paragraph, including clinical research positions that continue from and were funded in prior distribution periods, the commissioner shall eliminate one-half of the clinical research positions submitted by each consortium or teaching general hospital rounded down to the nearest one position. Such reduction shall be repeated until the dollar amount for the total number of clinical research positions in the region does not exceed the total amount appropriated for purposes of this paragraph. If the repeated reduction of the total number of clinical research positions in the region by one-half does not render a total funding amount that is equal to or less than the total amount reserved for that region within the appropriation, the funding for each clinical research position in that region shall be reduced proportionally in one thousand dollar increments until the total dollar amount for the total number of clinical research positions in that region does not exceed the total amount reserved for that region within the appropriation. Any reduction in funding will be effective for the duration of the award. No clinical research positions that continue from and were funded in prior distribution periods shall be eliminated or reduced by such methodology.

The requirements set forth in items (IV) and (V) of clause (G) of this subparagraph must be completed by the consortium or teaching general hospital in order for the consortium or teaching general hospital to be eligible to apply for ECRIP funding in any subsequent funding cycle.

§ 8. Article 27-J of the public health law is REPEALED.
§ 9. Title E of the mental hygiene law is amended by adding a new article 30 to read as follows:
ARTICLE 30
COMPREHENSIVE CARE CENTERS FOR EATING DISORDERS
Section 30.01 Legislative findings.
30.02 Definitions.
30.03 Comprehensive care centers for eating disorders; estab-
lished.
30.04 Qualifying criteria.
30.05 State identification of comprehensive care centers for
eating disorders; commissioner's written notice.
30.06 Restricted use of title.
§ 30.01 Legislative findings.
The legislature hereby finds that effective diagnosis and treatment
for citizens struggling with eating disorders, a complex and potentially
life-threatening condition, requires a continuum of interdisciplinary
providers and levels of care. Such effective diagnosis and treatment
further requires the coordination and comprehensive management of an
individualized plan of care specifically oriented to the distinct needs
of each individual.
The legislature further finds that, while there are numerous health
care providers in the state with expertise in eating disorder treatment,
there is no generally accessible, comprehensive system for responding to
these disorders. Due to the lack of such a system the legislature finds
that treatment, information/referral, prevention and research activities
are fragmented and incomplete. In addition, due to the broad, multifac-
eted needs of individuals with eating disorders, insurance payments for
the necessary plan of care and providers is usually fragmented as well,
leaving citizens with insufficient coverage for essential services and,
therefore, at risk of incomplete treatment, relapse, deterioration and
potential death.
The legislature therefore declares that the state take positive action
to facilitate the development and public identification of provider
networks and care centers of excellence to provide a coordinated,
comprehensive system for the treatment of such disorders, as well as to
conduct community education, prevention, information/referral and
research activities. The legislature further declares that health cover-
age by insurers and health maintenance organizations should include
covered services provided through such centers and that, to the extent
possible and practicable, health plan reimbursement should be structured
in a manner to facilitate the individualized, comprehensive and inte-
grated plans of care which such centers are required to provide.
§ 30.02 Definitions.

(b) "Comprehensive care centers for eating disorders" or "comprehensive care centers" means a provider-sponsored system of care, organized by either corporate affiliation or clinical association for the common purpose of providing a coordinated, individualized plan of care for an individual with an eating disorder, across a continuum that includes all necessary non-institutional, institutional and practitioner services and treatments, from initial patient screening and evaluation, to treatment, follow-up care and support.

(iii) one and eight-tenths percentage points for LTHHCPs located within the downstate region; and

(c) For each regional group, the 1999 target medicaid revenue percentage shall be calculated by subtracting the 1999 medicaid revenue reduction percentage from the base period medicaid revenue percentage. The 1999 medicaid revenue reduction percentages, taking into account regional and program differences in utilization of medicaid and medicare services, for the following regional groups shall be equal to:

(i) eight hundred twenty-five thousandths (.825) of one percentage point for CHHAs located within the downstate region;

5. (a) For each regional group, if the 1996 medicaid revenue percentage is not equal to or less than the 1996 target medicaid revenue percentage, the commissioner of health shall compare the 1996 medicaid revenue percentage to the 1996 target medicaid revenue percentage to determine the amount of the shortfall which, when divided by the 1996 medicaid revenue reduction percentage, shall be called the 1996 reduction factor. These amounts, expressed as a percentage, shall not exceed one hundred percent. If the 1996 medicaid revenue percentage is
equal to or less than the 1996 target medicaid revenue percentage, the
1996 reduction factor shall be zero.

[and] 2019, 2020, 2021, 2022 and 2023, for each regional group, if the
medicaid revenue percentage for the respective year is not equal to or
less than the target medicaid revenue percentage for such respective

medicaid revenue percentage to such respective year's target medicaid
revenue percentage to determine the amount of the shortfall which, when
divided by the respective year's medicaid revenue reduction percentage,
shall be called the reduction factor for such respective year. These
amounts, expressed as a percentage, shall not exceed one hundred
percent. If the medicaid revenue percentage for a particular year is
equal to or less than the target medicaid revenue percentage for that
year, the reduction factor for that year shall be zero.

CHHAs located within the downstate region;
(ii) seven hundred fifty thousand dollars ($750,000) for CHHAs located

for LTHHCPs located within the downstate region; and
(iv) five hundred ninety thousand dollars ($590,000) for LTHHCPs
located within the upstate region.

For each regional group reduction, if the 1996 reduction factor shall
be zero, there shall be no 1996 state share reduction amount.

[and] 2020, 2021, 2022 and 2023, for each regional group, the reduction
factor for the respective year shall be multiplied by the following
amounts to determine each regional group's applicable state share
reduction amount for such respective year:
(i) two million three hundred ninety thousand dollars ($2,390,000) for
CHHAs located within the downstate region;
(ii) seven hundred fifty thousand dollars ($750,000) for CHHAs located

for LTHHCPs located within the downstate region; and
(iv) five hundred ninety thousand dollars ($590,000) for LTHHCPs
located within the upstate region.

particular year shall be zero, there shall be no state share reduction
amount for such year.

(c) For each regional group, the 1999 reduction factor shall be multi-
plied by the following amounts to determine each regional group's appli-
cable 1999 state share reduction amount:
(i) one million seven hundred ninety-two thousand five hundred dollars
($1,792,500) for CHHAs located within the downstate region;
(ii) five hundred sixty-two thousand five hundred dollars ($562,500)
for CHHAs located within the upstate region;
(iii) nine hundred fifty-two thousand five hundred dollars ($952,500)
for LTHHCPs located within the downstate region; and
(iv) four hundred forty-two thousand five hundred dollars ($442,500) for LTHHCPs located within the upstate region.

For each regional group reduction, if the 1999 reduction factor shall be zero, there shall be no 1999 state share reduction amount.

7. (a) For each regional group, the 1996 state share reduction amount shall be allocated by the commissioner of health among CHHAs and LTHHCPs on the basis of the extent of each CHHA's and LTHHCP's failure to achieve the 1996 target medicaid revenue percentage, calculated on a provider specific basis utilizing revenues for this purpose, expressed as a proportion of the total of each CHHA's and LTHHCP's failure to achieve the 1996 target medicaid revenue percentage within the applicable regional group. This proportion shall be multiplied by the applicable 1996 state share reduction amount calculation pursuant to paragraph (a) of subdivision 6 of this section. This amount shall be called the 1996 provider specific state share reduction amount.

12. Summary action. (a) Whenever the commissioner, (i) after being
presented with information indicating that a licensee is causing, engag-
ing in or maintaining a condition or activity which has resulted in the
transmission or suspected transmission, or is likely to lead to the
transmission, of communicable disease as defined in the state sanitary
code or HIV/AIDS, by the state and/or a local health department and if
in the commissioner's opinion it would be prejudicial to the interests
of the people to delay action until an opportunity for a hearing can be
provided in accordance with the prehearing and hearing provisions of
this section; [or] (ii) after requiring that a licensee produce docu-
ments in accordance with subdivision four of section two hundred six of
this chapter, and such licensee has failed to produce the required docu-
ments within ten days, or within such shorter period as may have been
specified in the commissioner's written demand for documents; or (iii)
after an investigation and a recommendation by a committee on profes-
sional conduct of the state board for professional medical conduct,
based upon a determination that a licensee is causing, engaging in or
maintaining a condition or activity which in the commissioner's opinion
[constitutes an imminent danger] presents a risk to the health of the
people, and that it therefore appears to be prejudicial to the interests
of the people to delay action until an opportunity for a hearing can be
provided in accordance with the prehearing and hearing provisions of
this section; the commissioner may order the licensee, by written
notice, to discontinue such dangerous condition or activity or take
certain action immediately and for a period of [ninety] one hundred
twenty days from the date of service of the order. Within [ten] thirty
days from the date of service of the said order, the state board for
professional medical conduct shall commence and regularly schedule such
hearing proceedings as required by this section, provided, however, that
the hearing shall be completed within [ninety] one hundred twenty days
of the date of service of the order. To the extent that the issue of
[imminent danger] risk to the health of the people
can be proven without
the attorney representing the office of professional medical conduct
putting in its entire case, the committee of the board shall first
determine whether by a preponderance of the evidence the licensee is
causing, engaging in or maintaining a condition or activity which
[constitutes an imminent danger] presents a risk to the health of the
people. The attorney representing the office of professional medical
conduct shall have the burden of going forward and proving by a prepon-
derence of the evidence that the licensee's condition, activity or prac-
tice [constitutes an imminent danger] presents a risk to the health of
the people. The licensee shall have an opportunity to be heard and to
present proof. When both the office and the licensee have completed
their cases with respect to the question of [imminent danger] risk to
the health of the people, the committee shall promptly make a recommen-
dation to the commissioner on the issue of [imminent danger] risk to the
and determine whether the summary order should be
left in effect, modified or vacated, and continue the hearing on all the
remaining charges, if any, in accordance with paragraph (f) of subdivi-
tion ten of this section. Within ten days of the committee's recommenda-
tion, the commissioner shall determine whether or not to adopt the
committee's recommendations, in whole or in part, and shall leave in
effect, modify or vacate his summary order. The state board for profes-
sional medical conduct shall make every reasonable effort to avoid any
delay in completing and determining such proceedings. If, at the conclu-
sion of the hearing, (i) the hearing committee of the board finds the
licensee guilty of one or more of the charges which are the basis for
the summary order, (ii) the hearing committee determines that the summa-
ry order continue, and (iii) the ninety day term of the order has not
expired, the summary order shall remain in full force and effect until a
final decision has been rendered by the committee or, if review is
sought, by the administrative review board. A summary order shall be
public upon issuance.

(b) When a licensee has pleaded or been found guilty or convicted of
committing an act constituting a felony under New York state law or
federal law, or the law of another jurisdiction which, if committed
within this state, would have constituted a felony under New York state
law, or when a licensee has been charged with committing an act constit-
tuting a felony under New York state or federal law or the law of anoth-
er jurisdiction, where the licensee's alleged conduct, which, if commit-
ted within this state, would have constituted a felony under New York
state law, and [in the commissioner's opinion the licensee's alleged
classic conduct constitutes an imminent danger] where the licensee's alleged
conduct may present a risk to the health of the people, or when the duly
authorized professional disciplinary agency of another jurisdiction has
made a finding substantially equivalent to a finding that the practice
of medicine by the licensee in that jurisdiction [constitutes an immi-
nant danger] presents a risk to the health of its people, or when a
licensee has been disciplined by a duly authorized professional disci-
plinary agency of another jurisdiction for acts which if committed in
this state would have constituted the basis for summary action by the
commissioner pursuant to paragraph (a) of this subdivision, the commis-
sioner, after a recommendation by a committee of professional conduct of
the state board for professional medical conduct, may order the licen-
see, by written notice, to discontinue or refrain from practicing medi-
cine in whole or in part or to take certain actions authorized pursuant
to this title immediately. The order of the commissioner shall consti-
tute summary action against the licensee and become public upon issu-
ance. The summary suspension shall remain in effect until the final
conclusion of a hearing which shall commence within ninety days of the
date of service of the commissioner's order, end within [ninety] one
hundred eighty days thereafter and otherwise be held in accordance with
paragraph (a) of this subdivision, provided, however, that when the
commissioner's order is based upon a finding substantially equivalent to
a finding that the practice of medicine by the licensee in another
jurisdiction [constitutes an imminent danger] presents a risk to the
health of its people, the hearing shall commence within thirty days
after the disciplinary proceedings in that jurisdiction are finally
concluded. If, at any time, the felony charge is dismissed, withdrawn or
reduced to a non-felony charge, the commissioner's summary order shall
terminate.
§ 13. Paragraph (a) of subdivision 1 of section 2803-e of the public health law, as amended by chapter 294 of the laws of 1985, is amended to read as follows:

(a) Hospitals and other facilities approved pursuant to this article shall make a report or cause a report to be made within thirty days of the occurrence of any of the following: the suspension, restriction, termination or curtailment of the training, employment, association or professional privileges or the denial of the certification of completion of training of an individual licensed pursuant to the provisions of title eight of the education law or of a medical resident with such facility for reasons related in any way to alleged mental or physical impairment, incompetence, malpractice or misconduct or impairment of patient safety or welfare; the voluntary or involuntary resignation or withdrawal of association or of privileges with such facility to avoid the imposition of disciplinary measures; notification by the hospital or facility, to any entity providing personnel to perform professional services to such hospital or facility, that the entity shall not assign a particular individual to provide such services to the hospital or facility, for reasons related in any way to alleged mental or physical impairment, incompetence, malpractice or misconduct or impairment of patient safety or welfare; or the receipt of information which indicates that any professional licensee or medical resident has been convicted of a crime; the denial of staff privileges to a physician if the reasons stated for such denial are related to alleged mental or physical impairment, incompetence, malpractice, misconduct or impairment of patient safety or welfare.

§ 14. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2020; provided, however, that the amendments to paragraph (a) of subdivision 10 of section 230 of the public health law made by sections 7 and 8 of this act shall not affect the expiration of such paragraph and shall expire therewith.

(b) The City of New York shall make the annual certification required by subdivision one of this section by July fifteenth of each year.

3. For each district that does not certify that such district has limited the increase in real property taxes in accordance with subdivision one of this section by the date specified in subdivision two of this section, the department of health shall calculate the savings in medical assistance expenditures that such district realized, or would have realized, for the district's prior fiscal year as a result of application of section 1 of part C of chapter 58 of the laws of 2005, as amended by section 1 of part F of chapter 56 of the laws of 2012 and any subsequent amendments thereto ("medicaid local share cap"). Notwithstanding section 1 of part C of chapter 58 of the laws of 2005, as amended, such district's actual savings during the district's then current fiscal year shall be limited to the savings
calculated in the manner prescribed in this subdivision, less any remit-
tances imposed by application of this subdivision in prior fiscal years,
provided that each imposition of a remittance pursuant to this subdivi-
sion shall be deducted only once [for each year that the district does
not limit the increase in real property taxes by the real property tax
cap pursuant to subdivision two of this section] ("limited local share
savings"). The district shall be liable for and remit to the state the
difference between the district's limited local share savings and the
savings that the district would have realized as a result of application
of the medicaid local share cap, pursuant to a schedule determined by
the commissioner of health in consultation with the director of the
division of the budget. Further, the amount of any remittances imposed
by application of this subdivision shall be owed to the state in every
subsequent fiscal year, regardless whether the district certifies that
it has limited the increase in real property taxes in accordance with
subdivision one of this section by the date specified in subdivision two
of this section, provided that each imposition of a remittance pursuant
to this subdivision shall be applied only once. [provided] Provided,
however, that the commissioner of health may, in consultation with the
director of the division of the budget, reduce [such] any liability
imposed pursuant to this subdivision to the extent necessary to achieve
compliance with section 1905 of the federal social security act or any
other legal requirements imposed on the subject matter hereof. Such
remittances shall be separate from, and shall not affect or be affected
by, any voluntary local share contributions made by any district,
including the City of New York.

