§ 3. Section 4 of part QQQ of chapter 59 of the laws of 2018, constituting the New York city BQE Design-Build act, is amended to read as follows:

§ 4. Notwithstanding any general, special or local law, rule or regulation to the contrary, including but not limited to article 5-A of the general municipal law, sections 1734 and 1735 of the public authorities law, article 8 of the public housing law, section 7210 of the education law, and section 8 of the New York city health and hospitals corporation act, and in conformity with the requirements of this act, for any public work that has an estimated cost of not less than ten million dollars and is undertaken pursuant to a project labor agreement in accordance with section 222 of the labor law, an authorized entity charged with awarding a contract for public work may use the alternative delivery method referred to as design-build contracts. Provided, however, that the New York city department of parks and recreation is authorized to use the alternative delivery method referred to as design-build contracts for any public work and the New York city department of design and construction is authorized to use design-build contracts for any municipally owned homeland security bollard, library, museum, or pedestrian ramp project that has an estimated cost of not less than one million two hundred thousand dollars if such public work is otherwise in conformity with the requirements of this act.

(a) A contractor selected by such authorized entity to enter into a design-build contract shall be selected through a two-step method, as follows:

(1) Step one. Generation of a list of responding entities that have demonstrated the general capability to perform the design-build contract. Such list shall consist of a specified number of responding entities, as determined by an authorized entity, and shall be generated based upon the authorized entity's review of responses to a publicly advertised request for qualifications. The authorized entity's request for qualifications shall include a general description of the public work, the maximum number of responding entities to be included on the list, the selection criteria to be used and the relative weight of each criteria in generating the list. Such selection criteria shall include the qualifications and experience of the design and construction team, organization, demonstrated responsibility, ability of the team or of a member or members of the team to comply with applicable requirements, including the provisions of articles 145, 147, and 148 of the education law, past record of compliance with the labor law, and such other qualifications the authorized entity deems appropriate, which may include but are not limited to project understanding, financial capability and record of past performance. The authorized entity shall evaluate and rate all responding entities to the request for qualifications. Based upon such ratings, the authorized entity shall list the responding entities that shall receive a request for proposals in accordance with paragraph two of this subdivision. To the extent consistent with applicable federal law, the authorized entity shall consider, when awarding any contract pursuant to this section, the participation of: (i) responding entities that are certified as minority- or women-owned business enterprises pursuant to article 15-A of the executive law, or certified pursuant to local law as minority- or women-owned business enterprises; and (ii) small business concerns identified pursuant to subdivision (b) of section 139-g of the state finance law.

(2) Step two. Selection of the proposal which is the best value to the authorized entity. The authorized entity shall issue a request for

1 proposals to the responding entities listed pursuant to paragraph one of  
2 this subdivision. If such a responding entity consists of a team of  
3 separate entities, the entities that comprise such a team must remain  
4 unchanged from the responding entity as listed pursuant to paragraph one  
5 of this subdivision unless otherwise approved by the authorized entity.  
6 The request for proposals shall set forth the public work's scope of  
7 work, and other requirements, as determined by the authorized entity,  
8 which may include separate goals for work under the contract to be  
9 performed by businesses certified as minority- or women-owned business  
10 enterprises pursuant to article 15-A of the executive law or section  
11 1743 of the public authorities law, or certified pursuant to local law  
12 as minority- or women-owned business enterprises. The request for  
13 proposals shall also specify the criteria to be used to evaluate the  
14 responses and the relative weight of each of such criteria. Such crite-  
15 ria shall include the proposal's cost, the quality of the proposal's  
16 solution, the qualifications and experience of the proposer, and other  
17 factors deemed pertinent by the authorized entity, which may include,  
18 but shall not be limited to, the proposal's manner and schedule of  
19 project implementation, the proposer's ability to complete the work in a  
20 timely and satisfactory manner, maintenance costs of the completed  
21 public work, maintenance of traffic approach, and community impact. Any  
22 contract awarded pursuant to this act shall be awarded to a responsive  
23 and responsible proposer, which, in consideration of these and other  
24 specified criteria deemed pertinent, offers the best value, as deter-  
25 mined by the authorized entity. The request for proposals shall include  
26 a statement that proposers shall designate in writing those portions of  
27 the proposal that contain trade secrets or other proprietary information  
28 that are to remain confidential; that the material designated as confi-  
29 dential shall be readily separable from the proposal. Nothing in this  
30 subdivision shall be construed to prohibit the authorized entity from  
31 negotiating final contract terms and conditions including cost. All  
32 proposals submitted shall be scored according to the criteria listed in  
33 the request for proposals and such final scores shall be published on  
34 the authorized entity's website.

35 (b) An authorized entity awarding a design-build contract to a  
36 contractor offering the best value may but shall not be required to use  
37 the following types of contracts:

38 (1) A cost-plus not to exceed guaranteed maximum price form of  
39 contract in which the authorized entity shall be entitled to monitor and  
40 audit all costs. In establishing the schedule and process for determin-  
41 ing a guaranteed maximum price, the contract between the authorized  
42 entity and the contractor shall:

43 (i) Describe the scope of the work and the cost of performing such  
44 work,

45 (ii) Include a detailed line item cost breakdown,

46 (iii) Include a list of all drawings, specifications and other infor-  
47 mation on which the guaranteed maximum price is based,

48 (iv) Include the dates of substantial and final completion on which  
49 the guaranteed maximum price is based, and

50 (v) Include a schedule of unit prices; or

51 (2) A lump sum contract in which the contractor agrees to accept a set  
52 dollar amount for a contract which comprises a single bid without  
53 providing a cost breakdown for all costs such as for equipment, labor,  
54 materials, as well as such contractor's profit for completing all items  
55 of work comprising the public work.

§ 4. Section 7 of part QQQ of chapter 59 of the laws of 2018, constituting the New York city BQE Design-Build act, is amended to read as follows:
