40 in the state comptroller's uniform system of accounts for munici-

56 respect to financial plans that include the fiscal years ending June

thirtieth, nineteen hundred seventy-nine through June thirtieth, nineteen hundred eighty-one, the city's budget covering all expenditures other than capital items shall be prepared in accordance with generally accepted accounting principles and there shall be substantial progress in each such fiscal year towards achieving a city budget covering all expenditures other than capital items the results of which would not show a deficit when reported in accordance with generally accepted accounting principles. The city shall eliminate expense items from its capital budget not later than the commencement of the fiscal year ending June thirtieth, nineteen hundred eighty-two. Notwithstanding the foregoing and the provisions of any general or special state law or local law to the contrary, including but not limited to the New York city charter: (i) all costs that would be capital costs in accordance with generally accepted accounting principles, but for the application of governmental accounting standards board statement number forty-nine, shall be deemed to be capital costs for purposes of this act and any other provision of state or local law, including but not limited to the New York city charter, relevant to the treatment of such costs; and (ii) the determination as to the existence of a deficit pursuant to this act and any other provision of state or local law, including but not limited to the New York city charter, shall be made without regard to changes in restricted fund balances, as defined by the governmental accounting standards board, where restrictions in relation to such fund balances are imposed by state or federal law or regulation, or otherwise by private or governmental parties other than the city of New York, and without regard to funds held in the health stabilization fund, the school crossing guards health insurance fund, any revenue stabilization fund established pursuant to section fifteen hundred twenty-eight of the New York city charter and the management benefits fund established by the city of New York. Deposits into any such revenue stabilization fund shall be deemed to be expenses of such city in the fiscal year in which such deposits are made, and withdrawals from such fund shall be deemed to be revenues of such city in the year in which such withdrawals are made; provided however, that surpluses of such city, whether accumulated from fiscal years ending prior to the effective date of the chapter of the laws of two thousand twenty that amended this paragraph or existing at the close of any fiscal year ending after such effective date, shall be deposited into such revenue stabilization fund as soon as practicable, and such deposits shall not be deemed expenses of the city in the fiscal year in which such deposits are made.
