person's answering system, or otherwise prevents it from being completed to the called person, except that it permits a call or text so identified to be completed when it is identified as being made by a law enforcement or public safety entity, or when it is identified as originating from a caller with respect to whom the called person has provided prior express consent to receive such a call or message and has not revoked that consent.

- (c) "Labor organization" means any organization of any kind which exists for the purpose, in whole or in part, of representing employees employed within the state of New York in dealing with employers or employer organizations or with a state government, or any political or civil subdivision or other agency thereof, concerning terms and conditions of employment, grievances, labor disputes, or other matters incidental to the employment relationship. For the purposes of this section, each local, parent national or parent international organization of a statewide labor organization, and each statewide federation receiving dues from subsidiary labor organizations, shall be considered a separate labor organization.
- (d) "Prior express consent" for a call means that the purpose of the call must be closely related to the purpose for which the telephone number was originally provided by the called party.
- 2. (a) It shall be unlawful for any person or entity to make any robocall other than a call made for emergency purposes or made with the prior express consent of the called party, to any telephone number owned by a person or entity in the state. A customer's prior express consent can be revoked by the customer at any time in any reasonable manner, regardless of the context in which the owner or user of the telephone provided consent.
- (b) The commission shall prescribe regulations to implement the provisions of this subdivision, and may exempt from the requirements of this subdivision, subject to such conditions as the commission may prescribe, calls made to a residential telephone line that are not made for a commercial purpose.
- (c) The provisions of paragraph (a) of this subdivision shall not apply to any communications made by a labor organization, or by a non-profit organization which is federally tax-exempt pursuant to 26 U.S.C. 501(c), to such organization's members or to the households of such members.
- 3. (a) A telephone service provider that provides telephone service to customers residing in the state shall make call mitigation technology available to any such customer, upon request, and at no additional charge. Such provider shall also offer to any such customer the ability to have the provider prevent calls and text messages identified as originating from a particular person from being completed to the called person, upon request, and at no additional charge.
- (b) The commission shall prescribe regulations to implement the requirements of this subdivision, including, if appropriate, a reasonable delay in requiring implementation and offering of call mitigation technology if for good cause, taking into account the consumer protection purposes of this section, and including procedures for addressing incidents in which a call wanted by the customer is prevented from reaching the customer.
- 4. (a) Whenever there shall be a violation of this section, an application may be made by the attorney general in the name of the people of the state of New York to a court or justice having jurisdiction to issue an injunction, and upon notice to the defendant of not less than five

In any such proceeding, the court may make allowances to the attorney general as provided in paragraph six of 7 8 subdivision (a) of section eighty-three hundred three of the civil prac-9 tice law and rules, and direct restitution. Whenever the court shall 10 determine that a violation of subdivision two of this section has 11 occurred, the court may impose a civil penalty of not more than two thousand dollars per call, up to a total of not more than twenty thou-12 13 sand dollars, for calls placed in violation of such subdivision within a 14 continuous seventy-two hour period. In connection with any such proposed 15 application, the attorney general is authorized to take proof and make a 16 determination of the relevant facts and to issue subpoenas in accordance 17 with the civil practice law and rules. 18

- (b) In addition to the right of action granted to the attorney general pursuant to this section, any person harmed by a violation of the provisions of subdivision two of this section, or of any regulations promulgated by the commission relating to this section, may bring an action in any court of competent jurisdiction:

- (c) If the court finds that the defendant willfully or knowingly violated the provisions of subdivision two of this section or any regulations prescribed hereunder, the court may, in its discretion, increase the amount of the monetary award to an amount equal to not more than three times the amount available pursuant to paragraph (b) of this subdivision.
- (d) No action to recover damages for a violation of the provisions of this section may be brought more than four years after the alleged 34 35 violation occurred.

If any provision of this act, or any application of any provision 37 of this act, is held to be invalid, that shall not affect the validity or effectiveness of any other provision of this act, or of any other 38 application of any provision of this act, which can be given effect without that provision or application; and to that end, the provisions 40 41 and applications of this act are severable.
