(d-2) Alternative tax table benefit recapture. For taxable years beginning after two thousand nineteen for a taxpayer whose New York taxable income is over \$1,000,000, there is hereby imposed a supplemental tax in addition to the tax imposed under subsections (a), (b) and (c) of this section for the purpose of recapturing the benefit of the tax tables contained in such subsections. During these taxable years, any reference in this chapter to subsection (d) of this section shall be read as a reference to this subsection.

(1) For resident married individuals filing joint returns and resident surviving spouses, the supplemental tax shall be an amount equal to the sum of the tax table benefits described in subparagraphs (A), (B), (C) and (D) of this paragraph multiplied by their respective fractions in such subparagraphs.

(A) The tax table benefit is the difference between (i) the amount of taxable income set forth in the tax table in clause (ii) of subparagraph (B) of paragraph one of subsection (a) of this section not subject to the 8.82 percent rate of tax for the taxable year multiplied by such rate and (ii) the dollar denominated tax for such amount of taxable income set forth in the tax table applicable to the taxable year in clause (ii) of subparagraph (B) of paragraph one of subsection (a) of this section less the sum of tax table benefits in subparagraphs (A), (B) and (C) of paragraph one of subsection (d-1) of this section. The fraction for this subparagraph is computed as follows: the numerator is the lesser of fifty thousand dollars or the excess of New York adjusted gross income for the taxable year over one million dollars and the denominator is fifty thousand dollars.

(B) The tax table benefit is the difference between (i) the amount of taxable income set forth in the tax table in clause (ii) of subparagraph (B) of paragraph one of subsection (a) of this section not subject to the 9.32 percent rate of tax for the taxable year multiplied by such rate and (ii) the dollar denominated tax for such amount of taxable income set forth in the tax table applicable to the taxable year in clause (ii) of subparagraph (B) of paragraph one of subsection (a) of

this section less the sum of the tax table benefits in subparagraphs (A), (B) and (C) of paragraph one of subsection (d-1) of this section and such tax table benefit in subparagraph (A) of this paragraph. The fraction for this subparagraph is computed as follows: the numerator is the lesser of fifty thousand dollars or the excess of New York adjusted gross income for the taxable year over five million dollars and the denominator is fifty thousand dollars. Provided, however, this subpara-graph shall not apply to taxpayers who are not subject to the 9.32 percent tax rate.

The fraction for this subparagraph is computed as follows: the numerator is the lesser of fifty thousand dollars or the excess of New York adjusted gross income for the taxable year over ten million dollars and the denominator is fifty thousand dollars. Provided, however, this subparagraph shall not apply to taxpayers who are not subject to the 9.82 percent tax rate.

The fraction for this subparagraph is computed as follows: the numerator is the lesser of fifty thousand dollars or the excess of New York adjusted gross income for the taxable year over one hundred million dollars and the denominator is fifty thousand dollars.

(E) Provided, however, the total tax prior to the application of any tax credits shall not exceed the highest rate of tax set forth in the tax tables in subsection (a) of this section multiplied by the taxpayer's taxable income.

(2) For resident heads of households, the supplemental tax shall be an amount equal to the sum of the tax table benefits described in subparagraphs (A), (B), (C) and (D) of this paragraph multiplied by their respective fractions in such subparagraphs.
