Introduced by Sen. MYRIE -- read twice and ordered printed, and when printed to be committed to the Committee on Elections

AN ACT to amend the election law, in relation to enacting the Voter Enfranchisement Modernization Act of 2019; in relation to establishing the electronic personal voter registration process

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

## 1 Section 1. Short title. This act shall be known as and may be cited as 2 the "Voter Enfranchisement Modernization Act of 2019 (VEMA)".

§ 2. Declaration of Legislative Intent. The right to vote is a funda-3 4 mental right, the well-spring of all others, secured by the federal and 5 state constitutions. On-line forms of communication and conducting transactions did not exist at the time New York's paper-based voter regisб tration system was enacted. In the last twenty years, many paper-based 7 processes have migrated to on-line processes, including filing tax 8 9 returns, applying for social security benefits, routine banking trans-10 actions, official communications and purchase transactions of all types. 11 This on-line migration has improved cost efficiency, increased accessi-12 bility and provided greater convenience to the public in many contexts. 13 The predominantly paper-based voter registration application process in 14 New York is antiquated and must be supplemented with on-line voter 15 registration. To remove unnecessary burdens to the fundamental right of the people to vote, the State Board of Elections shall establish the 16 Voter Enfranchisement Modernization Program for the purpose of increas-17 ing opportunities for voter registration by any person who is qualified 18 19 to be a voter under Article II of the New York State Constitution. This 20 effort modernizes voter registration and supplements the methods of 21 voter registration provided under current law.

22 § 3. Article 5 of the election law is amended by adding a new title 8 23 to read as follows:

EXPLANATION--Matter in <u>italics</u> (underscored) is new; matter in brackets [-] is old law to be omitted.

8	to any other means of voter registration provided for by this chapter,
9	the state board of elections shall establish and maintain an electronic

13	elections of each county or the city of New York for filing, processing
14	and verification consistent with this chapter. In accordance with tech-
15	nical specifications provided by the state board of elections, each
16	board of elections shall maintain a voter registration system capable of
17	receiving and processing voter registration application information,
18	including electronic signatures, from the electronic voter registration
19	transmittal system established by the state board of elections. Notwith-
20	standing any other inconsistent provision of this chapter, applications

30	by the state board of elections which shall include all of the voter
31	registration information required by section 5-210 of this article; and
32	(b) affirms, subject to penalty of perjury, by means of electronic or
33	manual signature, that the information contained in the voter registra-

36	(c) consents to the use of an electronic copy of the individual's
37	manual signature that is in the custody of the department of motor vehi-

43	the state board of elections.
44	2. The board of elections shall provide the personal online voter
45	registration application in any language required by the federal Voting

47	3. The online voter registration application process shall provide
48	reasonable accommodations to improve accessibility for persons with

Within ten days of such action, the board of elections shall send a standard form promulgated by the state board of elections to the voter 7 8 whose record lacks an exemplar signature, requiring such voter to submit a signature for identification purposes. The voter shall submit to the 9 board of elections a voter registration exemplar signature by any one of 10 11 the following methods: in person, by mail with return postage paid provided by the board of elections, by electronic mail, or by electronic 12 upload to the board of elections through the electronic voter registra-13 14 tion transmittal system. If such voter does not provide the required 15 exemplar signature, when the voter appears to vote the voter shall be 16 entitled to vote in the same manner as a voter with a notation indicat-17 ing the voter's identity has not yet been verified in the manner 18 provided by section 8-302 of this chapter. 19 This act shall take effect on the earlier occurrence of: (i) § 4.
