2. b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or upon

prior to, the state fiscal year beginning on April 1, 2019 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are here- by reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2019. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (... ) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2018 and, for the education depart-
ment, chapter 54, section 2, of the laws of 2018.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, if the financial plan required under sections twenty-two or twenty-three of the state finance law estimates that the general fund is reasonably antici-
pated to end the fiscal year with an imbalance of $500,000,000 or more, the director of the division of the budget shall prepare a plan that shall be submitted to the legislature, which shall identify the general fund and state special revenue fund appropriations contained herein and related disbursements that may be reduced to eliminate the imbalance identified in the general fund, provided, however, that the total reduction in disbursements identified in such plan shall not exceed an amount equal to 1.0 percent of estimated disbursements in total state operating funds for fiscal year 2019-2020. The legislature shall have 30 days after such submission to either prepare its own plan, which may be adopted by concurrent resolution passed by both houses and implemented by the division of the budget, or if after 30 days the legislature fails to adopt its own plan, the reductions to the general fund and state special revenue fund appropriations contained herein and related disbursements identified in the division of the budget plan will go into effect automatically. To the extent the State is obligated to make payment to any individual or entity pursuant to any appropriation contained herein to which an adjustment or reduction is applied in accordance with this section, such obligation shall be reduced commensu-
rate with any adjustments or reductions made by the director of the budget and/or by the legislature. The following types of appropriations shall be exempt from reduction in any plan prepared by the budget direc-
tor and/or any plan adopted by the legislature: (a) public assistance payments for families and individuals and payments for eligible aged, blind and disabled persons related to supplemental social security; (b) any reductions that would violate federal law; (c) payments of debt service and related expenses for which the state is constitutionally obligated to pay debt
service, subject to an appropriation, including where the state has a contingent contractual obligation; and (d) payments the state is obligated to make pursuant to court orders or judgments.

only be awarded to a school district which demonstrates that it has
implemented one or more long term efficiencies within two years
prior to a response to a request for proposal or during the current
school year in school district management, operations, procurement
practices or other cost savings measures and will not result in an
increase in cost to the state or the locality and: (i) have resulted
or will result in a significant reduction in total operating
expenses compared to the prior year and/or significant reductions in
the administrative component, or the equivalent, of the school
district budget and/or transportation operating expenses and/or
transportation capital expenses and/or other non-personal service
costs included in the program component of the school district budg-

the 2013-14 school year pursuant to such subdivision 6-a, and make
additional master teachers awards to the extent that the master
teachers program authorized herein would not otherwise expend the
maximum school year amount authorized herein; and such $37,500,000
shall be made available for $12,500,000 of prekindergarten grants,
$10,000,000 of school-wide extended learning grants, $7,500,000 of

mented new standards and procedures for conducting annual profes-
sional performance reviews of classroom teachers and building
principals to determine teacher and principal effectiveness.
Provided, further, that notwithstanding any provision of law to the
contrary, the $12,500,000 appropriated herein available for full-day

existing pre-kindergarten programs, and provided further, however,
that any portion of such $12,500,000 that is not awarded shall
remain available for subsequent awards in the 2013-14 school year or for full-day and half-day pre-kindergarten grants to be awarded in subsequent school years. Provided, further, that such grants from funds appropriated herein shall be awarded based on factors including, but not limited to, the following: (i) measures of school district need, (ii) measures of the need of students to be served by each of the school districts, (iii) the school district's proposal to target the highest need schools and students, (iv) the extent to which the district's proposal would prioritize funds to maximize the total number of eligible children in the district served in pre-kindergarten programs, and (v) proposal quality. Provided, however, that full-day and half-day pre-kindergarten grants appropriated herein shall only be available to support programs (i) that provide instruction for at least five hours per school day for full-day pre-kindergarten programs and at least two and one-half hours per school day for half-day pre-kindergarten programs; (ii) that agree to offer instruction consistent with the New York state pre-kindergarten foundation for the common core standards within three years; (iii) that ensure that, to the extent community-based providers are part of such program, such providers meet the requirements of paragraphs d-1 and d-2 of subdivision 12 of section 3602-e of the education law; and (iv) that otherwise comply with all of the same rules and requirements as universal pre-kindergarten programs pursuant to section 3602-e of the education law except as modified herein. Provided, further, that a school district's pre-kindergarten grant shall equal the product of (A) (i) two multiplied by the approved number of new full-day pre-kindergarten placements plus (ii) the approved number of half-day pre-kindergarten placement conversions and new half-day pre-kindergarten placements, and (B) the district's selected aid per pre-kindergarten pupil pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of the education law; provided, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that as a condition of eligibility for receipt of such funding, a school district shall agree to adopt approved quality indicators within two years, including, but not limited to, valid and reliable measures of environmental quality, the quality of teacher-student interactions and child outcomes, and ensure that any such assessment of child outcomes shall not be used to make high-stakes educational decisions for individual children. Provided, further, that no school district shall receive more than forty percent of the total pre-kindergarten grant allocation. Provided, further, that notwithstanding any provision of law to the contrary, the $10,000,000 appropriated herein available for school-wide extended learning grants shall be awarded to school districts or school districts in collaboration with not-for-profit community-based organizations based on responses to a request for proposals for planning and implementation grants that is (i) developed by the commissioner; (ii) approved by the director of the budget; and (iii) issued by the commissioner. Provided, further, that such grants shall be awarded based on factors including, but not limited to, the
following: (i) the school district's proposal to target the schools and students with the greatest need, and (ii) proposal quality. Provided, further, that to assess proposal quality in order to award implementation grant funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would maximize the use of the additional learning time through a comprehensive restructuring of the school day and/or year, (ii) the extent to which the proposal would provide additional learning time for students in grades six through eight, and (iii) how the additional learning time would be utilized, including, but not limited to, additional time spent on core academics. Provided, however, that no district shall be eligible to receive a school-wide extended learning grant unless its proposal would increase student learning time by at least 25 percent. Provided, further, that a school district's schoolwide extended learning implementation grant shall equal its average daily attendance in the school-wide extended learning program multiplied by the expected cost per pupil of the additional learning time; provided, further, that the expected cost per pupil of the additional learning time shall equal the greater of $1,500 or (A) the quotient of (i) the school district's approved operating expense, pursuant to paragraph t of subdivision 1 of section 3602 of the education law, for the year prior to the base year, divided by (ii) the district's public school district enrollment, pursuant to subparagraph (2) of paragraph n of such subdivision, for the year prior to the base year, multiplied by (B) 10 percent (0.10), multiplied by (C) the quotient of (i) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the base year, divided by (ii) the average of the national consumer price indexes determined by the United States department of labor for the 12-month period preceding January first of the year two years prior to the base year; provided, however, that in extraordinary cases the commissioner may award a grant that exceeds the per pupil limit described above; provided further, however, that no district shall receive a grant in excess of the total actual grant expenditures incurred by the district in the current school year as approved by the commissioner. Provided, further, that no school district shall receive more than forty percent of the total school-wide extended learning grant allocation.

Provided, further, that notwithstanding any provision of law to the contrary, the $7,500,000 appropriated herein available for community schools grants shall be awarded, based on a request for proposals (i) developed by the state council on children and families in coordination with the commissioner, (ii) approved by the director of the budget and (iii) issued by the commissioner, to school districts, or in a city with a population of one million or more an eligible entity, to improve student outcomes through the implementation of community schools programs that use school buildings as community hubs to deliver co-located or school-linked academic, health, mental health, nutrition, counseling, legal and/or other services to students and their families. In a city with a population of one million or more,
eligible entities shall mean the city school district of the city of New York, or not-for-profit organizations, which shall include not-for-profit community-based organizations. An eligible entity that is a not-for-profit may apply for a community school grant provided that it collaborates with the city school district of the city of New York and receives the approval of the chancellor of the city school district of the city of New York. Provided, further, that to assess proposal quality in order to award such funding, the commissioner shall take into account factors including, but not limited to: (i) the extent to which the school district's proposal would provide such community services through partnerships with local governments and non-profit organizations, (ii) the extent to which the proposal would provide for delivery of such services directly in school buildings, (iii) the extent to which the proposal articulates how such services would facilitate measurable improvement in student and family outcomes, (iv) the extent to which the proposal articulates and identifies how existing funding streams and programs would be used to provide such community services, and (v) the extent to which the proposal ensures the safety of all students, staff and community members in school buildings used as community hubs. Provided, however, that community schools grants appropriated herein shall be paid to school districts in installments upon successful implementation of each phase of a school district's approved proposal. Provided, further, that no school district shall receive more than forty percent of the total community schools grant allocation, and that each individual community school site shall be limited to a maximum grant of $500,000. Provided, further, that notwithstanding any provision of law to the contrary, the $5,500,000 appropriated herein available for a master teachers program shall support the award of stipends of $15,000 per annum over four years to individual high-performing teachers in math, science and related fields, and of related costs, administered by the state university of New York pursuant to a plan developed in consultation with the commissioner, who shall consult with appropriate state organizations representing K-12 public school teachers and approved by the director of the budget, to build a corps of outstanding math, science and related fields teachers in order to improve the quality of instruction at public secondary schools. Such plan for use of funding appropriated herein shall: (i) establish an application process; (ii) guidelines by which applications from eligible teachers shall be evaluated, which shall include, but not be limited to, achievement of a rating of highly effective on the annual professional performance review; and (iii) provide periodic opportunities for professional development for successful applicants. Provided, further, that priority shall be given to applicants in regions of the state where a similar program is not
otherwise offered. Notwithstanding any provision of law to the contrary, upon approval of the director of the budget, such $5,500,000 of master teachers program funding may be sub-allocated, interchanged, transferred or otherwise made available to the state university of New York for the services and expenses of administering such program. Nothing herein shall be construed to limit the rights of labor organizations representing teachers to collectively bargain terms and conditions pursuant to article 14 of the civil service law.

