(b) Sales of kratom shall be made only to an individual who demonstrates, through (i) a valid driver's license or non-driver's identifi-cation card issued by the commissioner of motor vehicles, the federal government, any United States territory, commonwealth or possession, the District of Columbia, a state government within the United States or a provincial government of the dominion of Canada, or (ii) a valid pass-port issued by the United States government or any other country, or (iii) an identification card issued by the armed forces of the United States, or (iv) any other photographic identification card issued by a governmental entity or educational institution indicating that the indi-vidual is at least twenty-one years of age. Such identification need not be required of any individual who reasonably appears to be at least twenty-five years of age, provided, however, that such appearance shall not constitute a defense in any proceeding alleging the sale of kratom to an individual under twenty-one years of age. 

(c)(i) Any person operating a place of business wherein kratom is sold or offered for sale may perform a transaction scan as a precondition for such purchases.

(ii) In any instance where the information deciphered by the transaction scan fails to match the information printed on the driver's license or non-driver identification card, or if the transaction scan indicates that the information is false or fraudulent, the attempted transaction shall be denied.

(iii) In any proceeding pursuant to section thirteen hundred ninetynine-ee of this article, it shall be an affirmative defense that such
person had produced a driver's license or non-driver identification card
apparently issued by a governmental entity, successfully completed that
transaction scan, and that the kratom has been sold, delivered or given
to such person in reasonable reliance upon such identification and transaction scan. In evaluating the applicability of such affirmative
defense the commissioner shall take into consideration any written policy adopted and implemented by the seller to effectuate the provisions of
this article. Use of a transaction scan shall not excuse any person
operating a place of business wherein kratom is sold, or the agent or
employee of such person, from the exercise of reasonable diligence
otherwise required by this article. Notwithstanding the above
provisions, any such affirmative defense shall not be applicable in any
civil or criminal proceeding, or in any other forum.

(d) A business or agent or employee of such business shall only use a device capable of deciphering any electronically readable format, and shall only use the information recorded and maintained through the use of such devices, for the purposes contained in paragraph (c) of this subdivision. No business or agent or employee of such business shall resell or disseminate the information recorded during such a scan to any third person. Such prohibited resale or dissemination includes but is not limited to any advertising, marketing or promotional activities. Notwithstanding the restrictions imposed by this subdivision, such records may be released pursuant to a court ordered subpoena or pursuant to any other statute that specifically authorizes the release of such information. Each violation of this subdivision shall be punishable by a civil penalty of not more than one thousand dollars.

(e) A business or agent or employee of such business may electronically or mechanically record and maintain only the information from a transaction scan necessary to effectuate this section. Such information shall be limited to the following: (i) name, (ii) date of birth, (iii)

- (f) As used in this subdivision, "a device capable of deciphering any electronically readable format", "card holder" and "transaction scan" shall have the same meanings as are ascribed to such terms by section thirteen hundred ninety-nine-cc of this article.
- § 4. The commissioner of health shall conduct a study relating to kratom. The study shall include but not be limited to the potential health risks, benefits and effects of kratom and shall review all available data relating to such. Such commissioner shall publish and submit a report of his or her findings and recommendations to the governor, the speaker of the assembly and the temporary president of the senate on or before one year from the effective date of this act.
- 14 § 5. This act shall take effect immediately.
