New York State and Local Employees' Retirement System. The in-service death benefit will be the value of the pension reserve as if the member had retired on their date of death.

If this legislation is enacted during the 2020 legislative session, we anticipate that there will be an increase in the annual contributions of Nassau County of approximately \$8,100 for the fiscal year ending March 31, 2021. In the future, this cost will vary as the billing rates and salaries of those affected change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$141,000 which will be borne by Nassau County as a one-time payment. This estimate is based on the assumption that payment will be made on February 1, 2021.

These estimated costs are based on 58 affected members employed by Nassau County, with annual salary of approximately \$5.7 million as of March 31, 2019.
