AN ACT requiring all public authorities owning, leasing, and controlling critical infrastructure to study the potential consequences of privatization

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative findings. 1. New York state must have suffi-2 cient numbers of properly designed and maintained pieces of critical 3 transportation infrastructure such as bridges, tunnels, roads, airports, 4 ports, container ports, railroads and rapid transit services in order to 5 retain its economic competitiveness and grow its economy.

6 2. Much of the state's existing critical infrastructure is aging, is 7 experiencing capacity problems, has had maintenance problems, or in some 8 other manner has become a candidate for re-engineering, rebuilding, 9 replacement or supplementation.

3. The most critical and expensive transportation infrastructure in New York state to re-engineer, rebuild or replace is under the control or ownership of public authorities, and such critical transportation infrastructure, from time to time, is under consideration for sale, long-term lease or other transfer of ownership or control to the private business sector.

16 § 2. For the purposes of this act, the following terms shall have the 17 following meanings:

18 1. "critical transportation infrastructure" shall refer to bridges, 19 tunnels, roads, airports, ports, container ports, railroads and rapid 20 transit services owned by a state or local public authority;
