The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Statement of legislative findings and intent. The legisla-
2 ture hereby finds that the state has a statutory and constitutional
3 obligation to protect and fund the pension benefits of the former
4 employees and retirees of the defunct New York city off-track betting
5 corporation.
6 The New York city off-track betting corporation is a public benefit
7 corporation created pursuant to state law and is a participating employ-
8 er in the New York city employees' retirement system. The pension bene-
9 fits of the corporation's former employees and retirees are protected
10 from impairment under article V, section 7 of the state constitution.
11 In 2008, the state legislatively enhanced its role with respect to the
12 New York city off-track betting corporation due to its financial diffi-
13 culties, thus becoming its successor for purposes of assuming the statu-
14 tory and constitutional obligation to make pension contributions. The
15 corporation ceased operations in 2010 and has since failed to make annu-
16 al contributions to the New York city employees' retirement system as
17 required under the administrative code of the city of New York.

7 its required contributions.

8 As a successor to the New York city off-track betting corporation, and
9 in the interest of properly funding the pension benefits of its former

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: The proposed legislation provides a funding mech-
anism, through unconsolidated provisions of law, for the State of New
York (State), as a successor obligor, to appropriate funds to pay past,
present, and future New York City Off-Track Betting Corporation (NYCOTB)
employer contributions, with applicable interest, to the New York City
Employees' Retirement System (NYCERS) on behalf of former and retired
NYCOTB employees.

Effective Date: Upon enactment.

BACKGROUND: NYCOTB is a defunct public benefit corporation and is a
participating employer in NYCERS. NYCOTB retirees currently receive full
retirement benefits from NYCERS even though NYCOTB last made partial
employer contributions to NYCERS in fiscal years 2010 and 2011 and
completely ceased making employer contributions thereafter. Unpaid past
and future annual employer contributions, with applicable interest,
continue to accrue.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: The proposed legislation would require the Actuary of the City of New York (Actuary) to calculate the cumulative owed past and current NYCOTB employer contributions, with applicable interest, through and inclusive of fiscal year 2021 (the Amount to be Amortized), on or before January 2, 2021, and amortize such cumulative Amount in fifteen equal installments, with applicable interest, to be paid by the State Comptroller, subject to appropriation, commencing on or before January 1, 2022 and ending by January 1, 2036 (the Annual Amortization Payment). The proposed legislation would further require the calculation and, subject to State appropriation, annual payment of future annual NYCOTB employer contributions in accordance with applicable provisions of the Administrative Code of the City of New York (ACCNY).

FINANCIAL IMPACT - SUMMARY: Based on the actuarial assumptions and methods described herein, the enactment of this proposed legislation would, assuming full and timely payment, result in a potential total present value cost to the State of approximately \$290.7 million as of January 1, 2022. Any amount appropriated and paid by the State to NYCERS would be applied as an NYCOTB employer contribution and relieve any potential additional successor or guarantor of paying such amounts.

The following Table presents an estimate of the annual cost, as of January 1, 2022, for Fiscal Years 2022 through 2026.

Fiscal Year	Cost Attributable to Employer Contributions for Fiscal Years Prior to 2022*	Cost Attributable to Employer Contributions for Fiscal Years Subsequent to 2021**	Total
2022	\$19,377,800	\$11,827,215	\$31,205,015
2023	\$19,377,800	\$12,171,170	\$31,548,970
2024	\$19,377,800	\$12,526,059	\$31,903,859
2025	\$19,377,800	\$12,891,594	\$32,269,394
2026	\$19,377,800	\$13,268,096	\$32,645,896

* Equal to a 15-year amortization of \$188,845,726 as of January 1, 2022.

** Estimates of future employer contributions for NYCOTB based on the actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuation, including an assumed investment return of 7.0% per annum.

CENSUS DATA: The estimates presented herein are based on the census data used in the Preliminary June 30, 2019 (Lag) actuarial valuation of NYCERS to determine the Preliminary Fiscal Year 2021 employer contributions.

As of June 30, 2019 NYCOTB had 1,152 retirees with an average age of approximately 74.9 years, 329 terminated vested members with an average age of approximately 53.6 years, and 99 active off payroll members with an average age of approximately 46.8 years.

ACTUARIAL ASSUMPTIONS AND METHODS: The estimates of annual employer contributions presented herein have been calculated based on the actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2021 employer contributions of NYCERS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual

experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- o The initial, additional administrative costs of NYCERS, other New York City agencies and the State to implement the proposed legislation.

- o The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.
