AN ACT to amend the public authorities law, in relation to gender balance in state and local public authorities; and providing for the repeal of such provisions upon the expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The public authorities law is amended by adding a new section 2829 to read as follows:

§ 2829. Program promoting women to state and local authority boards.
1. The legislature finds that there is a need to promote women for recommendation and appointment to state and local authority boards in an effort to reverse a long history of discrimination against women on boards of public authorities. The program proposed by this section would provide for the use of gender as a factor when making recommendations and appointments to state and local authority boards. This section serves to achieve the benefits that come with the important governmental objective of attaining gender diversity on state and local authority boards.

2. For the purposes of this section, the following terms shall have the following meanings, unless the context otherwise requires:

(a) "Gender balance" means providing women candidates with a preference when appointing individuals to boards;

(b) "Appointing power" means an individual or government or legislative body charged with the responsibility to recommend for appointment
