2019-2020 Regular Sessions

IN ASSEMBLY

January 31, 2019

Introduced by M. of A. ORTIZ, BENEDETTO, DINOWITZ, PEOPLES-STOKES, JAFFEE, MOSLEY, WILLIAMS -- read once and referred to the Committee on Codes

AN ACT to amend the general business law and the penal law, in relation to establishing a statewide database to maintain and track coded ammunition and establishing penalties for individuals who violate such provisions; and to amend the state finance law, in relation to establishing the ammunition coding system database fund

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative findings. The legislature hereby finds that each year in the United States more than thirty percent of all homicides involving a gun go unsolved. Handgun ammunition accounts for approximately eighty percent of all ammunition sold within the United States. Current technology for matching a bullet used in a crime to the gun that fired it has worked moderately well for years, but presupposes that the weapon was recovered by law enforcement. Ammunition coding is a new and effective way for law enforcement to quickly identify persons of interest in gun crime investigations.

10 § 2. The general business law is amended by adding a new section 396-11 gg to read as follows:

12 § 396-gg. Ammunition coding system database. 1. The division of crimi-13 nal justice services is responsible for establishing and maintaining an 14 ammunition coding system database containing information from the 15 following:

16a. The manufacturer registry. (i) Every manufacturer shall register17with the division of criminal justice services in a manner prescribed by

18 the division, and shall maintain records on the business premises for a

- 19 period of seven years concerning all sales, loans, and transfers of
- 20 <u>ammunition to, from, or within the state.</u>

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.