Provided, further, that notwithstanding any provision of law to the contrary, the $2,000,000 appropriated herein available for the early college high school program shall support the continuation and expansion of such program pursuant to a plan developed by the commissioner and approved by the director of the budget. school districts; provided further that the commissioner shall make

3012-d of the education law and the regulations of the commissioner,
pursuant to such districts' approved applications; provided that in
making such grants the commissioner shall prioritize school
districts' applications based on factors including but not limited
to (i) the extent to which the school district's application would
recognize and reward such teachers in school buildings with the
greatest academic need, in difficult-to-staff subject or certif-
ication areas and grade levels, and at critical points in a teach-
er's career in order to encourage highly effective teachers to
remain in the classroom, and (ii) the quality of the school

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents and persons in need of supervision placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the
kinship guardian assistance program
including kinship guardianship assistance
payments and payments for non-recurring
guardianship expenses; except that,
reimbursement from the amount appropriated
herein shall not be available for tuition
expenditures for foster children, includ-
ing persons in need of supervision and
adjudicated juvenile delinquents, made by
a social services district located within
a city having a population of one million
or more.

Notwithstanding any other provision of law,
a portion of the funds are available to
reimburse social services districts for
the change in the maximum state aid rates
established by the office of children and
family services for the 2019-20 rate year
pursuant to section 398-a of the social
services law and sections 4003 and 4405 of
the education law to reflect the continua-
tion of the cost of living adjustments
that became effective April 1, 2008 for
payments made to foster parents and for
salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and
foster boarding home programs and to
foster parents to reflect the cost of
living adjustments in the manner specified
by the office. Each authorized agency
operating a congregate care or foster
boarding home program in New York state
for which the office sets a maximum state
aid rate pursuant to section 398-a of the
social services law or section 4003 or
4405 of the education law shall submit, at
the time and in a manner to be determined
by the office, a written certification,
attesting that the funds received for the
continuation of the cost of living adjust-
ment to the maximum state aid rate that
became effective April 1, 2008 for that
program will be or were used solely in
accordance with the requirements of the
cost of living adjustment established by
the office.
Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2019 and ending March 31, 2020 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2019 through March 31, 2020 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2018 that are submitted on or before January 2, 2019 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state
fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for
the next state fiscal year.
The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2019.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
claim title IV-E funding only for cases
that meet all of the title IV-E eligibil-
ity criteria; and fully implement the
social services payment system on or
before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against
the state as a result of a federal title
IV-E secondary eligibility review regard-
less of the date the children may have
entered foster care, the date the eligi-
bility or payment errors occurred, or the
filing date of any federal claims for
reimbursement; provided, however, that the
state shall be responsible for the disal-
lowed costs and expenditures related to
the placement of children in a facility
operated by the office of children and
family services, which shall be determined
in the same manner as the disallowed costs
and expenditures for social services
districts other than the city of New York.
In order to reimburse the federal govern-
ment for the full amount of any disallow-
ance imposed on the state by the federal
administration for children and families
within the timeframes necessary to avoid
any potential interest payments on such
amount, the office of children and family
services is authorized to immediately
offset funds otherwise due to each
district for a pro rata share of the total
disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60
days of receipt of the sample. The error
rate for the district will be based on the
findings of the district's review and the
office of children and family services'
re-review. If a social services district
does not complete its review within 60
days of receiving the sample from the
office of children and family services,
the office of children and family services
shall assign an error rate to the social
services district based on the relative
percentage of the district's applicable
title IV-E claims for the relevant period
as compared to applicable statewide title
IV-E claims for that period and other
circumstances that the office of children
and family services may consider in order
to allocate 100 percent of the federal
disallowance. The office of children and
family services shall apply each social
services district's error rate to the
total amount of the district's applicable
title IV-E claims including associated
administrative expenses. The resulting
dollar amounts for all of the social
services districts will be summed to
derive the total amount of title IV-E
claims deemed to be in error statewide. To
establish a disallowance percentage for
each social services district, the amount
of the district's title IV-E claims deemed
to be in error will be divided by the
amount of statewide title IV-E claims
deemed to be in error. The resulting
disallowance percentage for each district
will be applied to the entire title IV-E
extrapolated disallowance calculated by
the federal review to determine the amount
of the extrapolated disallowance for which
the district is responsible. Each district
will be credited for the amount already
disallowed for any individual children or
cases found to be in error during the
federal review. The exclusive appeal
rights for the review of the amount of the
federal disallowance assigned to each
social services district shall be pursuant
to article 78 of the civil practice laws
and rules; provided, however, that in any
such action all of the social services
districts shall be joined as necessary
parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

