2	alcohol test or drug and/or alcohol screen; and
3	(b) the performance of the drug and/or alcohol test or drug and/or
4	alcohol screen is within the scope of medical care being provided to the

б	4. Written and verbal informed consent to a drug or alcohol test or
7	drug or alcohol screen shall occur at the time of testing, in language
8	understandable to the pregnant person, perinatal person or the persons
9	authorized to consent for newborns, under circumstances that provide
10	such person sufficient opportunity to consider whether or not to undergo
11	such drug or alcohol test or drug or alcohol screen and minimize the
12	possibility of coercion or undue influence, and shall consist of verbal
13	authorization and written authorization that is dated, signed and
14^{-1}	includes the following:

33	increase the risk to such person's life or health. In the case that drug
34	and/or alcohol testing or drug and/or alcohol screening is performed
35	under these circumstances, the test or screen results shall be discussed
36	with the patient or the persons authorized to consent for newborns, in
