37 the permit. However, if the situation for compliance is deemed critical
38 by the regional land manager, he or she may immediately suspend the
39 permit. If the permit is suspended, notice shall also be given that,
40 unless the conditions or provisions of the permit are adhered to, the
41 permit shall be revoked at the end of the ten-workday suspension period.

42 c. The regional land manager shall initiate the procedure to suspend
43 the permit, preparing a memorandum citing the reason for suspension to
44 the regional supervisor of natural resources. The regional supervisor of
45 natural resources shall notify the permittee in writing of the impending
46 suspension, the reason or reasons justifying the suspension and the
47 requirement or requirements to rectify the situation.

48 d. If a permittee fails to comply with the conditions to lift the
49 suspension, the regional supervisor of natural resources shall proceed
50 with notification of the revocation of the permit.

51 e. A permittee may appeal the revocation of a permit to the regional
52 supervisor of natural resources for the region in which the permit was
53 issued within thirty workdays of the date of notification. If requested
54 by a permittee, the regional supervisor of natural resources will sched-
55 ule a meeting between the permittee and the regional land manager. The
56 regional supervisor of natural resources shall render a decision within

1 ten workdays of receipt of the permittee's appeal or from the date of
2 the meeting. The permittee may appeal the decision of the regional
3 supervisor of natural resources to the regional director within fifteen
4 workdays of the denial of the appeal. The regional director will issue a
5 final decision within fifteen workdays of receipt of the appeal.

6 f. A permittee shall not be authorized to use the permit during the
7 term of the suspension, revocation or appeal process.

8 § 3. This act shall take effect on the first of January next succeed-