AID TO LOCALITIES  2019-20

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the
DEPARTMENT OF HEALTH

AID TO LOCALITIES  2019-20

budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines:

1. reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder;
2. reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein;
3. reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act;
4. reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.
For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of alcoholism and substance abuse services and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,256,018,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to
such assessment for each such period, and
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation plan to limit such spending to
the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures
authorized by the appropriations herein in compliance with the following guidelines:
(1) reductions shall be made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-
111-152 (collectively "Affordable Care Act") and any subsequent amendments there-
to or regulations promulgated thereunder; (2) reductions shall be made in a manner
that complies with the state medicaid plan approved by the federal centers for medi-
care and medicaid services, provided, however, that the commissioner of health
is authorized to submit any state plan amendment or seek other federal approval,
including waiver authority, to implement the provisions of the medicaid savings
allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which
specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medi-
caid savings allocation plan is necessary
due to a public health emergency.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation plan from taking effect
retroactively to the extent permitted by
the federal centers for medicare and medi-
caid services.
In accordance with the medicaid savings
allocation plan, the commissioner of the
department of health shall reduce depart-
ment of health state funds medicaid spend-
ing by the amount of the projected over-
spending through, actions including, but
not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying or
discontinuing medicaid program benefits;
seeking all necessary federal approvals,
including, but not limited to waivers,
waiver amendments; and suspending time
frames for notice, approval or certif-
ication of rate requirements, notwith-
standing any provision of law, rule or
regulation to the contrary, including but
not limited to sections 2807 and 3614 of
the public health law, section 18 of chap-
ter 2 of the laws of 1988, and 18 NYCRR
505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdi-
vision (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation plan implemented pursuant to
subdivision (4) of this section, including
information concerning the impact of such
actions on each category of service and
each geographic region of the state. Each
such monthly report shall be provided to
the chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.
The money hereby appropriated is to be
available for payment of aid heretofore
accrued or hereafter accrued to munici-
palities, and to providers of medical
services pursuant to section 367-b of the
social services law, and for payment of
state aid to municipalities and to provid-
ers of family care where payment systems
through the fiscal intermediaries are not
operational, and shall be available to the
department net of disallowances, refunds,
reimbursements, and credits.
Notwithstanding any inconsistent provision
of law to the contrary, funds may be used
by the department for outside legal

government, the conduct of preadmission
screening and annual resident reviews
required by the state's medicaid program,

funds medicaid spending for the period April 1, 2019 through March 31, 2021 exceed $45,507,166,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No.

111-152 (collectively "Affordable Care Act") and any subsequent amendments there-
to or regulations promulgated thereunder;
(2) reductions shall be made in a manner
that complies with the state medicaid plan
approved by the federal centers for medi-
care and medicaid services, provided,
however, that the commissioner of health
is authorized to submit any state plan
amendment or seek other federal approval,
including waiver authority, to implement
the provisions of the medicaid savings
allocation plan that meets the other
criteria set forth herein; (3) reductions
shall be made in a manner that maximizes
federal financial participation, to the
extent practicable, including any federal
financial participation that is available
or is reasonably expected to become avail-
able, in the discretion of the commission-
er, under the Affordable Care Act; (4)
reductions shall be made uniformly among
categories of services and geographic
regions of the state, to the extent prac-
ticable, and shall be made uniformly with-
in a category of service, to the extent
practicable, except where the commissioner
determines that there are sufficient
grounds for non-uniformity, including but
not limited to: the extent to which
specific categories of services contrib-
uted to department of health medicaid
state funds spending in excess of the
limits specified herein; the need to main-
tain safety net services in underserved
communities; or the potential benefits of
pursuing innovative payment models contem-
plated by the Affordable Care Act, in
which case such grounds shall be set forth
in the medicaid savings allocation plan;
and (5) reductions shall be made in a
manner that does not unnecessarily create
administrative burdens to medicaid appli-
cants and recipients or providers.
The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation plan, to the extent that all or
part of such plan, in the discretion of
the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation plan is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation plan from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation plan, the commissioner of the

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

manner that complies with the state medi-

provided, however, that the commissioner
of health is authorized to submit any

the medicaid payment reduction plan.

The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation plan subsequent to the

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a

savings allocation plan from taking effect

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent
to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of

savings allocation plan implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

2. Except as provided below and state medicaid spending, in the aggregate, for the period April 1, 2019 through March 31, 2020, shall not exceed $22,251,148,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2019 through March 31, 2020 exceed $43,004,329,000.

3. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation plan to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation plan shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation plan that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of
services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation plan; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation plan, to the extent that all or part of such plan, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation plan on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

hereby amended and reappropriated to read:
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 51 percent
for the period April 1, 2018 to March 31, 2019; and the remaining
amount for the period April 1, 2019 to [March 31] September 15,
2020.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of alcoholism and substance abuse services and
further excluding any payments which are not appropriated within the
department of health, in the aggregate, for the period April 1,
$20,960,018,000 $22,251,148,000 except as provided below and state
share medicaid spending, in the aggregate, for the period April 1,
$22,044,311,000 $23,256,018,000, but in no event shall department
of health state funds medicaid spending for the period April 1,
$45,507,166,000 provided, however, such aggregate limits may be
adjusted by the director of the budget to account for any changes in
the New York state federal medical assistance percentage amount
established pursuant to the federal social security act, increases
in provider revenues, reductions in local social services district
payments for medical assistance administration, minimum wage
increases and beginning April 1, 2012 the operational costs of the
New York state medical indemnity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings from the essential plan.
Such projections may be adjusted by the director of the budget to
account for increased or expedited department of health state funds
medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency. The
director of the budget, in consultation with the commissioner of
health, shall assess on a monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and
subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
plan to limit such spending to the aggregate limit specified herein
for such period.

Such medicaid savings allocation plan shall be designed, to reduce the
expenditures authorized by the appropriations herein in compliance
with the following guidelines: (1) reductions shall be made in
compliance with applicable federal law, including the provisions of
the Patient Protection and Affordable Care Act, Public Law No.

2010, Public Law No. 111-152 (collectively "Affordable Care Act")
and any subsequent amendments thereto or regulations promulgated
thereunder; (2) reductions shall be made in a manner that complies
with the state medicaid plan approved by the federal centers for
medicine and medicaid services, provided, however, that the commis-
sioner of health is authorized to submit any state plan amendment or
seek other federal approval, including waiver authority, to imple-
ment the provisions of the medicaid savings allocation plan that
meets the other criteria set forth herein; (3) reductions shall be
made in a manner that maximizes federal financial participation, to
the extent practicable, including any federal financial partic-
ipation that is available or is reasonably expected to become avail-
able, in the discretion of the commissioner, under the Affordable
Care Act; (4) reductions shall be made uniformly among categories of
services and geographic regions of the state, to the extent practi-
cable, and shall be made uniformly within a category of service, to
the extent practicable, except where the commissioner determines
that there are sufficient grounds for non-uniformity, including but
not limited to: the extent to which specific categories of services
contributed to department of health medicaid state funds spending in
excess of the limits specified herein; the need to maintain safety
net services in underserved communities; or the potential benefits
of pursuing innovative payment models contemplated by the Affordable
Care Act, in which case such grounds shall be set forth in the medi-
caid savings allocation plan; and (5) reductions shall be made in a
manner that does not unnecessarily create administrative burdens to
medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation plan, to the

copies of such plan to the chairs of the senate finance and the

this paragraph only if the commissioner determines, in his or her
discretion, that such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation plan is necessary due to a public health emergen-
cy.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation plan from taking effect retroac-
tively to the extent permitted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings allocation plan, the commis-
sioner of the department of health shall reduce department of health
state funds medicaid spending by the amount of the projected over-
spending through, actions including, but not limited to modifying or
suspending reimbursement methods, including but not limited to all
fees, premium levels and rates of payment, notwithstanding any
provision of law that sets a specific amount or methodology for any
such payments or rates of payment; modifying medicaid program bene-
fits; seeking all necessary federal approvals, including, but not
limited to waivers, waiver amendments; and suspending time frames
for notice, approval or certification of rate requirements, notwith-
standing any provision of law, rule or regulation to the contrary,
including but not limited to sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the laws of 1988, and 18
NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
