AN ACT in relation to increasing access to medicines for needy seniors through the outreach to and enrollment of eligible Medicare beneficiaries in the Medicaid program

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. This act shall be known and may be cited as the "medicaid
2 outreach and enrollment for qualifying medicare beneficiaries program".
3 § 2. Legislative findings and intent. The legislature finds and
4 declares that almost thirty percent of medicare enrollees have no cover-
5 age for pharmaceuticals. Of that number nearly twenty-five percent are
6 living below the federal poverty level. Under the medicaid program the
7 state of New York provides pharmaceutical coverage for qualifying indi-
8 viduals. There are many medicare beneficiaries in New York that qualify
9 for medicaid services but are not enrolled and participating in the
10 program. The legislature further finds that the medicaid outreach and
11 enrollment for qualifying medicare beneficiaries program will identify
12 those medicare enrollees who are eligible for medicaid services, but are
13 not participating, through outreach initiatives.
14 § 3. Medicaid outreach and enrollment program. There is hereby estab-
15 lished the medicaid outreach and enrollment program ("program"). The
16 program shall be administered by the department of health. The depart-
17 ment of health shall implement and administer the program through the
18 development of outreach initiatives to identify medicaid-eligible medi-
19 care beneficiaries who are not participating in the medicaid program and
20 to promote and encourage enrollment of these eligible individuals in the
21 medicaid program. Initiatives may include, but shall not be limited to,
22 mailings, advertisements, public service announcements, literature
23 dissemination and community outreach.
