AN ACT to amend the energy law, in relation to the use of general purpose lights in public buildings

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Section 8-103 of the energy law, as amended by chapter 744  
2 of the laws of 1979, is amended to read as follows:

3 § 8-103. Application. 1. On or before April first, nineteen hundred  
4 eighty, the commissioner shall promulgate, and thereafter may amend from  
5 time to time, standards relating to the lighting of all existing build-  
6 ings, or classes of such buildings, for purposes of minimizing the  
7 consumption of energy and providing for the efficient utilization of the  
8 energy expended for lighting in the use and occupancy of such buildings.  
9 Such standards shall be cost effective and shall not impair the health

13 would be expected over a seven-year period in a building to which the  
14 standards are applicable. Provided however, on and after the effective  
15 date of the chapter of the laws of two thousand nineteen which amended  
16 this section, all general purpose lights used in public buildings in  
17 this state shall meet the energy efficiency standards established in  
18 subdivision two of this section.

19 2. The minimum energy efficiency standards for a general service lamp  
20 used in a public building in the state shall be as follows:

21 (a) By January first, two thousand twenty-two, for a lamp with a lumen  
22 output of between twenty-six hundred ninety and fourteen hundred ninety,  
23 the lamp shall achieve fifty lumens per watt.
