STATE OF NEW YORK

4724

2019-2020 Regular Sessions

IN ASSEMBLY

February 5, 2019

Introduced by M. of A. ENGLEBRIGHT, GALEF, PERRY -- Multi-Sponsored by -- M. of A. CAHILL, COLTON -- read once and referred to the Committee on Education

AN ACT to amend the education law, in relation to requiring that the siting, erection, purchase, repair, enlargement and remodeling of school buildings meet the requirements of healthy and high performance schools

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 408 of the education law, subdivisions 1 and 2 as 1 2 amended by chapter 414 of the laws of 1972, the opening paragraph of subdivision 1 as amended by chapter 315 of the laws of 1990, subdivision 3 3 as amended by section 2 of part A-1 of chapter 58 of the laws of 2006, 4 5 subdivision 4 as amended by chapter 801 of the laws of 1951 and subdiviб sion 6 as amended by chapter 385 of the laws of 1994 and as further 7 amended by subdivision (d) of section 1 of part W of chapter 56 of the 8 laws of 2010, is amended to read as follows:

9 § 408. [Plans] Approval of plans and specifications of school build-10 ings [must be approved by commissioner of education]. 1. The legisla-11 ture hereby declares it to be the policy of the state to require the 12 siting, construction, rehabilitation and maintenance of healthy and high 13 performance school buildings in this state in such a manner as to:

14 <u>a. promote better environmental standards for the siting,</u> 15 <u>construction, rehabilitation and maintenance of school buildings in the</u> 16 <u>state;</u>

17 b. improve energy efficiency and increase generation of energy through 18 renewable and clean energy technologies;

19 <u>c. increase the demand for environmentally preferable building materi-</u> 20 <u>als, finishes and furnishings;</u>

21 d. improve the environment by decreasing the discharge of pollutants

22 into and from school buildings;

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

1 <u>create</u> industry and public awareness of new technologies that can 2 assure that all schools are healthy and high performance; and 3 f. improve the health and productivity of students, teachers and 4 school employees. 5 In order to facilitate such policies, the legislature hereby directs б school districts to site, construct, rehabilitate and maintain school 7 buildings in accordance with such policies. 8 No [schoolhouse] school building shall [hereafter] be sited, 9 erected, purchased, repaired, enlarged or remodeled nor shall the adver-10 tisement for bids for the execution of the plans and specifications for 11 such [schoolhouses] school buildings be placed, in any school district [except in a city school district in a city having seventy thousand 12 inhabitants or more, at an expense which shall exceed one hundred thou-13 sand dollars, until the plans and specifications shall have been 14 15 submitted to the commissioner [of education] and his or her approval 16 endorsed thereon. Such plans and specifications shall show in detail the ventilation, heating and lighting of such buildings, and any other 17 details the commissioner shall determine to be necessary. 18 In the case of a school district in a city having seventy thousand 19 20 inhabitants or more, all the provisions previously set forth in this 21 subdivision shall apply, except that the commissioner may waive the requirement for submission of plans and specifications and substitute 22 therefor the requirement for submission of an outline of such plans and 23 24 specifications for his or her review. Such outline shall be in a form 25 which he or she may prescribe from time to time. 26 [In either case, the commissioner may, in his discretion, review plans 27 and specifications for projects estimated at an expense of less than one 28 hundred thousand dollars.] 29 In the case of a school district in a city having a million inhabit-30 ants or more, all of the provisions previously set forth in this subdi-31 vision shall apply, except that such school district shall only be 32 required to submit an outline of the plans and specifications to the 33 commissioner [of education] for his or her information where a schoolhouse is to be erected in conjunction with the development of a project 34 35 to be developed under the provisions of article two or five of the 36 private housing finance law and where both the school and the project 37 are to have rights or interests in the same land, regardless of the 38 similarity or equality thereof, including fee interests, easements, 39 space rights or other rights or interests. Notwithstanding the foregoing provisions of this paragraph, every such school building shall 40 comply with the requirements for green buildings and healthy and high 41 42 performance schools as defined in subdivision four of this section. 43 [2-] 3. The commissioner [of education] shall not approve the plans for the erection or purchase of any school building or addition thereto 44 45 or remodeling thereof unless the same shall provide for [heating, venti-46 **lation, lighting,**] sanitation, storm drainage and health, fire and acci-47 dent protection adequate to maintain healthful, safe and comfortable conditions therein and unless the county superintendent of highways or 48 commissioner of public works has been advised of the location of all 49 50 temporary and permanent entrances and exits upon all public highways and 51 the storm drainage plan which is to be used. 52 [3.] 4. The commissioner shall not approve the plans and specifica-53 tions, [heretofore or hereafter] submitted pursuant to this section, for 54 the erection or purchase of any school building or addition thereto or 55 remodeling thereof on the site or sites selected therefor pursuant to 56 this chapter, [if] unless such plans conform to the requirements and A. 4724