4. The director of the division of the budget may grant a waiver to
any district that does not provide the certification required pursuant
to subdivision two of this section upon a showing by such district of
financial hardship in a form and manner prescribed by the division of
the budget. In evaluating an application for a financial hardship waiv-
er, the director of the division of the budget shall consider changes in
state or federal aid payments and other extraordinary costs, including
the occurrence of a disaster as defined in paragraph a of subdivision
two of section twenty of the executive law, repair and maintenance of
infrastructure, annual growth of tax receipts, including personal
income, business, and other taxes, prepayment of debt service and other
expenses or such other factors that such director may determine.

§ 3. Section 363-c of the social services law is amended by adding new
subdivisions 4, 5 and 6 to read as follows:

4. Notwithstanding any laws or regulations to the contrary, all social
services districts, providers and other recipients of medical assistance
program funds shall make available to the commissioner or the director
of the division of budget in a prompt fashion all fiscal and statistical
records and reports, other contemporaneous records demonstrating their
right to receive payment, and all underlying books, records, documenta-
tion and reports, which may be requested by the commissioner or the
director of the division of the budget as may be determined necessary to
manage and oversee the Medicaid program.

5. For the state fiscal year beginning April first, two thousand twen-
ty-one and every state fiscal year thereafter, notwithstanding the
provisions of section three hundred sixty-eight-a of this title, and
notwithstanding section one of part C of chapter fifty-eight of the laws
of two thousand five, as amended by section one of part F of chapter
fifty-six of the laws of two thousand twelve, and any subsequent amend-
ments thereto, if the total percentage increase in medicaid local spend-
ing, meaning the amount that the department of health reimbursed any social services district during the prior state fiscal year for expenditures made by or on behalf of such social services district for medical assistance for needy persons, relative to such amount paid in the state fiscal year beginning April first, two thousand twenty ("Medicaid local spending growth rate"), exceeds the total percentage increase in the year to year rate of growth of department of health state funds Medicaid spending, as established by section 91 of part H of chapter 59 of the laws of 2011, and as subsequently amended, over the same time period ("Medicaid global cap growth rate") the social services district shall be liable for and remit to the state one hundred percent of the amount of Medicaid local spending multiplied by the difference in the Medicaid global cap growth rate and the Medicaid local spending growth rate pursuant to a schedule determined by the commissioner of health in consultation with the director of the division of budget. Such remittances shall not be considered when determining a district’s Medicaid local spending growth in subsequent fiscal years. Provided, however, that this subdivision shall not apply only to the extent that it conflicts with or would achieve less savings to the state than the application of subdivision one of section one of part R of a chapter of the laws of 2020, concerning distribution of enhanced federal medical assistance percentage payments, as proposed in legislative bill numbers S.7507-A and A.9507-A.

6. For the state fiscal year beginning April first, two thousand twenty-one and every state fiscal year thereafter, notwithstanding the provisions of section three hundred sixty-eight-a of this title, and notwithstanding section one of part C of chapter fifty-eight of the laws of two thousand five, as amended by section one of part F of chapter fifty-six of the laws of two thousand twelve, and any subsequent amendments thereto, if a social services district’s Medicaid local spending growth rate is less than the Medicaid global cap growth rate, both terms as defined in subdivision five of this section, the state shall remit to the social services district twenty-five percent of the amount of medical local spending, as defined in subdivision five of this section, multiplied by the difference in the Medicaid global cap growth rate and the Medicaid local spending growth rate, pursuant to a schedule determined by the commissioner of health in consultation with the director of the division of budget. Such remittances shall not be considered when determining a district’s Medicaid local spending growth in subsequent fiscal years.

§ 4. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2020.

PART S

Section 1. Subdivision 7 of section 2802 of the public health law is amended by adding a new paragraph (b-1) to read as follows:

(b-1) At such time as the commissioner's written contingent approval is granted, or written approval in instances where no contingencies were applied to such approval, each applicant shall pay an additional surcharge equal to three percent of the total capital value of the application.

§ 2. Paragraph (d) of subdivision 7 of section 2802 of the public health law, as amended by section 87 of part C of chapter 58 of the laws of 2009, is amended and a new paragraph (e) is added to read as follows:
(d) The fees and charges imposed by this subdivision for any application for construction of a hospital approved in accordance with this section shall be deemed allowable capital costs in the determination of reimbursement rates established pursuant to this article. The cost of such fees and charges shall not be subject to reimbursement ceiling or other penalties used by the commissioner for the purpose of establishing reimbursement rates pursuant to this article. shall not apply to any application for which all development, design, and construction costs are being solely funded by state grants of any kind, except that such fees and charges may be imposed in such circumstances under criteria that may be adopted in regulation by the commissioner, with the approval of the director of the budget.

