 conducted by the housing authority within thirty days prior to the submission of the website application.

- 3. Applications submitted through the website shall be assigned a case number which may be used to track the progress of the application through the website. Applications shall not be tracked through the website by name or social security number of the applicant or a member of the applicant's household.
- 4. Website applications shall be re-evaluated every three days in order to determine priority given to applicants who have completed the eligibility interview. Re-prioritization shall be based on changes in medical status or need.
- 5. (a) The website shall include a list of rental properties which the New York city department of housing preservation and development has determined to be eligible for the J-51 program and which have current or anticipated vacancies. The website shall include a separate list of rental properties which do not qualify for the J-51 program, but which have current or anticipated vacancies and accept tenants using Section 8 federal housing allowance program vouchers or certificates or senior citizen rent increase exemptions. The housing authority shall coordinate with the department of housing preservation and development to develop and maintain a listing of J-51 properties. Vacancies shall be listed on the website without charge to the property owner or manager.
- (b) The owner of rental properties as described in paragraph (a) of this subdivision, or his or her agent, shall notify the housing authority of an impending vacancy within ten days of learning or first becoming aware of the impending vacancy, and shall, by March first of each year, provide the housing authority with a list of vacancies that occurred at each property during the previous calendar year and the date upon which the vacancies were filled. Such list shall be in a form as determined by the housing authority. The housing authority shall monitor the lists to assure that vacancies are being reported promptly to the housing authority and that housing is not being improperly denied by the property owner to senior citizens. The housing authority shall report any suspected improper denials of housing in J-51 buildings to the New York city department of housing preservation and development.
- 6. The housing authority shall maintain information concerning the overall number of website applicants, the number of applicants provided with housing accommodations as a result of website applications and the length of time between the applications and the assignments, and shall provide this information in all filings required by law to be made by the housing authority.
- § 2. This act shall take effect on the one hundred eightieth day after it shall have become a law; provided, however, that effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized and directed to be made and completed on or before such effective date.
