(ii) Notwithstanding any inconsistent provision of the social services law to the contrary, the commissioner shall, pursuant to regulation, determine whether and the extent to which the applicable provisions of the social services law or regulations relating to approvals and authorizations of, and utilization limitations on, health and long term care services reimbursed pursuant to title XIX of the federal social security act, including, but not limited to, fiscal assessment requirements, are inconsistent with the flexibility necessary for the efficient administration of managed long term care plans and such regulations shall provide that such provisions shall not be applicable to enrollees or managed long term care plans, provided that such determinations are consistent with applicable federal law and regulation, and subject to the provisions of ~~[subdivision]~~ subdivisions eight and ten of section three hundred sixty-five-a and paragraph (c) of subdivision eighteen of section three hundred sixty-four-j of the social services law.

(g) (i) Managed long term care plans and demonstrations may enroll eligible persons in the plan or demonstration upon the completion of a comprehensive assessment [~~that shall include, but not be limited to, an evaluation of the medical, social, cognitive, and environmental needs~~] of each prospective enrollee in such program consistent with section three hundred sixty-five-a of the social services law. This assessment shall also serve as the basis for the development and provision of an appropriate plan of care for the enrollee. Upon approval of federal waivers pursuant to paragraph (b) of this subdivision which require medical assistance recipients who require community-based long term care services to enroll in a plan, and upon approval of the commissioner, a plan may enroll an applicant who is currently receiving home and community-based services and complete the comprehensive assessment within thirty days of enrollment provided that the plan continues to cover transitional care until such time as the assessment is completed.

(ii) The assessment shall be completed by a representative of the managed long term care plan or demonstration, in consultation with the prospective enrollee's health care practitioner as necessary. The commissioner shall prescribe the forms on which the assessment shall be made.

(iii) The enrollment application shall be submitted by the managed long term care plan or demonstration to the entity designated by the department prior to the commencement of services under the managed long term care plan or demonstration. Enrollments conducted by a plan or demonstration shall be subject to review and audit by the department or a contractor selected pursuant to paragraph (d) of this subdivision.

(iv) Continued enrollment in a managed long term care plan or demonstration paid for by government funds shall be based upon a comprehen-

2 recipient of the services consistent with section three hundred sixty-
3 five-a of this social services law. Such assessment shall be performed
4 at least every six months by the managed long term care plan serving the
5 enrollee. The commissioner shall prescribe the forms on which the
6 assessment will be made.

7 8. Payment rates for managed long term care plan enrollees eligible
8 for medical assistance. The commissioner shall establish payment rates
9 for services provided to enrollees eligible under title XIX of the
10 federal social security act. Such payment rates shall be subject to
11 approval by the director of the division of the budget and shall reflect
12 savings to both state and local governments when compared to costs which
13 would be incurred by such program if enrollees were to receive compara-
14 ble health and long term care services on a fee-for-service basis in the
15 geographic region in which such services are proposed to be provided.
16 Payment rates shall be risk-adjusted to take into account the character-
17 istics of enrollees, or proposed enrollees, including, but not limited
18 to: frailty, disability level, health and functional status, age,
19 gender, the nature of services provided to such enrollees, and other
20 factors as determined by the commissioner. The risk adjusted premiums
21 may also be combined with disincentives or requirements designed to
22 mitigate any incentives to obtain higher payment categories. In setting
23 such payment rates, the commissioner shall consider costs borne by the
24 managed care program to ensure actuarially sound and adequate rates of
25 payment to ensure quality of care and shall comply with all applicable
26 laws and regulations, state and federal, including [~~regulations as to~~],
27 but not limited to, those relating to wages, labor and actuarial sound-
28 ness [~~for medicaid managed care~~].

29 § 4. Subparagraph (i) of paragraph (g) of subdivision 7 of section
30 4403-f of the public health law, as added by section 65-c of part A of
31 chapter 57 of the laws of 2006 and such paragraph as relettered by
32 section 20 of part C of chapter 58 of the laws of 2007, is amended to
33 read as follows:

34 (i) Managed long term care plans and demonstrations may enroll eligi-
35 ble persons in the plan or demonstration upon the completion of a
36 comprehensive assessment [~~that shall include, but not be limited to, an~~
37 ~~evaluation of the medical, social and environmental needs~~] of each
38 prospective enrollee in such program consistent with section three
39 hundred sixty-five-a of the social services law. This assessment shall
40 also serve as the basis for the development and provision of an appro-
41 priate plan of care for the prospective enrollee.

42 § 5. This act shall take effect immediately; provided that sections
43 two and three of this act shall take effect April 1, 2020; and provided,

54 graph, pursuant to subdivision (i) of section 111 of part H of chapter
55 59 of the laws of 2011, as amended, when upon such date the provisions
56 of section four of this act shall take effect.