(ii) The commissioner, with the approval of the director of the budget, is authorized to exempt certain applications, that meet criteria established by the commissioner in regulation, from the surcharge imposed by paragraph (b-1) of this subdivision.

(e) Notwithstanding any other provision of law to the contrary, the fees and charges paid by an applicant pursuant to this subdivision shall not be eligible for reimbursement by the state, including the state Medicaid program.

(f) All fees pursuant to this section shall be payable to the department of health miscellaneous special revenue fund - 339, certificate of need account.

§ 3. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2020.

PART T

Section 1. Section 40 of chapter 266 of the laws of 1986, amending the civil practice law and rules and other laws relating to malpractice and professional medical conduct, as amended by section 4 of part F of chapter 57 of the laws of 2019, is amended to read as follows:

§ 40. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, 2021; provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, 2020, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. The superintendent shall not impose such surcharge during the period commencing July 1, 2009 and ending June 30, 2010. On and after July 1, 1989, the surcharge prescribed by this section shall be retained by insurers to the extent that they insured
physicians and surgeons during the July 1, 1985 through June 30, 2020 policy periods; in the event and to the extent physicians and surgeons were insured by another insurer during such periods, all or a pro rata share of the surcharge, as the case may be, shall be remitted to such other insurer in accordance with rules and regulations to be promulgated by the superintendent. Such charges collected from physicians and surgeons who were not insured during such policy periods shall be apportioned among all insurers in proportion to the premium written by each insurer during such policy periods; if a physician or surgeon was insured by an insurer subject to rates established by the superintendent during such policy periods, and at any time thereafter a hospital, health maintenance organization, employer or institution is responsible for responding in damages for liability arising out of such physician's or surgeon's practice of medicine, such responsible entity shall also remit to such prior insurer the equivalent amount that would then be collected as a surcharge if the physician or surgeon had continued to remain insured by such prior insurer. In the event any insurer that provided coverage during such policy periods is in liquidation, the property/casualty insurance security fund shall receive the portion of surcharges to which the insurer in liquidation would have been entitled. The surcharges authorized herein shall be deemed to be income earned for the purposes of section 2303 of the insurance law. The superintendent, in establishing adequate rates and in determining any projected deficiency pursuant to the requirements of this section and the insurance law, shall give substantial weight, determined in his discretion and judgment, to the prospective anticipated effect of any regulations promulgated and laws enacted and the public benefit of stabilizing malpractice rates and minimizing rate level fluctuation during the period of time necessary for the development of more reliable statistical experience as to the efficacy of such laws and regulations affecting medical, dental or podiatric malpractice enacted or promulgated in 1985, 1986, by this act and at any other time. Notwithstanding any provision of the insurance law, rates already established and to be established by the superintendent pursuant to this section are deemed adequate if such rates would be adequate when taken together with the maximum authorized annual surcharges to be imposed for a reasonable period of time whether or not any such annual surcharge has been actually imposed as of the establishment of such rates.

§ 2. Section 20 of part H of chapter 57 of the laws of 2017, amending the New York Health Care Reform Act of 1996 and other laws relating to extending certain provisions relating thereto, as amended by section 6 of part F of chapter 57 of the laws of 2019, is amended to read as follows:

§ 20. Notwithstanding any law, rule or regulation to the contrary, only physicians or dentists who were eligible, and for whom the superintendent of financial services and the commissioner of health, or their designee, purchased, with funds available in the hospital excess liability pool, a full or partial policy for excess coverage or equivalent excess coverage for the coverage period ending the thirtieth of June, twenty thousand [nineteen] twenty, shall be eligible to apply for such coverage for the coverage period beginning the first of July, two thousand [nineteen] twenty: provided, however, if the total number of physicians or dentists for whom such excess coverage or equivalent excess coverage was purchased for the policy year ending the thirtieth of June, two thousand [nineteen] twenty exceeds the total number of physicians or dentists certified as eligible for the coverage period...
beginning the first of July, two thousand [nineteen] twenty, then the general hospitals may certify additional eligible physicians or dentists in a number equal to such general hospital's proportional share of the total number of physicians or dentists for whom excess coverage or equivalent excess coverage was purchased with funds available in the hospital excess liability pool as of the thirtieth of June, two thousand [nineteen] twenty, as applied to the difference between the number of eligible physicians or dentists for whom a policy for excess coverage or equivalent excess coverage was purchased for the coverage period ending the thirtieth of June, two thousand [nineteen] twenty and the number of such eligible physicians or dentists who have applied for excess coverage or equivalent excess coverage for the coverage period beginning the first of July, two thousand [nineteen] twenty.

