1 agencies seeking a keyboard search or similar comparison, and that the  
2 data meets state DNA index system or national DNA index system criteria  
3 as such criteria are applied to law enforcement agencies seeking such a  
4 keyboard search or similar comparison, the court may order an entity  
5 that has access to the combined DNA index system or its successor system  
6 to compare such DNA profile against DNA databanks by keyboard searches,  
7 or a similar method that does not involve uploading, upon notice to both  
8 parties and the entity required to perform the search, upon a showing by  
9 the defendant that such a comparison is material to the presentation of  
10 his or her defense and that the request is reasonable. For purposes of  
11 this paragraph, a "keyboard search" shall mean a search of a DNA profile  
12 against the databank in which the profile that is searched is not  
13 uploaded to or maintained in the databank; and (e) may order the divi-  
14 sion of criminal justice services to compare a fingerprint obtained in  
15 connection with the investigation or prosecution of the defendant  
16 against the statewide automated fingerprint identification system, or  
17 its successor system, and the national integrated automated fingerprint  
18 identification system, or its successor system, upon the court's deter-  
19 mination that such fingerprint complies with federal bureau of investi-  
20 gation or state requirements, whichever are applicable and as such  
21 requirements are applied to law enforcement agencies seeking such a  
22 comparison and upon a showing by the defendant that such comparison is  
23 material to the preparation of his or her defense, and that the request  
24 is reasonable. Upon granting the motion pursuant to paragraph (c) of  
25 this subdivision, the court shall, upon motion of the people showing  
26 such to be material to the preparation of their case and that the  
27 request is reasonable, condition its order of discovery by further

29 acter as that authorized to be inspected by the defendant, which he or

34 the division of criminal justice services to compare a fingerprint  
35 obtained in connection with the investigation or prosecution of the  
36 defendant against the statewide automated fingerprint identification  
37 system, or its successor system, and the national integrated automated  
38 fingerprint identification system, or its successor system, upon the  
39 court's determination that (1) such fingerprint complies with federal  
40 bureau of investigation or state requirements, whichever are applicable  
41 and as such requirements are applied to law enforcement agencies seeking  
42 such a comparison and (2) if such comparison had been conducted, and if  
43 the results had been admitted in the trial resulting in the judgment, a  
44 reasonable probability exists that the verdict would have been more  
45 favorable to the defendant, or in a case involving a plea of guilty, if  
46 the results had been available to the defendant prior to the plea, a  
47 reasonable probability exists that the conviction would not have  
48 resulted.
