

STATE OF NEW YORK

4101

2019-2020 Regular Sessions

IN SENATE

February 28, 2019

Introduced by Sen. PARKER -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to ensuring equal access to health and human services for limited English speaking individuals

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Declaration of legislative findings and intent. Title VI of
2 the civil rights act of 1964 provides in pertinent part that "no person
3 in the United States shall on the ground of race, color or national
4 origin, be excluded from participation in, be denied the benefits of, or
5 be subjected to discrimination under any program or activity receiving
6 federal assistance." The United States department of justice and the
7 department of health and human services have stated that failure to
8 provide language assistance to limited English speaking individuals
9 seeking assistance in federally funded, state supervised or administered
10 programs amounts to a violation of Title VI by discriminating against
11 such individuals based upon their national origin.

12 It is and has been the policy of the state of New York to oppose all
13 forms of discrimination, particularly when it relates to the provision
14 of state services, or locally provided services under state supervision.
15 However, the department of health and human services office of civil
16 rights, the office responsible for enforcing Title VI in department of
17 health and human services programs, found that the New York state
18 departments of temporary and disability assistance, the New York state
19 department of health, the New York City human resources administration,
20 and the departments of social services in Nassau and Suffolk counties
21 were in violation of Title VI based upon the state and counties' failure
22 to provide interpretation services for limited English proficient indi-
23 viduals. Specifically, the office of civil rights found that limited
24 English proficient clients seeking and/or applying for subsistence bene-
25 fits such as food stamps and public assistance for children and Medicaid
26 benefits were routinely unable to access such benefits due to their
27 inability to speak English.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

1 A legislative hearing on immigrant child welfare issues also found
2 that the lack of interpreters in child welfare cases resulted in chil-
3 dren in families who were limited English proficient were unnecessarily
4 removed from their parents. In addition, limited English proficient
5 residents of New York have been unable to access unemployment and other
6 services from the department of labor due to the lack of translated
7 materials and interpreters. The New York equal access to health and
8 human services for limited English speaking individuals act serves a
9 twofold purpose: first, the act will ensure that the state is in
10 compliance with federal law in ensuring access to benefits and opportu-
11 nities to participate in any program or activity receiving federal
12 assistance; second, and more importantly, the act will ensure that all
13 those in need of health and human services receive them, and that no one
14 attempting to access such services will be discriminated against based
15 upon the language they speak.

16 § 2. The executive law is amended by adding a new article 14-A to read
17 as follows:
