§ 468-a. Rights. 1. A buyer of residential real property has the right to test the property for the purpose of determining whether the property has ever been used as a methamphetamine illegal drug laboratory as defined in section 220.00 of the penal law.

2. Tests conducted pursuant to this section shall be performed by a certified industrial hygienist or industrial hygienist, as those terms are defined in section thirteen hundred seventy-eight of the public health law. If the buyer's test results indicate that the property has been used as a methamphetamine illegal drug laboratory but has not been remediated to meet the standards established by the department of health as promulgated, the buyer shall promptly give written notice to the

1 seller of the results of the test, and the buyer may terminate the
2 contract.

3 3. The seller shall have thirty days after receipt of the notice to
4 conduct a second independent test at their own expense. If the seller's
5 test results indicate that the property has been used as an illegal drug
6 laboratory but has not been remediated to meet the standards established
7 by the department of health as promulgated then the second independent
8 hygienist shall so notify the seller.

9 4. If the seller receives the notice referred to in subdivision two or
10 three of this section and does not elect to have the property retested
11 pursuant to subdivision three of this section, then an illegal drug
12 laboratory used to manufacture methamphetamine shall be deemed to have
13 been discovered and the owner shall be deemed to have received notice.
14 Nothing in this section shall prohibit a buyer from purchasing the prop-
15 erty and assuming liability pursuant to section thirteen hundred seven-
16 ty-eight-b of the public health law, provided that on the date of clos-
17 ing, the buyer shall provide written notice to the department of public
18 health and the department of environmental conservation of the purchase
19 and assumption of liability.

20 § 468-b. Remedies. 1. The following provisions shall apply provided
21 that the buyer has not elected to purchase the property and assume
22 liability pursuant to subdivision four of section four hundred sixty-
23 eight-a of this article. The seller shall disclose in writing to the
24 buyer whether the seller knows that the property was previously used as
25 a methamphetamine illegal drug laboratory pursuant to subdivision two of
26 section four hundred sixty-eight of this article. In instances where
27 contamination is discovered during the executory period of the contract
28 the seller shall have an ongoing duty to disclose such information to
29 the buyer in writing.

30 2. A seller who fails to make a disclosure required by this section
31 at or before the time of sale and who knew or knows of methamphetamine
32 contamination on the property is liable to the buyer for:

33 a. Costs relating to remediation of the property according to the
34 standards established by rules of the department of health promulgated
35 pursuant to section thirteen hundred seventy-eight-a of the public
36 health law;

37 b. Costs relating to health-related injuries occurring after the sale
38 to residents of the property caused by methamphetamine production on the
39 property; and

40 c. Reasonable attorney fees for collection of costs from the seller.

41 3. A buyer shall commence an action under this section within three
42 years after the date on which the buyer closed the purchase of the prop-
43 erty where the methamphetamine production occurred or within two and
44 one-half years of the discovery of a health-related injury.

45 4. If the seller became aware that the property was once used for the
46 production of methamphetamine and the property was remediated in accord-
47 ance with the standards established pursuant to section thirteen hundred
48 seventy-eight-a of the public health law, and evidence of such remedi-
49 ation was received by the applicable governing body in compliance with
50 the documentation requirements established pursuant to section thirteen
51 hundred seventy-eight-a of the public health law, then the seller shall
52 not be required to disclose that the property was used as a methampheta-
53 mine laboratory to a buyer and the property shall be removed from any
54 government-sponsored informational service listing of properties that
55 have been used for the production of methamphetamine.