provisions [of this chapter and the regulations of the commissioner 1 adopted pursuant to this chapter in all other respects; provided, howev-2 3 er, that] for green buildings, as defined in paragraph ten of subdivi-4 sion (b) of section nineteen of the tax law, and any rules and regu-5 lations adopted pursuant thereto, and to the requirements and provisions б for healthy and high performance schools as established in subdivision 7 one of this section, and any rules, regulations, standards and guide-8 lines adopted pursuant thereto. Furthermore, the commissioner [of educa-9 tion], in consultation with the commissioners of environmental conserva-10 tion and health, shall not approve the plans for the erection or 11 purchase of any school building or addition thereto unless the site has been selected with reasonable consideration of the following factors; 12 13 its place in a comprehensive, long-term school building program; area 14 required for outdoor educational activities; educational adaptability, 15 environment, accessibility; proximity to known environmental and public 16 risk factors; soil conditions; initial and ultimate cost. In developing 17 such plans and specifications, school districts are encouraged to review the energy conservation and saving best practices available from the 18 department and the New York state energy research and development 19 20 authority. Notwithstanding any other provision of law to the contrary, 21 the enforcement of the provisions of this subdivision shall be within 22 the sole jurisdiction and at the sole discretion of the department. [4-] 5. No funds voted by a district meeting or other competent 23 24 authority in any school district [to which the provisions of subdivision one of this section are applicable, exceeding the amounts specified in 25 26 such subdivision, shall be expended by the trustees or board of educa-27 tion until the commissioner [of education] shall certify that the plans 28 and specifications for the same comply with the provisions of this 29 section. 30 [5.] 6. In a city having a population of one million or more, all 31 designing, draughting and inspecting necessary in connection with the 32 construction, additions to, alterations and maintenance of [schoolhous-33 es] school buildings shall be performed by a bureau established and 34 maintained for this purpose under the board of education. The work of 35 this bureau shall be performed by civil service employees in the classi-36 fied civil service under the direction of the superintendent of school 37 buildings, design and construction, except that repairs, betterment and 38 maintenance of heating and ventilating plants and equipment, elevators 39 and mechanical equipment shall remain under the direction of the superintendent of plant operation and maintenance. In a special case upon 40 41 approval of the board of estimate, such designing, draughting or 42 inspecting may be otherwise performed. [6-] 7. The commissioner [may], in consultation with the New York 43 state energy research and development authority, shall promulgate regu-44 45 lations relating to the purchase and renovation of existing school 46 buildings. Such regulations shall provide for an appraisal of such buildings as school buildings and the land on which they are situated as 47 school sites by the commissioner of taxation and finance, such estimates 48 of the cost of renovation and construction as may be necessary to meet 49 50 the requirements of subdivision one of this section and limitations on 51 the cost of acquisition and renovation, in taking into consideration the 52 age and condition of such existing buildings, in relation to the esti-

53 mated cost of constructing a new building containing comparable facili-54 ties. [Such regulations may also require the prior approval of the 55 commissioner of any renovations proposed to be made to such existing 56 school buildings.]

A. 4724

2. Subdivision 1 of section 408-a of the education law, as amended 1 § by chapter 420 of the laws of 1968, is amended to read as follows: 2 1. The commissioner of general services, after consultation with the 3 4 commissioner [of education], and subject to the approval of the director 5 of the budget, and in accordance with the standards established for green buildings, as defined in paragraph ten of subdivision (b) of б 7 section nineteen of the tax law, and the standards and quidelines for 8 healthy and high performance schools established by subdivision one of 9 section four hundred eight of this article, shall promptly prepare or 10 acquire as many master sets of complete plans and specifications for the 11 construction of new school buildings and appurtenant facilities as shall 12 be sufficient to provide at least six different master sets each for elementary, junior high and high schools, based on the number of pupils 13 14 to be accommodated therein. [Such plans and specifications shall be 15 prepared so as to provide adequate classrooms and other necessary space and facilities at the lowest cost consistent with sound construction 16 principles and practices, and the attainment of educational objectives, and shall provide for heating, ventilation, lighting, sanitation and 17 18 health, fire and accident protection adequate to maintain healthful, 19 20 safe, and comfortable conditions therein. Such plans and specifications 21 shall be so prepared that any possible future addition to any such 22 school building may be economically effectuated.] In addition, the 23 commissioner of general services shall, as often as he or she deems 24 advisable but at least annually, review such master sets and, after 25 consultation with the commissioner [of education], and subject to 26 approval of the director of the budget, may revise or cancel any of such 27 sets or prepare new sets.

S 3. This act shall take effect immediately, except that section one of this act shall take effect on the first of August next succeeding the date on which it shall have become a law and such section shall apply to school buildings sited, erected, purchased, repaired, enlarged or remodeled on or after such date.