§ 3. This act shall take effect April 1, 2020, provided, however, if this act shall become a law after such date it shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2020.

section may be renewed for the ensuing period of thirty-six months upon
the filing of an application in conformity with this subsection.

the superintendent at least two months before its expiration, then the

refused to issue such renewal license and given notice of such refusal
to the applicant.

er's license if, in the superintendent's judgment, the applicant or any
member, principal, officer or director of the applicant, is not trust-
worthy and competent to act as or in connection with a pharmacy benefit
manager, or that any of the foregoing has given cause for revocation or
suspension of such license, or has failed to comply with any prerequi-
site for the issuance of such license. As a part of such determination,
the superintendent is authorized to fingerprint applicants or any
member, principal, officer or director of the applicant for licensure.
Such fingerprints shall be submitted to the division of criminal justice

regulations as necessary.

(h) The superintendent may issue a replacement for a currently
in-force license that has been lost or destroyed. Before the replacement
license shall be issued, there shall be on file in the office of the
superintendent a written application for the replacement license,
affirming under penalty of perjury that the original license has been
lost or destroyed, together with a fee of two hundred dollars.

(i) No pharmacy benefit manager shall engage in any practice or action
that a health plan is prohibited from engaging in pursuant to this chap-
ter.

§ 2907. Revocation or suspension of a registration or license of a
pharmacy benefit manager. (a) The superintendent may refuse to renew,
may revoke, or may suspend for a period the superintendent determines
the registration or license of any pharmacy benefit manager if, the
superintendent determines that the registrant or licensee or any member,
principal, officer, director, or controlling person of the registrant or
licensee, has:

(1) violated any insurance laws, section two hundred eighty-a or two
hundred eighty-c of the public health law or violated any regulation,

section two thousand nine hundred six of this article;

(2) provided materially incorrect, materially misleading, materially
incomplete or materially untrue information in the registration or
license application;

(3) obtained or attempted to obtain a registration or license through

(10) failed to pay any assessment required by this article; or
(11) ceased to meet the requirements for registration or licensure under this article.
(b) Before revoking or suspending the registration or license of any pharmacy benefit manager pursuant to the provisions of this article, the superintendent shall give notice to the registrant or licensee and shall hold, or cause to be held, a hearing not less than ten days after the giving of such notice.
(c) If a registration or license pursuant to the provisions of this article is revoked or suspended by the superintendent, then the superintendent shall forthwith give notice to the registrant or licensee.
(d) The revocation or suspension of any registration or license pursuant to the provisions of this article shall terminate forthwith such registration or license and the authority conferred thereby upon all licensees. For good cause shown, the superintendent may delay the effective date of a revocation or suspension to permit the registrant or licensee to satisfy some or all of its contractual obligations to perform pharmacy benefit management services in the state.
(e)(1) No individual, corporation, firm or association whose registration or license as a pharmacy benefit manager has been revoked pursuant to subsection (a) of this section, and no firm or association of which such individual is a member, and no corporation of which such individual is an officer or director, and no controlling person of the registrant or licensee shall be entitled to obtain any registration or license under the provisions of this article for a minimum period of one year after such revocation, or, if such revocation be judicially reviewed, for a minimum period of one year after the final determination thereof affirming the action of the superintendent in revoking such license.
(2) If any such registration or license held by a firm, association or corporation be revoked, no member of such firm or association and no officer or director of such corporation or any controlling person of the registrant or licensee shall be entitled to obtain any registration or license under the provisions of this article for the same period of time, unless the superintendent determines, after notice and hearing, that such member, officer or director was not personally at fault in the matter on account of which such registration or license was revoked.
(f) If any corporation, firm, association or person aggrieved shall file with the superintendent a verified complaint setting forth facts tending to show sufficient ground for the revocation or suspension of
any pharmacy benefit manager's registration or license, then if the superintendent finds the complaint credible, the superintendent shall, after notice and a hearing, determine whether such registration or license shall be suspended or revoked.

(g) The superintendent shall retain the authority to enforce the provisions of and impose any penalty or remedy authorized by this chapter against any person or entity who is under investigation for or charged with a violation of this chapter, even if the person's or entity's registration or license has been surrendered, or has expired or has lapsed by operation of law.

(h) A registrant or licensee subject to this article shall report to the superintendent any administrative action taken against the registrant or licensee or any of the members, officers, directors, or designated employees of the applicant named in the registration or licensing application in another jurisdiction or by another governmental agency in this state within thirty days of the final disposition of the matter. This report shall include a copy of the order, consent to order or other relevant legal documents.

(i) Within thirty days of the initial pretrial hearing date, a registrant or licensee subject to this article shall report to the superintendent any criminal prosecution of the registrant or licensee or any of the members, officers, directors, or designated employees of the applicant named in the registration or licensing application taken in any jurisdiction. The report shall include a copy of the initial complaint filed, the order resulting from the hearing and any other relevant legal documents.

§ 2908. Penalties for violations. (a) In addition to any other power conferred by law, the superintendent may in any one proceeding by order, require a registrant or licensee who has violated any provision of this article or whose license would otherwise be subject to revocation or suspension to pay to the people of this state a penalty in a sum not exceeding the greater of: (1) one thousand dollars for each offense and two thousand five hundred dollars for each subsequent violation; or (2) the aggregate gross receipts attributable to all offenses.

(b) Upon the failure of such a registrant or licensee to pay the penalty ordered pursuant to subsection (a) of this section within twenty days after the mailing of the order, postage prepaid, registered, and addressed to the last known place of business of the licensee, unless the order is stayed by an order of a court of competent jurisdiction, the superintendent may revoke the registration or license of the registrant or licensee or may suspend the same for such period as the superintendent determines.

