2019-2020 Regular Sessions

IN ASSEMBLY

July 8, 2019

Introduced by M. of A. STERN -- read once and referred to the Committee on Labor

AN ACT to amend the labor law, in relation to establishing the commission on the future of work; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. The legislature finds and declares all of the following:

2 (a) New York state is committed to developing a plan to become the
3 most competitive, durable, equitable and sustainable economy in the
4 world, where technology innovation shall strengthen, not erode, the
5 middle class.

6 (b) Technology, when put to work for the benefit of human society, has
7 fueled progress throughout history, unlocking the growth of high-quality
8 goods and services coupled with overall price reductions, dramatic
9 reductions in poverty, disease, and famine, as well as leaps in science
10 and the arts.

11 (c) Exponential growth in technology innovation, including automation
12 and artificial intelligence, as well as broader economic trends of wage
13 stagnation, declining workforce participation, rising income inequality,
14 and growth in part-time, lower-wage jobs, compel New York state to
15 update its planning around education, employment, and the economy as a
16 whole to better understand, anticipate, and shape the future of work in
17 the short and long term.

18 (d) The commission on the future of work is necessary to prepare New
19 York state residents for the future of work and to ensure advancements
20 in technology serve the construction of a durable middle class and
21 sustainable economy.

22 § 2. The labor law is amended by adding a new section 211-b to read as
23 follows:
