AN ACT requiring the division of veterans' services to review issues relating to veterans' abilities to access state parks, lands and facilities; and providing for the repeal of such provisions upon expiration thereof

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. This act shall be known and may be cited as the "outdoor Rx
2 act".
3 § 2. Legislative findings and intent. The legislature hereby finds and
4 declares that protecting the physical, mental and behavioral health of
5 veterans is critical to ensure successful re-entry into civilian life.
6 Studies have shown that time outdoors can be a valuable adjunct therapy
7 in addition to more traditional health care, while also reducing reli-
8 ance on prescription medication. The therapeutic benefits of time spent
9 outdoors is clinically proven and is known to help reduce stress,
10 improve concentration, and promote overall well-being, both physical and
11 mental. Outdoor-based therapeutic programs hold particular promise for
12 people suffering from Post-Traumatic Stress Disorder, Military Sexual
13 Trauma, Traumatic Brain Injury, and Substance Use Disorders. Outdoor
14 programs including adventure therapy, wilderness therapy, horticultural
15 therapy, walk-and-talk therapy, and other nature-based programs, are
16 currently being used by mental health professionals and are shown to
17 have benefits including reduction of stress, restoration of attention,
18 and an improved sense of well-being. New York state is home to natural
