 (b) (i) A manufactured home park owner shall not incorporate the cost of a civil penalty, criminal fine, or litigation-related costs for rent-related proceedings into rent charged under any circumstance.

- (ii) A manufactured home park owner shall not utilize the cost of capital improvements or rehabilitation work as justification for any future rental increase once such cost has been fully recovered by rental increases that were incorporated into a prior rental increase in excess of the consumer price index and where such prior rental increase was properly implemented pursuant to this subdivision.
- (c) When a manufactured home tenant first moves onto a lot in a manufactured home park, the tenant shall be offered rent at a rate not exceeding the average rent for lots similar in size to such lot which are located within such manufactured home park.
- 2. (a) In addition to the notice required pursuant to paragraph three of subdivision g of this section, a manufactured home park owner shall give written notice to the home owners' association, if one exists, and the division of housing and community renewal at least ninety days prior to any increase in rent. The notice shall identify all affected manufactured home owners by lot number, name, group or phase. If the affected manufactured home owners are not identified by name, the manufactured home park owner shall make the names and addresses available to any affected manufactured home owner, the home owners' association, if one exists, and the division of housing and community renewal upon request.
- (b) (i) If the proposed rent increase exceeds the consumer price index, the division of housing and community renewal shall schedule a final meeting between the parties at a mutually-convenient time and place to be held within thirty days from the mailing of the notice of the rent increase, to discuss the reasons for the increase. At the manufactured home park owner's election, the division of housing and community renewal shall also schedule one or more optional informal meetings prior to the final meeting. The manufactured home park owner proposing the rent increase shall recommend to the division of housing and community renewal a date, time and place of the final meeting and of any preceding informal meetings, and the division of housing and community renewal shall affirm such recommendation with the manufactured home park owner, if the division finds the date, time and place to be reasonable. At or before the final meeting the manufactured home park owner shall, in good faith, disclose in writing all of the material factors resulting in the decision to increase the rent.
- (ii) The parties may agree in a writing signed by the manufactured home park owner and at least one affected manufactured home owner or the home owners' association to extend or continue any meetings required by this paragraph to a date specified in the writing and approved by the division of housing and community renewal as reasonable. Within two business days of signing an agreement to continue or extend meetings, the manufactured home park owner shall notify the division of housing and community renewal of such agreement by forwarding the signed agreement to the division.
- (c) After the final meeting, any affected manufactured home owner who has not already accepted the proposed increase, or the home owners' association on behalf of one or more affected manufactured home owners who have not already accepted the proposed increase may, within thirty days from the conclusion of the final meeting, petition the division of housing and community renewal to appoint an arbitrator to conduct arbitration subject to the provisions of article seventy-five of the civil practice law and rules.
