FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Section 13-696 of the Administrative Code of the City of New York (ACCNY) to reduce the age of eligibility for the Cost-of-Living Adjustment (COLA) from 62 to 55 for service and vested retirees who have been retired for five years from the New York City Employees' Retirement System (NYCERS), the New York City Teachers' Retirement System (NYCTRS), the New York City Board of Education Retirement System (BERS), the New York City Police Pension Fund (POLICE), and the New York City Fire Pension Fund (FIRE), collectively known as the New York City Retirement Systems and Pension Funds (NYCRS).

Effective Date: Upon enactment.

BACKGROUND: Currently, COLA is payable to service and vested retirees who have:

- (1) attained age 62 and have been retired for five years or
- (2) attained age 55 and have been retired for ten years.

Under this proposed legislation, if enacted, the COLA would be payable to such retirees who have attained age 55 and have been retired for five years.

The COLA for disability retirement and death is payable after having been retired for five years and is not affected by the proposed legislation.

FINANCIAL IMPACT - SUMMARY: The estimated financial impact to NYCERS for reducing the age of eligibility for COLA from 62 to 55 for service and vested retirees who have been retired for five years as described above is an increase in Present Value of Future Benefits (PVFB) of \$194.9 million and an increase in the annual employer contributions of \$115.3 million. A breakdown of the financial impact by System is shown in the table below.

NYCRS	Additional Present Value of Future Benefits (\$ Millions)	Estimated First Year Annual Employer Contributions* (\$ Millions)
NYCERS	\$ 72.8	\$ 47.4
NYCTRS	51.0	28.0
BERS	0.9	0.6
POLICE	64.3	36.6
FIRE	<u>5.9</u>	<u>2.7</u>
Total	\$194.9	\$115.3

* Employer contributions after the first year are estimated to be \$11 - \$12 million per year.

In accordance with ACCNY Section 13-638.2(k-2), new Unfunded Accrued Liability (UAL) attributable to benefit changes are to be amortized as determined by the Actuary, but are generally amortized over the remaining working lifetime of those impacted by the benefit changes.

For the purposes of this Fiscal Note it has been assumed that increases in UAL attributable to current retirees would be recognized immediately and that increases in UAL attributable to active members would be amortized over periods ranging from 12 to 15 years depending on NYCERS (11 to 14 payments, respectively, under the One-Year Lag Methodology (OYLM)).

CONTRIBUTION TIMING: For the purposes of this Fiscal Note, it is assumed that the changes in the PVFB and annual employer contributions would be reflected for the first time in the June 30, 2019 actuarial valuations of NYCERS. In accordance with the OYLM used to determine employer contributions, the increase in employer contributions would first be reflected in Fiscal Year 2021.

CENSUS DATA: The estimates presented herein are based on the census data used in the Preliminary June 30, 2019 (Lag) actuarial valuations of NYCERS to determine the Preliminary Fiscal Year 2021 employer contributions.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the PVFB and annual employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2019 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2021 employer contributions of NYCERS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial meth-

ods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs to implement the proposed legislation.

- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.