§ 2909. Stay or suspension of superintendent’s determination. The commencement of a proceeding under article seventy-eight of the civil practice law and rules, to review the action of the superintendent in suspending or revoking or refusing to renew any certificate under this article, shall stay such action of the superintendent for a period of thirty days. Such committees shall include a person designated by the office of mental health, a person designated by the state commissioner of social services and a person designated by the state commissioner of education. The commissioner of mental health shall consult with the conference of local mental hygiene directors and the commissioner of social services shall consult with county commissioners of social services in the area to be served by a committee prior to designating persons to serve on a committee. The commissioners may designate persons who are not state employees to serve on pre-admission certification committees. Membership of pre-admission certification committees shall be limited to persons licensed in accordance with the education law to practice medicine, nursing, psychology, or licensed clinical social work. In the event the persons originally designated to a committee by the commissioners do not include a physician, the commissioner shall designate a physician to serve as an additional member of the committee. Each pre-admission certification committee shall designate five persons representing local governments, voluntary agencies, parents and other interested persons who shall serve as an advisory board to the committee. Consult with the executive director of the council on children and families regarding the establishment of an advisory board. The advisory board shall include, as deemed appropriate by the commissioner and the executive director of the council on children and families, representatives of the members of the council on children and families as specified in section four hundred eighty-three of the social services law, local agency representatives under the jurisdiction of a member agency of the council on children and families. Such board shall have the right to visit residential treatment facilities for children and youth served by the committee and shall have the right to review clinical records obtained by the pre-admission certification committee and shall be bound by the confidentiality requirements of section 33.13 of this chapter.

Applications for admission or transfer of an individual to a residential treatment facility for children and youth must document that there has been an evaluation of the needs of the individual and a determination of the individual's need for treatment in a residential treatment facility for children and youth. Applications shall include an assessment of the individual's psychiatric, medical and social needs prepared in accordance with a uniform assessment method specified by the regulations of the commissioner. The committee may at its discretion refer an applicant to a hospital or other facility operated or licensed by the office for an additional assessment. In the event of such an additional assessment of the individual's needs, the facility conducting the assessment shall attempt to receive all third party insurance or federal reimbursement available as payment for the assessment. The state shall pay the balance of the fees which may be charged by the provider in accordance with applicable provisions of law. In addition, in accordance with section four thousand five of the education law, the pre-admission certification committee shall obtain an evaluation of the educational needs of the child by the committee on special education of the school district of residence. The pre-admission certification committee shall review all requests for evaluation and certification within thirty days of receipt.
of a complete application and any additional assessments it may require and, using a uniform assessment method specified by regulation of the commissioner, evaluate the psychiatric, medical and social needs of the proposed admittee and certify: (i) the individual's need for services in a residential treatment facility for children and youth and (ii) the immediacy of that need, given the availability of such services in the area and the needs of other children evaluated by the committee and certified as eligible for admission to a residential treatment facility for children and youth who have not yet been admitted to such a facility. A pre-admission certification committee shall not certify an individual for admission unless it finds that and the appropriateness of such treatment. In the case of individuals who are applicants or recipients of medical assistance pursuant to title eleven of article five of the social services law, such determination shall also include certification of need for residential treatment facility services in accordance with this section. Where certification is required, an individual will be certified for admission if:

1. Available ambulatory care resources and other residential placements do not meet the treatment needs of the individual;
2. Proper treatment of the individual's psychiatric condition requires in-patient care and treatment under the direction of a physician; and
3. Care and treatment in a residential treatment facility for children and youth can reasonably be expected to improve the individual's condition or prevent further regression so that services will no longer be needed, provided that a poor prognosis shall not in itself constitute grounds for a denial of certification if treatment can be expected to effect a change in prognosis. All decisions of the committee to recommend admission or priority of admission shall be based on the unanimous vote of those present. The decision of the committee shall be reported to the applicant. In the event a committee evaluates a child who is the subject of a proceeding currently pending in the family court, the committee shall report its decision to the family court. Prior to admission and as frequently as the office or its designee deems necessary, the office or its designee may evaluate the medical necessity and quality of services for each Medicaid member. If the office or its designee determines that residential treatment services are no longer appropriate, the determination of the office or its designee shall be reported to the facility and the person, or the person's legally authorized representative. Such determination shall not be effective retroactively.

No residential treatment facility for children and youth shall admit a person who has not been determined appropriate and where appropriate, certified as suitable by the appropriate pre-admission certification committee. Residential treatment facilities shall admit children in accordance with priorities for admission of children most immediately in need of such services established by the pre-admission certification committee serving the facility in accordance with standards established by the commissioner individuals who have been designated as priority admissions by the office or commissioner's designee.

(e) Notwithstanding any inconsistent provision of law, no government agency shall make payments pursuant to title nineteen of the federal social security act or articles five and six of the social services law to a residential treatment facility for children and youth for service
to a person whose need for care and treatment in such a facility was not certified pursuant to this section.

