STATE OF NEW YORK

8966

IN ASSEMBLY

January 6, 2020

Introduced by M. of A. HUNTER -- read once and referred to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to water saving performance standards

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivisions 2, 3 and 8 of section 15-0314 of the environ-2 mental conservation law, as amended by a chapter of the laws of 2019, amending the environmental conservation law relating to water saving performance standards, as proposed in legislative bills numbers S. 354-A and A. 2286, is amended to read as follows:

5

urinals designated and marketed exclusively for use in prisons or mental health care facilities); and

- (e) except for water closets and toilets designed and marketed exclusively for use in prisons or mental health care facilities, (1) for water closets and associated flush-valve, if any, maximum flow shall not exceed an average of 1.28 gallons of water per flush; (2) for dual-flush tank-type water closets, the average of two reduced flushes and one full flush shall not exceed [an average of] 1.28 gallons of water per flush; and (3) for dual-flush flushometer-valve water closets, maximum flow shall not exceed an average of 1.28 gallons of water per flush; and
 - (f) drinking water fountains must be of a self-closing variety.
- 3. Each shower head, sink or lavatory faucet, both box and product, shall be marked and labeled, and each water closet or urinal, or each component if the water closet or urinal is comprised of two or more components, both box and product, shall be marked and labeled in accordance with the latest revision of the standards designated American National Standards, written under American National Standards Institute (ANSI), and, as applicable, the following United States [environmental protection agency | Environmental Protection Agency watersense program specification: showerheads (July 26, 2018), tank-type toilets (June 2, 2014), lavatory faucets (October 1, 2007), flushing urinals ([October 8] August 14, 2009), and flushometer-valve toilets (December 17, 2015).
- 8. The commissioner, to the extent practicable and appropriate, shall utilize the latest revision of the standards designated American National Standards, written under American National Standards Institute (ANSI) procedures in determining requirements under this section, and, as applicable, the following United States [environmental protection agency] Environmental Protection Agency watersense program specification: showerheads (July 26, 2018), tank-type toilets (June 2, 2014), lavatory faucets (October 1, 2007), flushing urinals ([October 8] August 14, 2009), and flushometer-valve toilets (December 17, 2015).
- 31 14, 2009), and flushometer-valve toilets (December 17, 2015).

 § 2. This act shall take effect on the same date and in the same
 manner as a chapter of the laws of 2019, amending the environmental
 conservation law relating to water saving performance standards, as
 proposed in legislative bills numbers S. 354-A and A. 2286, takes
 effect.
