if the commissioner determines, in his or her
discretion, that such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation plan is necessary due to a public health emergen-
cy.

(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-

tively to the extent permitted by the federal centers for medicare
and medicaid services.

sioner of the department of health shall reduce department of health
state funds medicaid spending by the amount of the projected over-

suspending reimbursement methods, including but not limited to all
fees, premium levels and rates of payment, notwithstanding any
 provision of law that sets a specific amount or methodology for any
such payments or rates of payment; modifying medicaid program bene-
 fits; seeking all necessary federal approvals, including, but not
limited to waivers, waiver amendments; and suspending time frames
for notice, approval or certification of rate requirements, notwith-

disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid

The appropriation made by chapter 53, section 1, of the laws of 2018, is
hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2018 to March 31, 2019; and the remaining
amount for the period April 1, 2019 to March 31, 2020.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of alcoholism and substance abuse services and
further excluding any payments which are not appropriated within the
department of health, in the aggregate, for the period April 1,
2018 through March 31, 2019, shall not exceed $20,960,018,000 except as provided below and state
share medicaid spending, in the aggregate, for the period April 1,
2019 through March 31, 2020, shall not exceed $22,044,311,000, but in no event shall department
of health state funds medicaid spending for the period April 1,
2018 through March 31, 2020, exceed $45,507,166,000 provided, however, such aggregate limits may be
adjusted by the director of the budget to account for any changes in
the New York state federal medical assistance percentage amount
established pursuant to the federal social security act, increases
in provider revenues, reductions in local social services district
payments for medical assistance administration, minimum wage
increases and beginning April 1, 2012 the operational costs of the
New York state medical indemnity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings from the essential plan.
Such projections may be adjusted by the director of the budget to
account for increased or expedited department of health state funds
medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency. The
director of the budget, in consultation with the commissioner of
health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.
(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation plan implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such
actions on each category of service and each geographic region of
the state. Each such monthly report shall be provided to the chairs
of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely
manner.
For the purpose of making payments to providers of medical care pursuant
to section 367-b of the social services law, and for payment of
state aid to municipalities and the federal government where payment
systems through fiscal intermediaries are not operational, to reim-
burse the provision of care to patients eligible for medical assist-
ance.
For services and expenses of the medical assistance program including
nursing home, personal care, certified home health agency, long term
home care program and hospital services.
Notwithstanding any provision of law to the contrary, the portion of
this appropriation covering fiscal year 2018-19 shall supersede and
replace any duplicative (i) reappropriation for this item covering
fiscal year 2018-19, and (ii) appropriation for this item covering

For community schools grants awarded, based on a request for proposals issued by the chancellor to community colleges to improve student outcomes through the implementation of community schools programs that use community college facilities as community hubs to deliver co-located or college-linked child and elder care services, transportation, health care services, family counseling, employment counseling, legal aid and/or other services to students and their families.

Provided, further, that such grants shall be awarded based on factors including, but not limited to, the following: (i) measures of need of students to be served by each of the community colleges, (ii) the community college's proposal to target the highest need students, (iii) the sustainability of the proposed community schools program, and (iv) proposal quality.

Provided, further, that to assess proposal quality in order to award such funding, the chancellor shall take into account factors including, but not limited to: (i) the extent to which the community college's proposal would provide such community services through partnerships with local governments and non-profit organizations, (ii) the extent to which the proposal would provide for delivery of such services directly in community college facilities, (iii) the extent to which the proposal articulates how such services would facilitate measurable improvement in student and family outcomes, (iv) the extent to which the proposal articulates and identifies how existing funding streams and programs would be used to provide such community services, and (v) the extent to which the proposal ensures the safety of all students, staff and community members in community college facilities used as community hubs.

Provided, further, that up to two community schools grants may be awarded, no more than one grant shall be awarded in each region outside of the city of New York, and each individual community school site shall be limited to a maximum grant of $500,000 to be paid over a three year period in installments upon successful implementation of each phase of a community college's approved proposal (50426) ... 1,000,000 ....................
