## IN ASSEMBLY

February 26, 2019

Introduced by M. of A. RYAN -- read once and referred to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to jewelry containing lead

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. The legislature hereby finds that  
2 stringent controls on the amount of lead in jewelry are necessary to  
3 protect public health, especially the health of children. Random  
4 samples of jewelry in New York state have been found to contain up to  
5 60,000 parts per million of lead. To assure consistent application of  
6 these controls to all jewelry, specific technical standards and controls  
7 must be specified.