(f) No person shall be admitted to a residential treatment facility for children and youth who has a mental illness which presents a likelihood of serious harm to others; "likelihood of serious harm" shall mean a substantial risk of physical harm to other persons as manifested by recent homicidal or other violent behavior by which others are placed in reasonable fear of serious physical harm.

(g) Notwithstanding any other provision of law, the office or commissioner's designee shall be entitled to review clinical records maintained by any person or entity which pertain to an individual on whose behalf an application is made for admission to a residential treatment facility for children and youth. Any clinical records received by the pre-admission certification committee and all assessments submitted to the committee shall be kept confidential in accordance with the provisions of section 33.13 of the mental hygiene law, provided, however, that the commissioner may have access to and receive copies of such records for the purpose of evaluating the operation and effectiveness of the committee.

Confidentiality of clinical records of treatment of a person in a residential treatment facility for children and youth shall be maintained as required in section 33.13 of this chapter. That portion of the clinical record maintained by a residential treatment facility for children and youth operated by an authorized agency specifically related to medical care and treatment shall not be considered part of the record required to be maintained by such authorized agency pursuant to section three hundred seventy-two of the social services law and shall not be discoverable in a proceeding under section three hundred fifty-eight-a of the social services law or article ten-A of the family court act except upon order of the family court; provided, however, that all other information required by a local social services district or the office of children and family services for purposes of sections three hundred fifty-eight-a, four hundred nine-e and four hundred nine-f of the social services law and article ten-A of the family court act shall be furnished on request, and the confidentiality of such information shall be safeguarded as provided in section four hundred sixty-e of the social services law.

  (e) During the period from April first, two thousand fifteen through
March thirty-first, two thousand twenty-three, the commissioner
may, in lieu of a managed care provider, negotiate directly and enter
into an agreement with a pharmaceutical manufacturer for the provision
of supplemental rebates relating to pharmaceutical utilization by enrollees of managed care providers pursuant to section three hundred sixty-four-j of this title and may also negotiate directly and enter into such
an agreement relating to pharmaceutical utilization by medical assistance recipients not so enrolled. Such rebates shall be limited to drug
utilization in the following classes: antiretrovirals approved by the
FDA for the treatment of HIV/AIDS, opioid dependence agents and opioid
antagonists listed in a statewide formulary established pursuant to
subparagraph (vii) of this paragraph and hepatitis C agents for which
the pharmaceutical manufacturer has in effect a rebate agreement with
the federal secretary of health and human services pursuant to 42 U.S.C.

criteria. No agreement entered into pursuant to this paragraph shall
have an initial term or be extended beyond the expiration or repeal of
this paragraph.
  (i) The manufacturer shall not pay supplemental rebates to a managed
care provider, or any of a managed care provider's agents, including but

drugs subject to this paragraph when the state is collecting supple-
mental rebates and standard clinical criteria are imposed on the managed
care provider.
  (ii) The commissioner shall establish adequate rates of reimbursement
which shall take into account both the impact of the commissioner nego-
tiating such rebates and any limitations imposed on the managed care
provider's ability to establish clinical criteria relating to the utili-
zation of such drugs. In developing the managed care provider's
reimbursement rate, the commissioner shall identify the amount of
reimbursement for such drugs as a separate and distinct component from
the reimbursement otherwise made for prescription drugs as prescribed by
this section.

dent of the senate and the speaker of the assembly annually by December
thirty-first. The report shall analyze the adequacy of rates to managed
care providers for drug expenditures related to the classes under this
paragraph.

(iv) Nothing in this paragraph shall be construed to require a pharma-
ceutical manufacturer to enter into a supplemental rebate agreement with
the commissioner relating to pharmaceutical utilization by enrollees of
managed care providers pursuant to section three hundred sixty-four-j of
this title or relating to pharmaceutical utilization by medical assist-
ance recipients not so enrolled.

(v) All clinical criteria, including requirements for prior approval,
and all utilization review determinations established by the state as
described in this paragraph for [either] any of the drug classes subject
to this paragraph shall be developed using evidence-based and peer-re-

rights relating to access, prior authorization, or appeal relating to
any drug class or drug afforded to a recipient under any other provision
of law.

(vii) The department shall publish a statewide formulary of opioid
dependence agents and opioid antagonists, which shall include all drugs

this subparagraph on a formulary of a managed care provider, as defined
in section three hundred sixty-four-j of this title, or in the Medicaid
fee-for-service preferred drug program pursuant to section two hundred
seventy-two of the public health law, the cost to the department for
such drug is equal to or less than the lowest cost paid for the drug by
any managed care provider or by the Medicaid fee-for-service program
after the application of any rebates, as of the date that the department
implements the statewide formulary established by this subparagraph.
Where there is a generic version of the drug approved by the Food and
Drug Administration as bioequivalent to a brand name drug pursuant to 21
U.S.C. § 355(j)(8)(B), the cost to the department for both the brand and
generic versions shall be equal to or less than the lower of the two
maximum costs determined pursuant to the previous sentence; and

Medicaid fee-for-service preferred drug program pursuant to section two

the Food and Drug Administration as bioequivalent to a brand name drug
pursuant to 21 U.S.C. § 355(j)(8)(B), the cost to the department for
both the brand and generic versions shall be equal to or less than the
lower of the two maximum costs determined pursuant to the previous
sentence.
